Description/Analysis

Issue: According to the Sacramento City Code, the existing district is required to present an annual budget to City Council for approval. Approval of the district's annual budget will authorize the City to collect assessments in the amount sufficient to provide funding for maintenance of water quality areas and landscaping improvements which are located in and/or adjacent to residential subdivisions in this district for FY2008/09.

Policy Considerations: The annual proceedings for this district are being processed as set forth in Section 3.124.190 of the Sacramento City Code. This process is consistent with the City's Strategic Plan 3-Year Goal to "achieve sustainability and enhance livability".

Environmental Considerations: Under California Environmental Quality Act (CEQA) guidelines, annual proceedings of a Special District do not constitute a project, and are therefore exempt from review.

Committee/Commission Action: None

Rationale for Recommendation: The actions in the recommended Resolutions are required by the Sacramento City Code, as set forth in Section 3.124.190, for annual proceedings of an existing district.

Financial Considerations: The district is self-supporting and has no impact on the General Fund. The cost of maintenance for the Water Quality Mitigation Program will be funded through the Neighborhood Water Quality District. The total assessment amount for the five subdivisions for FY2008/09 is estimated to be \$79,475. The cost for each subdivision as well as a breakdown of cost per single-family lot is provided in Exhibit B, page 10, and detailed in the Engineer’s Report on file with the City Clerk.

Formal amendment to the City’s FY2008/09 budget will be brought under separate action after adoption of the Citywide budget.

Emerging Small Business Development (ESBD): City Council approval of these proceedings is not affected by City policy related to the ESBD Program.
