Description/Analysis

Issue: This is a yearly procedure as prescribed in Government Code § 39561 et seq. This procedure provides that if the respective owners do not abate the nuisances, a City Contractor may abate them at a cost determined by competitive bidding from licensed City Contractors plus an administrative charge of $100.00 as set by Council action. See Government Code § 39576.5.

Policy Considerations: Pursuant to Government Code § 39561 et seq. and Chapter 8.28 of the Sacramento City Code authorizes abatement thereof, weeds growing upon the streets, sidewalks, or private property in the City.

Environmental Considerations: In the event the Weed Abatement Officer detects a potentially sensitive area, the condition will be reported to the Environmental Services Division for direction and to be compliable to CEQA. Abatement will be suspended at that location until instruction is provided. This process is similar to the approach taken when potentially hazardous materials are located at an abatement site.

Sustainability: There are no sustainability considerations as listed in the Sustainability Master Plan applicable to declaring properties that were determined to need abatement of weed and rubbish.

Commission/Committee Action: None.

Rationale for Recommendation: The Sacramento City Fire Department requests authorization to proceed with the weed and rubbish abatement program to eliminate hazards to the health, safety, and well-being of the citizens of the City of Sacramento, pursuant to Government Code § 39561 et seq. and Chapter 8.28 of the Sacramento City Code.

Financial Considerations: The cost to print and mail annual weed abatement notices to owners of vacant parcels within the city is estimated at $3,500. Funds are available in the program's FY2011/12 budget. The City's weed abatement program operates on full cost recovery.

Emerging Small Business Development (ESBD): No goods or services are being purchased as a result of this proposed resolution.

Background

The weed abatement program was initiated on July 10, 1969, and has been in effect since the City of Sacramento first adopted the standards for weed and rubbish abatement. A database was created comprised of the hereinafter described real property in the City of Sacramento that was covered by weeds, rubbish, refuse and dirt; and said weeds, rubbish, refuse, and dirt that constituted a hazard to the health, safety, and well-being of the citizens of the City of Sacramento. Routine inspections made by the Fire Prevention Officers as requested ensure that the described real property has been added to our database and/or is eliminated from our database when the property no longer constitutes a potential hazard to the health, safety, and well-being of the citizens of the City of Sacramento.

Presently 7,378 weed and rubbish abatement notifications go out to parcel owners. Of those approximately 860 will require abatement by the City of Sacramento due to lack of abatement by parcel owner. The real property on which said nuisances exist is on file at the Sacramento Fire Department, 5770 Freeport Blvd., Suite 200, Sacramento, CA 95822, and the office of the City Clerk, in Historic City Hall at 915 I Street, 1st floor, Sacramento, CA 95814.

An invoice will be issued by the City of Sacramento for abatement at the completion of the weed abatement season. Non-payment may result in the cost of the abatement being placed as a lien against the property.
