Description/Analysis

Issue: On February 1, 2011, the City Council directed staff to bring forward a Resolution to establish a Redistricting Citizens Advisory Committee. The Resolution is attached.

Policy Considerations: The Citizens Advisory Committee approach is consistent with City's policy of community participation and can be accommodated within the six month period pursuant to the Charter.

Environmental Considerations:

California Environmental Quality Act (CEQA): Establishing a Citizens Advisory Committee does not constitute a project which requires compliance with the CEQA, inasmuch as it does not involve an activity which may cause a direct or indirect change in the environment (Public Resources Code Section 21065).

Sustainability Considerations: None.

Commission/Committee Action: Not applicable.

Rationale for Recommendation: The proposed redistricting Citizens Advisory Committee process could broaden civic engagement consistent with the City's culture of open and transparent government.

Financial Considerations: On January 18, 2011, the City Council approved Resolution 2011-033 which established a multi-year CIP (I07000700) for redistricting activities and allocated \$160,000 to the effort. No additional funding is requested.

Emerging Small Business Development (ESBD): Not applicable

Background

At its January 18, 2011, meeting, the City Council approved a community participation process for redistricting. Staff was then directed to report back with additional information regarding the possible formation of a citizens advisory committee. Staff returned to Council on February 1, 2011 where Council approved the formation of a citizens advisory committee.

The attached Resolution establishes the 2011 Sacramento Redistricting Citizens Advisory Committee (SRCAC). The Resolution defines the purpose, composition, selection, and timeframe of the SRCAC. The Committee will represent the diversity of Sacramento, hold public meetings, analyze redistricting proposals, recommend options, and report back to Council. The purpose of the proposed Resolution is to allow broad community participation and input – at both the committee and the Council. The SRCAC will not replace the Council’s responsibility for the final selection and adoption of district boundaries.

The narrative below explains the Sections of the Resolution.

1. Establishing the Committee

This section formally establishes the Sacramento Redistricting Citizens Advisory Committee.

2. Purpose

The SRCAC is to be an *advisory* body. The SRCAC’s fundamental purposes are to review, organize, analyze, and refine the redistricting proposals submitted to the City, as well as to recommend to the City Council preferred redistricting proposals. The City Charter places ultimate redistricting responsibility upon the Council.

3. Scope, Charge and Timetable of the Committee

The SRCAC must review and understand the current council district boundaries and the data set upon which district boundary changes must be based – the U.S. Census. (Subsection (a).) Then SRCAC will receive from City staff all the submitted redistricting proposals. It is anticipated that the SRCAC will add value to the redistricting process by reviewing, organizing, analyzing, and refining, as necessary, those redistricting proposals. (Subsection (b).) The committee has the flexibility to synthesize maps or create a map of its own. Subsection (b) expressly states the SRCAC may (but need not) prepare its own redistricting proposal.

Subsection (c) is the express recognition of the SRCAC as a “Brown Act body,” making it subject to same agenda and open meeting requirements as the Council.

Subsections (d) and (e) require the committee to produce work product for the Council’s (and public’s) benefit. These subsections are drafted to be broad directives that set

minimum expectations without restricting the committee's advisory capabilities.

4. Committee Composition and Member Appointment

Subsection (a) provides that the SRCAC should reflect the demographic diversity of the City. "Demographic" diversity here is meant in the broader sense to include: gender, race, age, income, language, education, occupation, etc. As Council is seeking a "citizens committee," subsection (a) also establishes members are City voters.

Per Council's direction the committee will be composed of thirteen-members. Each councilmember and the mayor will appoint one member to the committee. The remaining four (4) members will be appointed through the usual P&PE nomination process. To ensure adequate diversity on the committee, appointments will be staggered. The first nine appointments by Council and the Mayor should be made three weeks before P&PE nominations are approved (subdivision (c)). The proposed schedule gives members approximately three weeks to choose appointees (plus a week to get those appointees to the full Council for approval). To give P&PE adequate opportunity to review applications after Council approves the individually-appointed members, March 15 appears the most reasonable date for its consideration of applicants. P&PE's recommendations could then go to Council on March 22 or 29.

Subsection (d) is standard practice for committees and commissions. Given the short time frame for the committee's work, Council must be able to quickly act to remove and replace a member – for example, a member who fails to show the first several meetings. Subsection (e) provides for removal without cause.

5. General Provisions

SRCAC members will review proposals from many groups, and make recommendations on boundary changes that affect residents, businesses, and elected officials. They should be expected to discharge those duties free of any conflicts of interest. Requiring members to file Statements of Economic Interest (Form 700's) serves the dual purpose of alerting members themselves to potential financial conflicts and allows the public to monitor for potential conflicts, Subsection (a).

Subsection (b) contains the criteria the City Charter requires Council to consider in the redistricting process. The SRCAC's considerations should align with those of the Council to ensure that the committee's recommendations meet the City Charter's redistricting requirements. These criteria are not the only criteria that can be considered by the committee, i.e., they are "non-exclusive."

Subsections (c), (d), and (e) are basic internal rules for the committee. It is suggested, in subsection (e) that relevant portions of the Council Rules of Procedure be followed, as an expedient way for the committee to conduct its business without undue delay over adopting its own rules.

Subsection (f) includes a set of general principles for the committee to abide.

Finally, the mechanics of redistricting process will of necessity flow through City staff, notably Planning and IT staff. The SRCAC will need strong City staff support during its intense schedule. The SRCAC will need assistance in many respects – with information gathering, procedural issues, report preparation, etc. Therefore, it is further recommended that the SRCAC be staffed by City personnel, including representatives of the City Clerk, City Attorney, and City Manager, all of whom may see a need to devote more than one staff person to assist (Subsection (g)).

6. Meeting Schedule

Evening meetings are suggested to allow maximum public participation. Staff recommends meeting dates on April 25; May 2, 9, 16, 23; June 6, 13, 20 (optional), 27; July 11, 18 (optional).

7. Sunset

The sunset date of the SCRAC is September 27, 2011. The sunset date can be changed by City Council motion.
