Description/Analysis

Issue: Council approval is requested for a professional services contract with Brown and Caldwell to provide an Enterprise Application Integration tool (EAI) for the Department of Utilities. This project is partially in response to the Department of Utilities Operational Efficiency and Cost Savings Audit completed in July 2011 (2011 Audit). The EAI tool will provide a common tool to access information from various data sources and present the information in a format that can easily be used for analysis.

Policy Considerations: The recommendation in this report is in accordance with the provisions of City Code Chapter 3.64 and AP 4102, governing the procurement of professional services. This project is part of the Department of Utilities ongoing response to the 2011 Audit.

Environmental Considerations: California Environmental Quality Act (CEQA): The action requested in this staff report does not constitute a “project” and is not subject to the California Environmental Quality Act (CEQA), in accordance with CEQA Guidelines Section 15378(b)(5) [administrative activities that will not result in physical changes to the environment].

Sustainability: There are no sustainability considerations applicable to approving the agreement.

Commission/Committee Action: Not applicable

Rationale for Recommendation: On September 15, 2011, staff released a Request for Qualifications (RFQ) to provide an Enterprise Application Integration (EAI) tool for the Department of Utilities. Nine (9) companies submitted a Statement of Qualifications (SOQ). A selection committee of City staff from the Utilities Department and the IT Department evaluated the SOQs and selected Brown and Caldwell as the top ranked firm to provide an EAI tool.

Financial Considerations: The total estimated project cost is \$300,000. The unobligated balance of Capital Improvement Project W14120100 is sufficient to fund the Brown and Caldwell agreement.

Emerging Small Business Development (ESBD): Brown and Caldwell is not a certified ESBD.

Background

The Department of Utilities (DOU) utilizes several computerized systems to support its business operations. Some of the systems include: work order management, utility billing, closed circuit television (CCTV) pipe inspection, geographic information system (GIS), supervisory control and data acquisition (SCADA), and document management. Frequently, data must be extracted from two or more systems and then compiled for analysis. This process is time consuming, subject to errors, and limits the ability of the Department to efficiently and fully utilize data and perform analysis. DOU requires an application integration solution that will provide a common platform to access the data from various data sources and present the information in a format that can easily be used for analysis.

This project responds to at least one of the recommendations from the Department of Utilities Operational Efficiency and Cost Savings Audit completed in July 2011 (2011 Audit). Specifically, audit recommendation E, suggested that a better integrated work order system could save the Department up to \$165,000 per year. The Department agrees with this audit recommendation and believes well integrated systems could lead to significant cost savings and more efficient use of data.

A Professional Services Agreement has been prepared with Brown and Caldwell for an amount not to exceed \$300,000 to provide an EAI tool. This report requests authorization to execute the agreement between the City and Brown and Caldwell.

Phase I – Program Development

The schedule provided below assumes a February 6th 2012 start date.

Task PI.1 Project Management

Objective:

Ensure the project is successfully delivered within the City schedules and meet City's expectations.

Approach:

An initial activity for this task is developing the Project Management Plan (PMP). The PMP will be used as a guide to meet project objectives. Detailed project instructions and planning tools are specified in the PMP, including project team organization, responsibilities, work plan, organization, responsibilities, work plan progress evaluation and change control.

BC's Project Manager, Allan Scott, will meet with the DOU Project Manager monthly to provide project status reports and review project progress. This will provide ongoing communication between BC and the City.

Task PI.2 Kickoff meeting

Objective:

Provide project overview and discuss project objectives with DOU staff and stakeholders. Establish the Leadership Committee and the change management process.

Approach:

BC will facilitate a project kickoff meeting with DOU to verify project goals, review project plans, and schedule workshops. Two additional activities under this task will be to establish an EAI Leadership Committee and define the change management process. The EAI Leadership Committee will be the core decision-making body for the project. The committee should be composed of six to eight DOU representatives who understand the essential DOU mission, goals, and business practices. The BC team will work with the committee to make key project decisions, help facilitate organizational change taking place as work practices are modified and systems are implemented, and communicate information and decisions with other DOU staff on implementation steps.

Schedule: One week starting on or around February 7, 2012.

Deliverables:

Project kickoff presentation materials and meeting notes
Leadership Committee charter
Change management process documentation

City Participation:

Participate in project kickoff meeting
Participate in Leadership Committee
Help develop change management process

Task PI.3 Needs Analysis

Objective:

Identify and document DOU business, technology, and data needs.

Approach:

BC will conduct a series of interviews and workshops to document key business practices for each division, document existing technology systems, identify key data needs and gaps, and identify data maintenance recommendations.

Department and Division Workshops. These will be the first workshops conducted in this task. The objective of these workshops will be to understand DOU's primary responsibilities as a whole and as separate departments. Critical business processes will be identified and discussed, as will their effectiveness toward meeting DOU's mission and primary goals. Division meetings will include Engineering, Plant Services, Field Services, and Business Services. In addition, BC will conduct an overview of technology systems to define a system baseline and their current status at DOU. Participants in these workshops will be Division Managers and other Department leaders.

Business Practice Workshops. Once the initial workshops are completed, BC will prioritize the DOU business practices and select key practices for detailed definition. BC will conduct business practice workshops to document the current associated work processes, identify critical data needed to support the practices, and compare each business practice to the overall Department objectives to identify and prioritize potential process improvements. Participants will include key DOU staff with detailed knowledge of the business practices discussed.

Data Management Workshops. BC will evaluate core data requirements generated from the business practice workshops in more detail in a series of data management workshops. The objective of these workshops is to identify and prioritize key data needs and gaps. BC will evaluate data maintenance practices, including identifying data custodians (who will manage the data) and data owners (who are responsible for the data) so that each data element has a maintenance plan. This will be the first step in building a data management culture to maintain sustainable and reliable data. BC will identify data maintenance recommendations needed to begin building the supporting processes. These will be the baseline for improved data maintenance procedures and developing a data maintenance training program to be implemented during Phase II. Key participants in this process will be DOU IT staff, GIS staff and data owners.

BC will meet regularly with the Leadership Committee to discuss findings, opportunities and recommendations. BC will use these meetings to validate what has been learned, obtain consensus on project decisions, gather additional information where needed, and communicate news and progress back to general DOU staff.

Schedule: One month starting on or around February 7, 2012.

Deliverables:

Workshop meetings and notes
Business practice workflows
Data management plans, including data maintenance recommendations

City Participation:

Selected staff will participate in each of the workshops
Participate in Leadership Committee meetings

Task PI.4 Recommendations

Objective:

Evaluate alternative EAI solutions and select the best solution.

Approach:

BC will evaluate the information collected during workshops and interviews, elaborate on implementation alternatives, and refine recommendations for business process changes to provide a sustainable solution that fits into the DOU business culture. BC will consolidate their findings and analysis into a Needs Analysis document that supports their recommendations. This document will be reviewed by the Leadership Committee and other select DOU staff. Once approved, BC will finalize alternatives and recommendations.

BC will facilitate the evaluation criteria development with the Leadership Committee so that EAI software alternatives can be objectively considered. These criteria will be applied to the alternatives to select the best solution. Criteria will be project-specific, but could include ratings matrices, problem statements to test each software alternative, and organized product demonstrations to showcase software alternatives. Once these criteria are established, BC will work with the Leadership Committee to evaluate and rank each of the candidate EAI alternatives. BC will guide the selection process and lead the team to select the software solution that best fits the defined needs.

Schedule: Three months starting on or around February 28, 2011.

Deliverables:

Draft and Final EAI Needs Analysis Technical Memorandum
EAI evaluation criteria
Alternatives analysis
Software recommendation

City Participation:

Participate in evaluation criteria development
Leadership Committee will work with BC team to evaluate alternatives and select the best solution

Phase II – Implementation

Task PII.1 Planning

Objective:

Plan for implementation.

Approach:

Implementation Planning. This will cover the planning steps to successfully implement the selected solution. BC will develop the master implementation schedule and include activities to procure, configure, test and deploy the selected solution. This plan will be used to coordinate other planning aspects related to data development, technology and resource planning. BC will provide transition plans to minimize disruption to current business processes during implementation.

Data Development Planning. In parallel with software implementation, data development activities will take place to update and correct data, configure data repositories, and fill data gaps. BC will put these efforts into a plan that prioritizes data development activities necessary to support the key processes. A data development budget has been reserved for BC participation in the data development efforts. Recommendations will include how BC will participate in accordance with this budget and will identify additional activities to be completed by City staff to fill the identified data gaps.

Technology Planning. Technology planning will address the technology infrastructure needed to support the overall solution. This could mean identifying commercial applications needed (e.g., Microsoft SQL Server); selecting or procuring server and storage space; and establishing development, testing and production environments needed for implementation or addressing other technical issues.

Resource Planning. For the EAI solution to be sustainable, the DOU must have the skills and

availability to maintain it. Resource planning will address the technical staff needed to maintain the system and the resources needed to support the identified data management improvements to be implemented. BC will consider the skill sets needed and level of effort estimates so the DOU can anticipate future maintenance and support needs.

Schedule: Two months starting on or around June 5, 2012 (assuming timely City acceptance of Needs Analysis recommendations and technology selection).

Deliverables:

Draft and Final Implementation Plan
Draft and Final Data Development Plan
Draft and Final Technology Plan

City Participation:

Review and comment on each plan

Task PII.2 Design

Objective:

Design the solution to meet the business needs identified in Phase I.

Approach:

BC will focus on organizing and defining the user interface, and the reports and maps needed for the solution. BC will define any details related to system architecture, including planned middleware applications configuration, defined data elements and repositories, and specifications for any needed support software. The optimum EAI solution will leverage existing DOU investments in technology systems. BC will collaborate with the software vendors, Leadership Committee, and other key DOU staff to make sure the interface, reports, and maps meet DOU usability requirements and the specifications identified in the Needs Analysis. This will be accomplished through prototyping and developing example interfaces and output products to solicit feedback. Comments will be incorporated into the final design.

Schedule: Four months starting on or around June 5th (assuming timely City acceptance of Planning Task documents).

Deliverables:

Architecture and prototyping work products
Prototype evaluation notes and findings

City Participation:

Participate in prototype review and architecture planning meetings
Review meeting notes and decision documents

Task PII.3 Configuration

Objective:

Configure the solution for evaluation.

Approach:

BC will work with the DOU to manage the configuration according to the established plans. The established plans will use an iterative approach for configuration that will produce 'Alpha' and 'Beta' releases of the configured solution for evaluation. Any deviations or issues encountered will be communicated to the DOU project manager, and the established change management approach will be used for issue resolution and decision-making.

BC will identify actions that can be completed early on to achieve early benefits of the new solution, test the effectiveness of solutions, and generate new information that can be used to improve subsequent configuration and implementation activities. BC will address critical data gaps and other data development needs as described in the Data Development Plan.

Schedule: Five months beginning on or around June 5, 2011.

Deliverables:

"Alpha" and "Beta" versions of the solution
Change management log
Updated critical data sets

City Participation:

Evaluate the "Alpha" and "Beta" versions of the solution
Participate in change management issues resolution
Assist in data development activities

Task PII.4 Implementation**Objective:**

Deploy the solution into the production environment.

Approach:

User Acceptance Testing (UAT). BC will deploy a version of the solution for testing and train DOU staff on how to test the solution and record any issues. BC will prioritize and address the identified issues so the most critical issues can be addressed first; secondary issues will be addressed as time and budget allow. BC will fix critical and high-priority issues that prevent the solution from functioning according to the needs analysis requirements. Once these issues are addressed, the system will be ready for production deployment.

Training and Knowledge Transfer. Training and knowledge transfer will take place in both formal and informal training sessions. One-on-one work sessions will provide the DOU with the knowledge and expertise necessary to maintain the system, manage the data, and use the solution to obtain critical information.

Deployment. BC will document deployment activities in a System Deployment Plan that describes the steps, schedule, technical requirements, and roles and responsibilities needed to efficiently deploy the system. This plan will be reviewed by the DOU so that it can be updated to fit DOU's needs. Once finalized, it will be used as the roadmap to guide final implementation and deployment.

Schedule: Two months beginning on or around November 27, 2011. (Assuming acceptance of UAT by City)

Deliverables:

User acceptance testing, training materials, test plan, and Issue log
Draft and Final system
Implementation Plan
Installation and user guides

City Participation:

Assist or direct production deployment as needed
Participate in user acceptance testing (performed by Leadership Committee or a small representative group of testers)

PROFESSIONAL SERVICES AGREEMENT FOR DESIGN SERVICES

GENERAL PROVISIONS

1. Independent Contractor.

- A. It is understood and agreed that CONTRACTOR (including CONTRACTOR's employees) is an independent contractor and that no relationship of employer-employee exists between the parties hereto for any purpose whatsoever. Neither CONTRACTOR nor CONTRACTOR's assigned personnel shall be entitled to any benefits payable to employees of CITY. CITY is not required to make any deductions or withholdings from the compensation payable to CONTRACTOR under the provisions of this Agreement, and CONTRACTOR shall be issued a Form 1099 for its services hereunder. As an independent contractor, CONTRACTOR hereby agrees to indemnify and hold CITY harmless from any and all claims that may be made against CITY based upon any contention by any of CONTRACTOR's employees or by any third party, including but not limited to any state or federal agency, that an employer-employee relationship or a substitute therefor exists for any purpose whatsoever by reason of this Agreement or by reason of the nature and/or performance of any Services under this Agreement. (As used in this Exhibit D, the term "Services" shall include both Services and Additional Services as such terms are defined elsewhere in this Agreement.)
- B. It is further understood and agreed by the parties hereto that CONTRACTOR, in the performance of its obligations hereunder, is subject to the control and direction of CITY as to the designation of tasks to be performed and the results to be accomplished under this Agreement, but not as to the means, methods, or sequence used by CONTRACTOR for accomplishing such results. To the extent that CONTRACTOR obtains permission to, and does, use CITY facilities, space, equipment or support services in the performance of this Agreement, this use shall be at the CONTRACTOR's sole discretion based on the CONTRACTOR's determination that such use will promote CONTRACTOR's efficiency and effectiveness. Except as may be specifically provided elsewhere in this Agreement, the CITY does not require that CONTRACTOR use CITY facilities, equipment or support services or work in CITY locations in the performance of this Agreement.
- C. If, in the performance of this Agreement, any third persons are employed by CONTRACTOR, such persons shall be entirely and exclusively under the direction, supervision, and control of CONTRACTOR. Except as may be specifically provided elsewhere in this Agreement, all terms of employment, including hours, wages, working conditions, discipline, hiring, and discharging, or any other terms of employment or requirements of law, shall be determined by CONTRACTOR. It is further understood and agreed that CONTRACTOR shall issue W-2 or 1099 Forms for income and employment tax purposes, for all of CONTRACTOR's assigned personnel and subcontractors.

D. The provisions of this Section 1 shall survive any expiration or termination of this Agreement. Nothing in this Agreement shall be construed to create an exclusive relationship between CITY and CONTRACTOR. CONTRACTOR may represent, perform services for, or be employed by such additional persons or companies as CONTRACTOR sees fit provided that CONTRACTOR does not violate the provisions of Section 5, below.

2. **Licenses; Permits, Etc.** CONTRACTOR represents and warrants that CONTRACTOR has all licenses, permits, City Business Operations Tax Certificate, qualifications, and approvals of whatsoever nature that are legally required for CONTRACTOR to practice its profession or provide any services under the Agreement. CONTRACTOR represents and warrants that CONTRACTOR shall, at its sole cost and expense, keep in effect or obtain at all times during the term of this Agreement any licenses, permits, and approvals that are legally required for CONTRACTOR to practice its profession or provide such Services. Without limiting the generality of the foregoing, if CONTRACTOR is an out-of-state corporation, CONTRACTOR warrants and represents that it possesses a valid certificate of qualification to transact business in the State of California issued by the California Secretary of State pursuant to Section 2105 of the California Corporations Code.
3. **Time.** CONTRACTOR shall devote such time and effort to the performance of Services pursuant to this Agreement as is necessary for the satisfactory and timely performance of CONTRACTOR's obligations under this Agreement. Neither party shall be considered in default of this Agreement, to the extent that party's performance is prevented or delayed by any cause, present or future, that is beyond the reasonable control of that party.
4. **CONTRACTOR Not Agent.** Except as CITY may specify in writing, CONTRACTOR and CONTRACTOR's personnel shall have no authority, express or implied, to act on behalf of CITY in any capacity whatsoever as an agent. CONTRACTOR and CONTRACTOR's personnel shall have no authority, express or implied, to bind CITY to any obligations whatsoever.
5. **Conflicts of Interest.** CONTRACTOR covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, that would conflict in any manner with the interests of CITY or that would in any way hinder CONTRACTOR's performance of Services under this Agreement. CONTRACTOR further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor, without the written consent of CITY. CONTRACTOR agrees to avoid conflicts of interest or the appearance of any conflicts of interest with the interests of CITY at all times during the performance of this Agreement. If CONTRACTOR is or employs a former officer or employee of the CITY, CONTRACTOR and any such employee(s) shall comply with the provisions of Sacramento City Code Section 2.16.090 pertaining to appearances before the City Council or any CITY department, board, commission or committee.
6. **Confidentiality of CITY Information.** During performance of this Agreement, CONTRACTOR may gain access to and use CITY information regarding inventions, machinery, products, prices, apparatus, costs, discounts, future plans, business affairs, governmental affairs, processes, trade secrets, technical matters, systems, facilities, customer lists, product design, copyright,

data, and other vital information (hereafter collectively referred to as "City Information") that are valuable, special and unique assets of the CITY. CONTRACTOR agrees to protect all City Information and treat it as strictly confidential, and further agrees that CONTRACTOR shall not at any time, either directly or indirectly, divulge, disclose or communicate in any manner any City Information to any third party without the prior written consent of CITY. In addition, CONTRACTOR shall comply with all CITY policies governing the use of the CITY network and technology systems, as set forth in applicable provisions of the City of Sacramento Administrative Policy Instructions # 30. A violation by CONTRACTOR of this Section 6 shall be a material violation of this Agreement and shall justify legal and/or equitable relief.

7. CONTRACTOR Information.

- A. CITY shall have full ownership and control, including ownership of any copyrights, of all information prepared, produced, or provided by CONTRACTOR pursuant to this Agreement. In this Agreement, the term "information" shall be construed to mean and include: any and all work product, submittals, reports, plans, specifications, and other deliverables consisting of documents, writings, handwritings, typewriting, printing, photostating, photographing, computer models, and any other computerized data and every other means of recording any form of information, communications, or representation, including letters, works, pictures, drawings, sounds, or symbols, or any combination thereof. CONTRACTOR shall not be responsible for any unauthorized modification or use of such information for other than its intended purpose by CITY.
- B. CONTRACTOR shall fully defend, indemnify and hold harmless CITY, its officers and employees, and each and every one of them, from and against any and all claims, actions, lawsuits or other proceedings alleging that all or any part of the information prepared, produced, or provided by CONTRACTOR pursuant to this Agreement infringes upon any third party's trademark, trade name, copyright, patent or other intellectual property rights. CITY shall make reasonable efforts to notify CONTRACTOR not later than ten (10) days after CITY is served with any such claim, action, lawsuit or other proceeding, provided that CITY's failure to provide such notice within such time period shall not relieve CONTRACTOR of its obligations hereunder, which shall survive any termination or expiration of this Agreement. The foregoing shall apply only to claims relating to Contractor's Enterprise Application Integration Tool and any commercial software purchased as part of the solution.
- C. All proprietary and other information received from CONTRACTOR by CITY, whether received in connection with CONTRACTOR's proposal to CITY or in connection with any Services performed by CONTRACTOR, will be disclosed upon receipt of a request for disclosure, pursuant to the California Public Records Act; provided, however, that, if any information is set apart and clearly marked "trade secret" when it is provided to CITY, CITY shall give notice to CONTRACTOR of any request for the disclosure of such information. The CONTRACTOR shall then have five (5) days from the date it receives such notice to enter into an agreement with the CITY, satisfactory to the City Attorney, providing for the defense of, and complete indemnification and reimbursement for all costs (including plaintiff's attorney fees) incurred by CITY in any legal action to compel the disclosure of such information under the California Public Records Act. The CONTRACTOR shall have sole responsibility for defense of the actual "trade secret" designation of such information.

D. The parties understand and agree that any failure by CONTRACTOR to respond to the notice provided by CITY and/or to enter into an agreement with CITY, in accordance with the provisions of subsection C, above, shall constitute a complete waiver by CONTRACTOR of any rights regarding the information designated "trade secret" by CONTRACTOR, and such information shall be disclosed by CITY pursuant to applicable procedures required by the Public Records Act.

8. Standard of Performance. CONTRACTOR shall perform all Services required pursuant to this Agreement in the manner and according to the standards currently observed by a competent practitioner of CONTRACTOR's profession in California. All products of whatsoever nature that CONTRACTOR delivers to CITY pursuant to this Agreement shall be prepared in a professional manner and conform to the standards of quality normally observed by a person currently practicing in CONTRACTOR's profession, and shall be provided in accordance with any schedule of performance specified in Exhibit A. CONTRACTOR shall assign only competent personnel to perform Services pursuant to this Agreement. CONTRACTOR shall notify CITY in writing of any changes in CONTRACTOR's staff assigned to perform the Services required under this Agreement, prior to any such performance. In the event that CITY, at any time during the term of this Agreement, desires the removal of any person assigned by CONTRACTOR to perform Services pursuant to this Agreement, because CITY, in its sole discretion, determines that such person is not performing in accordance with the standards required herein, CONTRACTOR shall remove such person immediately upon receiving notice from CITY of the desire of CITY for the removal of such person.

9. Term; Suspension; Termination.

A. This Agreement shall become effective on the date that it is approved by both parties, set forth on the first page of the Agreement, and shall continue in effect until both parties have fully performed their respective obligations under this Agreement, unless sooner terminated as provided herein.

B. CITY shall have the right at any time to temporarily suspend CONTRACTOR's performance hereunder, in whole or in part, by giving a written notice of suspension to CONTRACTOR. If CITY gives such notice of suspension, CONTRACTOR shall immediately suspend its activities under this Agreement, as specified in such notice.

C. CITY shall have the right to terminate this Agreement at any time by giving a written notice of termination to CONTRACTOR. If CITY gives such notice of termination, CONTRACTOR shall immediately cease rendering Services pursuant to this Agreement. If CITY terminates this Agreement:

(1) CONTRACTOR shall, not later than five days after such notice of termination, deliver to CITY copies of all information prepared pursuant to this Agreement.

(2) CITY shall pay CONTRACTOR the reasonable value of Services rendered by CONTRACTOR prior to termination; provided, however, CITY shall not in any manner be liable for lost profits that might have been made by CONTRACTOR had the Agreement not been terminated or had CONTRACTOR completed the Services required by this Agreement. In this regard, CONTRACTOR shall

furnish to CITY such financial information as in the judgment of the CITY is necessary for CITY to determine the reasonable value of the Services rendered by CONTRACTOR. The foregoing is cumulative and does not affect any right or remedy that CITY may have in law or equity.

10. Indemnity.

- A. Indemnity: CONTRACTOR shall defend, hold harmless and indemnify CITY, its officers and employees, and each and every one of them, from and against any and all claims, actions, damages, costs, liabilities, demands, losses, judgments, penalties and expenses of every type and description, including, but not limited to, any fees and/or costs reasonably incurred by CITY's staff attorneys or outside attorneys and any fees and expenses incurred in enforcing this provision (hereafter collectively referred to as "Claims"), including but not limited to Claims arising from personal injury or death, damage to personal, real or intellectual property or the environment, contractual or other economic damages (excluding incidental, consequential or indirect damages arising from errors or omissions in the performance of CONTRACTOR's professional services), or regulatory penalties, that arise out of, pertain to or relate to any negligent act or omission, recklessness or willful misconduct of CONTRACTOR, its sub-consultants, subcontractors or agents, and their respective officers and employees, in connection with performance of or failure to perform this Agreement, whether or not such Claims are litigated, settled or reduced to judgment; provided that the foregoing indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, damage or expense to the extent arising from (i) the sole negligence or willful misconduct of, or defects in design furnished by, CITY, its agents, servants, or independent contractors who are directly responsible to CITY, or (ii) the active negligence of CITY.
- B. Insurance Policies; Intellectual Property Claims: The existence or acceptance by CITY of any of the insurance policies or coverages described in this Agreement shall not affect or limit any of CITY's rights under this Section 10, nor shall the limits of such insurance limit the liability of CONTRACTOR hereunder. This Section 10 shall not apply to any intellectual property claims, actions, lawsuits or other proceedings subject to the provisions of Section 7.B., above. The provisions of this Section 10 shall survive any expiration or termination of this Agreement.

11. Insurance Requirements. During the entire term of this Agreement, CONTRACTOR shall maintain the insurance coverage described in this Section 11.

Full compensation for all premiums that CONTRACTOR is required to pay for the insurance coverage described herein shall be included in the compensation specified for the Services provided by CONTRACTOR under this Agreement. EXHIBIT E

REQUIREMENTS OF THE NON-DISCRIMINATION IN EMPLOYEE BENEFITS CODE

INTRODUCTION

The Sacramento Non-Discrimination In Employee Benefits Code (the "Ordinance"), codified as Sacramento City Code Chapter 3.54, prohibits City contractors from discriminating in the provision of employee benefits between employees with spouses and employees with domestic partners, and between the spouses and domestic partners of employees.

APPLICATION

The provisions of the Ordinance apply to any contract or agreement (as defined below), between a Contractor and the City of Sacramento, in an amount exceeding \$25,000.00. The Ordinance applies to that portion of a contractor's operations that occur: (i) within the City of Sacramento; (ii) on real property outside the City of Sacramento if the property is owned by the City or if the City has a right to occupy the property; or (iii) at any location where a significant amount of work related to a City contract is being performed.

The Ordinance does not apply: to subcontractors or subcontracts of any Contractor or contractors; to transactions entered into pursuant to cooperative purchasing agreements approved by the Sacramento City Council; to legal contracts of other governmental jurisdictions or public agencies without separate competitive bidding by the City; where the requirements of the ordinance will violate or are inconsistent with the terms or conditions of a grant, subvention or agreement with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or agreement; to permits for excavation or street construction; or to agreements for the use of City right-of-way where a contracting utility has the power of eminent domain.

DEFINITIONS

As set forth in the Ordinance, the following definitions apply:

"Contract" means an agreement for public works or improvements to be performed, or for goods or services to be purchased or grants to be provided, at the expense of the City or to be paid out of moneys deposited in the treasury or out of the trust money under the control or collected by the City. "Contract" also means a written agreement for the exclusive use ("exclusive use" means the right to use or occupy real property to the exclusion of others, other than the right reserved by the fee owner) or occupancy of real property for a term exceeding 29 days in any calendar year, whether by singular or cumulative instrument, (i) for the operation or use by others of real property owned or controlled by the City for the operation of a business, social, or other establishment or organization, including leases, concessions, franchises and easements, or (ii) for the City's use or occupancy of real property owned by others, including leases, concessions, franchises and easements.

"Contract" shall not include: a revocable at-will use or encroachment permit for the use of or encroachment on City property regardless of the ultimate duration of such permit; excavation, street construction or street use permits; agreements for the use of City right-of-way where a contracting utility has the power of eminent domain; or agreements governing the use of City property that constitute a public forum for activities that are primarily for the purpose of espousing or advocating causes or ideas

and that are generally protected by the First Amendment to the United States Constitution or that are primarily recreational in nature.

“Contractor” means any person or persons, firm partnership or corporation, company, or combination thereof, that enters into a Contract with the City. “Contractor” does not include a public entity.

“Domestic Partner” means any person who has a currently registered domestic partnership with a governmental entity pursuant to state or local law authorizing the registration.

“Employee Benefits” means bereavement leave; disability, life, and other types of insurance; family medical leave; health benefits; membership or membership discounts; moving expenses; pension and retirement benefits; vacation; travel benefits; and any other benefit given to employees. “Employee benefits” shall not include benefits to the extent that the application of the requirements of this chapter to such benefits may be preempted by federal or state.

CONTRACTOR’S OBLIGATION TO PROVIDE THE CITY WITH DOCUMENTATION AND INFORMATION

Contractor shall provide the City with documentation and information verifying its compliance with the requirements of the Ordinance within ten (10) days of receipt of a request from the City. Contractors shall keep accurate payroll records, showing, for each City Contract, the employee’s name, address, Social Security number, work classification, straight time pay rate, overtime pay rate, overtime hours worked, status and exemptions, and benefits for each day and pay period that the employee works on the City Contract. Each request for payroll records shall be accompanied by an affidavit to be completed and returned by the Contractor, as stated, attesting that the information contained in the payroll records is true and correct, and that the Contractor has complied with the requirements of the Ordinance. A violation of the Ordinance or noncompliance with the requirements of the Ordinance shall constitute a breach of contract.

EMPLOYER COMPLIANCE CERTIFICATE AND NOTICE REQUIREMENTS

(a) All contractors seeking a Contract subject to the Ordinance shall submit a completed Declaration of Compliance Form, signed by an authorized representative, with each proposal, bid or application. The Declaration of Compliance shall be made a part of the executed contract, and will be made available for public inspection and copying during regular business hours.

(b) The Contractor shall give each existing employee working directing on a City contract, and (at the time of hire), each new employee, a copy of the notification provided as Attachment “A.”

(c) Contractor shall post, in a place visible to all employees, a copy of the notice provided as Attachment “B.”
