**Honorable Mayor and
Members of the City Council**

Title: Ordinance: Amending City Code Chapter 8.28 Relating to Weed and Rubbish Abatement

Location/Council District: Citywide

Recommendation: 1) Adopt an Ordinance amending Sections 8.28.010 through 8.28.040 of Title 8 of the Sacramento City Code relating to Weed and Rubbish Abatement under Health and Safety

Contact: Troy Malaspino, Assistant Chief, Fire Marshal, 808-1620

Presenter: Not Applicable

Department: Fire

Division: Fire Prevention

Organization No: 12001141

Description/Analysis

Issue: City Code Chapter 8.28 does not accurately reflect the responsibility and authority for citywide weed and rubbish abatement. Previously, the Neighborhood Services Manager was responsible for administering all weed and rubbish abatement. In the mid-1990's responsibility for vacant land weed and rubbish abatement was transferred to the Fire Department. Weed and rubbish abatement of property associated with a dwelling was reassigned to the Code Enforcement Department. Chapter 8.28 was never amended to reflect those changes.

Policy Considerations: The proposed ordinance is consistent with the Sacramento City's Strategic Plan goals of enhancing the quality of life by providing accurate and open access to government.

Environmental Considerations:

California Environmental Quality Act (CEQA): This report concerns administrative actions and is not subject to the California Environmental Quality Act (CEQA) because it does not constitute a "project" as defined in section 15378 of the CEQA Guidelines.

Sustainability Considerations: There are no sustainability considerations applicable to the amending of City Code Chapter 8.28 relating to weed and rubbish abatement.

Committee/Commission Action: The recommended ordinance was heard by the Law and Legislation Committee on August 7, 2008, and recommended for council action pursuant to Sacramento City Charter (32c).

Rationale for Recommendation: The purpose of the proposed ordinance changes is to clarify the authority and responsibility for administering the weed and rubbish abatement program.

Financial Considerations: There are no financial considerations associated with this action.

Emerging Small Business Development (ESBD): No goods or services are being purchased as a result of this proposed ordinance.

Background

Current city code reflects previous authority for all weed and rubbish abatement as the Neighborhood Services Manager. In the mid 1990's authority for weed and rubbish abatement of vacant lands was assigned to the Sacramento Fire Department, while Neighborhood Services - Code Enforcement Division retained authority of weed and rubbish abatement of properties that contain a dwelling. Since then, the Code Enforcement Division has been made a department level organization. The proposed changes update the code to reflect the current responsibilities for weed and rubbish abatement.

Overall abatement has been responsible for reducing the number of grass and trash fires by approximately 900 each year, while abating about 1000 vacant lots throughout the city. The program operates at full cost recovery.
