

RESOLUTION NO. 2008-111

Adopted by the Sacramento City Council

February 26, 2008

WEST EL CAMINO BRIDGE REPLACEMENT PROJECT (PN: TZ71, T15038200) APPROVING A CONSTRUCTION MANAGEMENT SERVICES AGREEMENT WITH TRC

BACKGROUND

- A. The project will replace the structurally deficient West El Camino Bridge over Steelhead Creek (a.k.a. Natomas East Main Drainage Canal). The decaying timber structure bridge was constructed in 1945 and is rated structurally deficient. Ongoing maintenance and repairs are not effective in maintaining the structural integrity of the decaying structure.
- B. The construction management agreement provides for a registered engineer to perform bridge inspections, an office engineer/inspector, and material testing to ensure compliance with all federal, state and local requirements.
- C. Requests for Proposals were advertised; nine firms responded. A panel consisted of Caltrans and City staff from the Engineering Services Divisions reviewed and evaluated the firms' proposals based on experience and qualifications, and recommends the contract be awarded to TRC.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1. The City Manager is authorized to execute a Construction Management Services Agreement with TRC in the amount not to exceed \$549,943 for the West El Camino Bridge Replacement Project (PN: TZ71, T15038200).
