☐ Please keep me informed

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, as a resident of the City of Sacramento, I support this urban infill project.

Sincerely,

Gregg Lukenbill

October 18, 2013

Planning Commission of the City of Sacramento &
Mayor and Members of the Sacramento City Council

As a resident of the of East Sacramento, I support McKinley Village, the proposed infill neighborhood located on the 48 acre site adjacent to the McKinley Park & Meister Terrace neighborhoods. This smart growth community of 328 homes is designed to fit into Sacramento's urban fabric and complement our adjoining neighborhoods. It will become a place where our friends and family will live. So we'll have access to this new neighborhood via 28th Street and the existing "A" Street crossing in Midtown and via "C" Street in East Sacramento.

Thank you for the consideration of your support for this new urban infill neighborhood.

Sincerely,

Signature

It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, as a resident of the [City of Sacramento East Sacramento/Midtown], I support this urban infill project.

Sincerely,

Kathryn Mogavero

Mayor and Members of the Sacramento City Council

As a resident of the of East Sacramento, I support McKinley Village, the proposed infill neighborhood located on the 48 acre site adjacent to the McKinley Park & Meister Terrace neighborhoods. This smart growth community of 328 homes is designed to fit into Sacramento's urban fabric and complement our adjoining neighborhoods. It will become a place where our friends and family will live. Conveniently we will have access to this new neighborhood and a new route to Sutter's Landing Park via "C" Street from East Sacramento, taking traffic off of Midtown streets. The new McKinley Village will surely become a new walking, jogging and bike route to Sutter's Landing and to Midtown.

Thank you for the consideration of your support for this new urban infill neighborhood.

☐ Please keep me informed

As a resident of Midtown, I support the McKinley Village urban infill project. The proposed smart growth community is well designed with public spaces, community recreation centers, tree-lined streets, and attractive homes. The community will complement the adjoining neighborhoods of East Sac and Midtown and would be a welcome addition to the Sacramento area.

I personally would like to see this project completed because I enjoy walking, jogging, and biking in the area already, and I think the development of McKinley Village will make the neighborhoods more enjoyable and safe. A community like this makes sense for the location, as it will provide homes close to employment centers, schools, shopping, restaurants, and other services. It will assist the City in meeting its need for new housing, and the planned homes are attractive to potential buyers because of their energy-efficient design, too.

McKinley Village meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy, and it will create jobs and an economic output of $207 million for the County during construction. As a resident, I cannot think of a better alternative for this area of Sacramento.

For the above reasons, I support this urban infill project.

To: Sacramento City Planning Commission

Re: McKinley Village Neighborhood

To Whom it May Concern:

I am a resident of the City of Sacramento and live in Mid-Town. My family and I support the proposed McKinley Village infill neighborhood. We regularly use the facilities at Mc Kinley Park and realize the dire need for a well planned development that allows for off street parking that mitigates congestion. The current neighborhoods date back to the coming of the railroads and were designed for horse and buggy travel and were not designed to the state of the art environmental standards designed into McKinley Village.

McKinley Village a well planned environmentally friendly development is located on a 48 acre site adjacent to the East Sacramento and McKinley Park neighborhoods. The 328 homes are designed to fit into our urban fabric and complement adjoining neighborhoods without contributing to congestion.

☐ Please keep me informed

I sought out Phil Angelides late last year to discuss his plans for McKinley Village. I live at 324 35th Street and I will be one of the more impacted residents of McKinley Village.

I have spend numerous hours asking questions and studying this project and believe McKinley Village is a responsible infill development, thoughtfully designed to blend with McKinley Park and East Sacramento neighborhoods. I very much appreciate the aesthetic attention to quality and detail, the tree-lined streets, extensive landscaping, parks, recreation center, well-designed homes with modern amenities that are energy efficient.

I believe the developer has thought through important issues such as connectivity to the surrounding neighborhood, sound, air quality, flooding, and traffic impact. I also believe he has taken my questions and those of my neighbors seriously and responded with answers that show a lot of research and thought have gone into his decisions.

McKinley Village is a significant investment in the downtown Sacramento area and reflects the kind of infill development that is needed. I support this project.

October 22, 2013

Planning Commission of the City of Sacramento &
Mayor and Members of the Sacramento City Council

As a resident of the of East Sacramento, I support McKinley Village, the proposed infill neighborhood located on the 48 acre site adjacent to the McKinley Park & Meister Terrace neighborhoods. This smart growth community of 328 homes is designed to fit into Sacramento's urban fabric and complement our adjoining neighborhoods. It will become a place where our friends and family will live. Conveniently we will have access to this new neighborhood and a new route to Sutter's Landing Park via "C" Street from East Sacramento, taking traffic off of Midtown streets. The new McKinley Village will surely become a new walking, jogging and bike route to Sutter's Landing and to Midtown.

Thank you for the consideration of your support for this new urban infill neighborhood.

Sincerely,

Ashley Pane

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, as a resident of the City of Sacramento, I support this urban infill project.

Sincerely,

October 22, 2013

Planning Commission of the City of Sacramento &
Mayor and Members of the Sacramento City Council

As a resident of the of East Sacramento, I support McKinley Village, the proposed infill neighborhood located on the 48 acre site adjacent to the McKinley Park & Meister Terrace neighborhoods. This smart growth community of 328 homes is designed to fit into Sacramento's urban fabric and complement our adjoining neighborhoods. It will become a place where our friends and family will live. Conveniently we will have access to this new neighborhood and a new route to Sutter's Landing Park via "C" Street from East Sacramento, taking traffic off of Midtown streets. The new McKinley Village will surely become a new walking, jogging and bike route to Sutter's Landing and to Midtown.

Thank you for the consideration of your support for this new urban infill neighborhood.

Sincerely,

Signature

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, I support this urban infill project.

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, I support this urban infill project.

McKinley Village is a thoughtfully designed, well planned infill neighborhood proposed to be built in the heart of the Sacramento region. It will provide homes close to employment centers, schools, shopping, restaurants, and other services. The project will increase housing choices within our urban core, offering energy efficient homes with modern amenities and assisting the City in meeting its need for new housing.

Located on 48 acres adjacent to the McKinley Park neighborhood, this smart growth community of 328 homes - with tree lined streets and homes that are consistent with the character of surrounding neighborhoods - meets the standards of the Sacramento Area Council of Government's Sustainable Communities Strategy.

McKinley Village will create a significant investment in and economic benefit to the Sacramento area. During construction, McKinley Village is projected to generate approximately $207 million in economic output in Sacramento County and create critically needed jobs.

For the above reasons, I support this urban infill project.

As a resident of the City of Sacramento, I support McKinley Village, a proposed neighborhood located adjacent to the East Sacramento and McKinley Park neighborhoods. This community of 336 homes is designed to fit into Sacramento's urban fabric.

Sincerely,

Faith Cortez

As a resident of the City of Sacramento, I support McKinley Village, a proposed infill neighborhood located on a 48 acre site adjacent to the East Sacramento and McKinley Park neighborhoods. This smart growth community of 328 homes is designated to fit into Sacramento's urban fabric and complement adjoining neighborhoods.

Sincerely,

Kevin Hannigan
