Description/Analysis

Issue: On October 6, 2009, the City Council approved a resolution (#2009-623) authorizing an agreement with SCUSD to provide eleven (11.00) FTE School Resource Police Officers and one (1.00) FTE Police Sergeant at SCUSD campuses for a not to exceed amount of \$6,906,000. The Sacramento Police Department (SPD) is requesting City Council approval to amend the existing agreement with

SCUSD (#2009-0908) by adding one (1.00) additional Police Officer FTE as a School Resource Officer at school campuses and increasing the agreement not to exceed amount by \$454,437. The School District will fund the costs associated with the assignment of this officer during the remainder of the existing agreement, including salaries, benefits and vehicle maintenance and operational costs. The City Council's approval will provide for the enhancement of the School Resource Officer Program that has proven to be an effective method of providing for the safety and security of students and faculty at District campuses.

Policy Considerations: Approving the amended agreement with SCUSD is consistent with the action taken by the City Council in 2009 and with the City's on-going commitment to and policy addressing student safety at public school campuses.

Environmental Considerations:

California Environmental Quality Act (CEQA): This action is not subject to the California Environmental Quality Act (CEQA) because it does not constitute a "project" as defined in section 15378 of the CEQA Guidelines, and is otherwise exempt pursuant to section 15061(b)(3) (no significant effect on the environment) of the CEQA Guidelines.

Sustainability Considerations: Not applicable

Commission/Committee Action: Not applicable

Rationale for Recommendation: The School Resource Officer Program enhances the Police Department's ability to provide effective public safety and security by physically assigning Police Officers to provide law enforcement services on City school campuses. In doing so, the Police Officer is able to forge relationships with students, faculty and administrators that facilitate early intervention into problems on campus and crime prevention. Moreover, these Officers provide a direct connection between the schools and the full capabilities of the Department's specialty units in responding to and investigating crimes that occur on campus.

Financial Considerations: The salary, benefits and vehicle costs associated with the additional one (1.00) FTE School Resource Officer will be fully funded by the SCUSD during the school year. During the summer school recess, the Police Officer will be reassigned to perform patrol and other law enforcement responsibilities. The SPD will fund the position (\$24,405) out of existing operating budget resources when the Officer is not assigned to patrol school campuses. If funding is decreased or the agreement is suspended the additional one (1.00) FTE School Resource Officer position will be eliminated.

Emerging Small Business Development (ESBD): Not applicable.

Background

The SPD has assigned full-time Police Officers to serve as School Resource Officers at local school campuses for several years. The officers provide an important, visible and effective presence at school campuses and work to further the Department's interests in providing for the public's safety and security.

School Resource Officers are able to establish and develop relationships with students, faculty, administrators and member of the neighborhoods surrounding school campuses. The officers' direct day-to-day contacts facilitate their effectiveness in preventing crime and addressing problems proactively. Moreover, these officers provide a direct connection between the schools and the full capabilities of the Department's specialty units in responding to and investigating crimes that occur on campus. They also serve as first responders to emergencies and provide a direct communications link for emergency services. During the summer recess when school is not in session, the officers are reassigned to perform patrol or other law enforcement responsibilities within the Department. The costs paid for by the District are for police services that occur during the school year only.

In 2009, the City Council authorized the City Manager to enter into an agreement with SCUSD to continue the School Resource Officer Program. SCUSD has requested that an amended agreement be established that will add one (1.00) additional School Resource Officer to the Program. SCUSD will fund the costs of the additional Police Officer FTE as well as the vehicle maintenance and operational costs. All other provisions of the original agreement will remain in full effect.

The City Council's approval of the Resolution authorizing the City Manager to execute the new agreement with SCUSD will enhance the School Resource Officer Program that has proven to be an effective method of providing for the safety and security of students and faculty at District campuses.
