Public Comments-Matters Not on the Agenda	Steve Vincent	District 4	Oppose	Regarding agenda item "Medical Cannabis Ordinance" (closed session? Law & Legislation Committee)? I oppose the City Council's actions in placing a "moratorium" on any type of business? especially when based on unsubstantiated claims that crime or other undesirable factors are increased. I hope the City Council will support individual freedom? and focus on real crime where there are actual victims involved... instead of walking the path of regulating choices of law-abiding? consenting adults.
