Approvals/Acknowledgements

Department Director or Designee: Wendy Klock-Johnson - 9/7/2016 8:14:39 PM

Description/Analysis

Issue Detail: After conducting interviews for open board and commission seats, the Personnel & Public Employees Committee reviews applications and forwards nominations to the Mayor for appointment.

Policy Considerations: None.

Economic Impacts: None.

Environmental Considerations: None.

Sustainability: None.

Commission/Committee Action: None.

Rationale for Recommendation: The Personnel & Public Employees Committee conducts interviews for available positions on City advisory boards and commissions to identify the most qualified candidate(s). Subsequent to conducting interviews, the Committee reviews applications and forwards nominations to the Mayor for appointment.

Financial Considerations: None.

Local Business Enterprise (LBE): None.

Attachment 02 – Background & Interview Summaries

Planning and Design Commission (Nominations)

BACKGROUND: There are nine candidates applying to fill one vacancy in **Seat J:** A member with demonstrated interest, training, or experience in master planning; land use or land policy; housing policy; large scale construction; urban planning; urban design; or mid and high-rise urban, commercial, institutional, and mixed use projects, recommended for appointment by the Personnel and Public Employees Committee on the Planning and Design Commission. The following is a brief history of compliance requirements for incumbents on this Commission.

VACANCY INFORMATION

Are you currently, or have you in the past, served on a city advisory body?

Yes No

If Yes, provide the name of the meeting body and how that service supports your application:

Sacramento Planning and Design Commission (PDC), 05/12 - present. This experience strongly supports my application during a time of increased development and economic activity within the City. (Please note: I currently serve in "Seat F," with a term that extends to 12/31/16; I know I would need to give up the last year of that term, if I were appointed to this seat.) Sacramento Charter Review Committee, 04/09 - 01/10 - This experience exposed me to various aspects of Sacramento City government, and it continues to serve me well to better understand the role of the PDC in context of city government overall.

Do you, or any immediate family member, have any relationship (professional, financial or otherwise) that may present a potential conflict of interest for the meeting body applied for?

Yes No

If Yes, please explain:

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

I have been an active resident for over 20 years, engaged in local neighborhood, social service, and political groups. I believe I am a strong advocate for diverse community voices, from all ranges of society. As a planning and design commissioner for over 3 1/2 years, I have sought opportunities to make the process more accessible to members of the general public and fully air public concerns. At the same time, I have been acutely sensitive to the need for the commission to conduct itself in a manner that adheres to longstanding city policies, promotes an environment of regulatory stability, and supports the city's long-range economic development vision. As an attorney with a long career in state policy making, I have also brought numerous skills to the commission, including state-local finance, property taxation, regulatory law, and government law practices, such as open meetings.

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

As an Architect and recent graduate of the Community Development's Planning Academy, I would like to further my participation and leadership potential through the public design and review process. I have a broad range of professional and pro-bono design and management experience ranging from single family residential to larger mixed-use developments to small community development projects. Along with this experience, I bring with me LEED Accreditation with a diverse understanding of the socio-economic influences and impacts to and from the built environment. Sacramento is a culturally and resource-rich city. I would be honored to help retain this richness while also promoting an even more sustainable, more resilient, and more liveable Sacramento as a member of the Planning and Design Review Board.

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

I have demonstrated my interest in planning, urban design and development in the City of Sacramento through my various leadership roles in the American Planning Association, Sacramento Valley Section, Young Planners Group and Mentorship program, and active participation within our communities as a member of the Sacramento Neighborhood Coalition and Vision Zero Steering Committee with WALKSacramento and the Sacramento Area Bicycle Advocates. Additionally, I have been working on reinstating my neighborhood association of Colonial Village in District 6 with fellow neighbors and other community leaders in District 5. My participation in the City of Sacramento's Citizens Planning Academy has educated me about Sacramento's planning practices and procedures, and has informed me of planning, development and design regulations and how they impact the greater community. Through my professional work, I have extensive experience with governing bodies and Board regulations pertinent to the Brown Act, contained in section 54950 et seq. of the Government Code. I also have extensive knowledge in infill development and affordable housing, and community collaboration and engagement.

Are you currently, or have you in the past, served on a city advisory body?

Yes No

If Yes, provide the name of the meeting body and how that service supports your application:

Do you, or any immediate family member, have any relationship (professional, financial or otherwise) that may present a potential conflict of interest for the meeting body applied for?

Yes No

If Yes, please explain:

I am a licensed architect and occasionally have projects that go before this commission.

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

I have been an active volunteer most of my life; from dog walking at Animal Care Services to Habitat for Humanity builds. I have never had the opportunity to use my professional experience to benefit my community. As a recently licensed, young architect I would bring a unique perspective to the committee and represent a demographic of our community usually missing from committees and advisory boards.

Are you currently, or have you in the past, served on a city advisory body?

Yes No

If Yes, provide the name of the meeting body and how that service supports your application:

Do you, or any immediate family member, have any relationship (professional, financial or otherwise) that may present a potential conflict of interest for the meeting body applied for?

Yes No

If Yes, please explain:

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

As a long-standing, Sacramento based, architect I am acutely aware of the importance of high quality planning and design efforts in our City. Renewed interest in our downtown core is resulting in a significant re-imagination of what Sacramento can accomplish and I believe that I have the unique qualities necessary to help the goals of the City. Architectural Experience As a Partner, Design Director and Project Designer at Dreyfuss + Blackford Architecture for over 26 years I've led the design efforts for dozens of high quality projects in Sacramento and the surrounding region. These projects have included everything from small scale commercial buildings to very large institutional and public buildings. These projects have often included very complex urban design solutions that were successful because they were developed through collaborative processes that provided transparency. Sustainability is also a key component in our work and has led to accomplishments like helping to create the first LEED Gold State Office Building in California and achieving LEED Platinum Certification on the CAISO Headquarters Complex. Other Professional and Community Based Experience My continued membership and involvement in the American Institute of Architects Central Valley Chapter (AIACV) has provided a conduit for opportunities to contribute to our community. A partial list: - Co-founder and co-leader of "Architecture Matters: Design Forum" a regular open forum community event to discuss design and what it means to our environment. - Primary Advisor to the City of Sacramento on the "Catalyst: Capitol Mall International Design Competition. - Creator of "Understanding Architecture", an educational document that gives decision makers a tool for understanding context and design quality. Presented to groups like CADA and the Planning and Design Commission. - Promotion of quality design through involvement in numerous design awards program at both local and State levels. - Several years as a member of the Board of Directors of AIACV including serving as 2014 Chapter President. For brevity I've kept this to an overview of my most relevant experience but additional qualifications are available upon request.

Are you currently, or have you in the past, served on a city advisory body?

Yes No

If Yes, provide the name of the meeting body and how that service supports your application:

Preservation Commissioner August 2012- Present. I did not reapply, but am continuing to serve until a replacement is found.

Do you, or any immediate family member, have any relationship (professional, financial or otherwise) that may present a potential conflict of interest for the meeting body applied for?

Yes No

If Yes, please explain:

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

The reason I want to be a member of this advisory body: I want to remain involved and see our City become unique and exemplary as we evolve with the challenges of the 21st Century. We are not Portland or San Francisco or any other place - we are Sacramento - and we should make the most of it! I believe we need to be aware of and to encourage the emergence of a "Sacramento Valley Style" that celebrates our abundant sunshine, our rivers, our fertile soil, our Delta Breeze, our mild climate and the gardens and verdant landscape that thrives here. With all the attention turning to the urban core and infill, the Railyards and our water front, we need to have projects carefully vetted to make the most of each and every opportunity that a development project brings. We need to be serious and specific to the development community about how to include and embrace outdoor space, outdoor rooms and living greenery, sidewalk and outdoor dining - with architecture that provides ample shelter and shade to the environs. We should work using science and best practices to reduce the urban heat island effect so that infra red photography proves we are making a difference by design. Sunlight, rain (when we get it), soil, water and plant life - we are blessed with an abundance of all these. If we work with these factors as the form-givers, then we will truly have a unique and special City - one that will provide an inspiration. We will become the City that others come to to see how it's done! What experience, community activity and qualifications do I have? I am a fifth generation Northern Californian, and I am comfortable with public speaking. I have lived and worked in Sacramento since 1987 with an ongoing interest in "Green" Design and best practices in Construction. Prior to that I have lived in Philadelphia, PA, in North Oakland and Berkeley, CA and have traveled extensively in Europe in 1977, 1982 and 1985. I also spent 3 weeks in Japan in 1971 - so I've seen a bit of the world. I have run my own Design and Construction business for 26 years (since 1990 - after an internship with Lionakis) doing mostly residential remodel, additions and restoration/rehabilitation work on historic buildings - as the greenest building is the one that is already there. I am a Licensed General Contractor since 1989, Licensed Architect since 1992. I have been involved in my Neighborhood Association (Midtown) board as Board Chair for about 10 years (now immediate past chair) and have lived in Midtown since 1989 in a 1903 Four-Square home I have completely remodeled - TWICE (second time due to a 2013 fire - it's a long story). In 2005-2006 I was involved as a citizen with the Development Oversight Commission, engaged in the discussion on best practices and streamlining for the City of Sacramento's application and review process. One result was the change from the old Design Review and Preservation Board to the new Commissions and tiered project review system of today. Since 2010 - upon invitation, I have been teaching both online and in the classroom as Adjunct Professor of Architecture at Cosumnes River College. The course is called "Introduction to Green Building I and II" which is about sustainable methods of heating, cooling and lighting. In 2011 I headed one of the Teams that submitted design concepts for the "Catalyst" Design competition for Capitol Mall. In 2012, I was suggested by the current Preservation Director Roberta Deering to apply - and being appointed in August of that year, I am still serving as a Preservation Commissioner until they find a replacement for my seat there as a Licensed Contractor with Preservation work experience. Upon hearing of this opening with the PDC (Planning and Design Commission), I have decided to apply. I would like to continue to serve my Community as Sacramento evolves into the best City it can be - unique and proud and beautiful.

Address:

Job Duties:

See also website: www.ecologic-builders.com A new name and business entity for our Construction company - based on old values and with over 25 years of experience in rehab, remodeling, urban infill, tenant improvement, and new, innovative energy efficient building techniques. Our solid basis in Building Science led us to develop the "RaVe Roof" System® of incorporating radiant barriers and ventilation systems for re-roof and new construction which has been installed on several different projects with great success. We excel at energy efficient remodels, upgrades and have experience doing two vegetated or "living roof" systems here in Sacramento. Our motto "Building that Makes Sense" speaks to our value based approach to sustainable design and construction. During the recession (approx. 2009 - 2015) - design fee income dropped drastically. I personally got back into hands-on Construction, doing a series of Design/Build projects until mid 2015. Our last project - the Federalist Public House - where we were the Architect of record and builders of the Green Roof system - was on the Sacramento Business Journal's list of 10 best Real Estate Projects of 2015 - in good company along with Sutter Hospital's new facility, the Warehouse Artist Lofts, 16 Powerhouse and Paragary's new flagship restaurant makeover.

List each civil action, if any, in which punitive or exemplary damages have been assessed against you, provide the trial date, the court judgement, and location of the court for each instance.

In over 25 years of business and after literally hundreds of jobs and clients, I am proud to say that I have had few if any issues involving the court. All but the existing were settled without going trial. Upon my own search, I do see some cases that came up due to 1) Bankruptcy of a client where I had to file a lien as a Plaintiff in 1992 and got a small judgement in my favor from the Defendant, 2) In 1996 due to a Fire and subsequent case filed against my Liability Insurance (settled by Insurance Co., twice), 3) in 2015 a case brought by a mailman bitten by my dog while I was working on a job in 2013 - yet to be settled or brought to court. I am happy to answer any questions about any of these cases.

As a licensed Architect living and working in Urban Sacramento, I have both a professional and personal vested interest in the Urban Development of this city. I chose to build my home in an urban infill lot and feel that diversity and accessibility (from a pedestrian experience) is critical to a successful city. In University (I have my BArch) my focus was on urban planning as well as Architecture. I am actively involved in public schools at the elementary and middle school level, and want to help insure that Sacramento remain a great place to raise kids by giving them a positive Urban place to grow. I am from Toronto, Canada and spent 16 years in San Francisco. I know what user friendly, and accessible cities look like: the scale, the old and new co-existing, the ease of movement through the city, the moments of surprise, and the feeling of safety that good Urban decisions can create. As Sacramento is growing, setting a positive pattern for growth is critical.

Applicant Interest Statement

Please state the reason(s) you would like to be a member of this city advisory body and share any additional experience, community activities, or other qualifications that would be helpful in evaluating your application.

Protecting Sacramento's values and preserving its treasures is the ultimate goal of this committee with policymakers and citizens alike working towards this goal. As a result of this push, the region has benefited a great deal through increased livability. The city is now taking a new form and identity. A growing population, bustling economic vitality and countless large-scale capital improvement projects are evidence the City of Sacramento is on the path to great success. Watching this evolution has been one of my greatest joys since first growing up here, and although this success is likely to continue, ensuring it's maintained and guided effectively will be paramount at such a critical juncture. The challenge is coupled with whether those most adept to carry out this direction are not only active, but that their perspective is also complimented with innovative attempts to enrich the quality of life for all Sacramento's residents. Valued committee members already bring experience to their seats; my goal is to compliment their insight in their mission. This is why I am submitting my application for this commission. Experience, perspective and deep personal ties to Sacramento make me a qualified candidate capable of taking on the responsibilities that come with being appointed to this committee to provide the necessary perspective to shape the city for the better. I possess a fresh perspective and proven leadership with a background spanning the fields of technology, real estate and urban planning sectors. Whether in my current position as a Redevelopment Planner repositioning the City and County of Sacramento's housing portfolio; my previous position leading the data-related expansion efforts for an \$800 million real-estate technology company into luxury real estate markets across the nation; or the project management of massive redevelopment projects affecting entire communities in the Bay Area through capital injections exceeding \$15 million. These successes, experiences and passions outline the value I'm able to bring to this committee. It is my hope that you consider these in my appointment for the City of Sacramento's Planning and Design Commission.
