Subject: Protest 4.5% rise in water bill

Parcel Number: 117-1260-001-0000

Dear City Clerk,

The City of Sacramento has not decreased its use of water around city buildings. The landscape design is based on the English climate with the assumption of plentiful rain and grazing sheep. The City has not campaigned for less water use in residential or commercial landscaping. If the City of Sacramento had done so-there would not be a need to increase water bills at a time when such an increase cannot be tolerated by seniors on fixed income, state workers with a 5% decrease in pay and the severe economic crisis.

Sincerely,

Carol York
