Background: To assist the community in developing and submitting redistricting plans staff, in partnership with a software vendor, has developed, free to the public, online tools and resources. The online tools allow users to interactively redraw boundaries, share plans with others, create reports, and submit plans.

The mapping tool is an interactive and dynamic map containing city streets, neighborhoods, parks, and aerial photography, in addition to 2010 Census Block level geography for population and race. The application allows users to choose from a number of selection tools to determine which Census blocks to assign to existing council districts. Navigation tools in the application allow users to zoom and pan within the council districts when choosing block data assignments.

May 16th was the deadline for submittal of redistricting plans. The City of Sacramento has received 37 plans from the community and interested parties. The plans are now available at the City of Sacramento's 2011 Redistricting Website www.CityofSacramento.org/redistricting and in Attachment A.

Respectfully Submitted by:
