Project Summary

Briefly summarize your proposal here. Describe the programs or project for which this grant is being requested. (Maximum 250 words)

Our proposal is to use Artscapes grant funds to put on a three-day music festival in October 2008, known as the Northern California Experimental Music Festival.

The Northern California Experimental Music Festival is a weekend-long festival, typically occurring in October, featuring three days of performances by experimental musicians from northern California and around the world. The Noisefest also produces media, including compact discs and DVDs, recording and distributing the work of Sacramento experimental musicians.

This year, our plan is to build on the successes of the Noisefest with a more extensive outreach campaign. This campaign will include more comprehensive advertising, direct contact with local university music departments and school districts. We also hope to attract more well-known experimental musicians to increase public interest and potential attendance, while continuing our tradition of supporting less well-known performers. Both of these goals require more starting funds than the Noisefest can generate.

We are soliciting funds in order to provide additional resources to pay for intensified advertising and outreach, and provide more payment to Festival performers than in previous years. This will help us reach our organizational goals of promoting experimental music in Sacramento, and promoting Sacramento as an arts destination around the country.
