Description/Analysis

Issue: The Laguna Creek Maintenance District (District) is required by the Sacramento City Code to present an Engineer's Annual Report, annual budget, and proposed levy to City Council for approval. Approval will authorize the City to collect assessments in the amount sufficient to provide funding for maintenance of the Laguna Creek Wetlands Mitigation Program and the landscaped areas in this District for Fiscal Year (FY) 2012/13.

Policy Considerations: This action supports Best Management Practices to provide funding for environmental monitoring and maintenance activities associated with the Laguna Creek Wetlands Mitigation Program as required by the U.S. Army Corps of Engineer's Permit.

Environmental Considerations

California Environmental Quality Act (CEQA): Under CEQA guidelines, annual proceedings of a special district do not constitute a project, and are therefore exempt from review.

Sustainability Considerations: There are no sustainability considerations applicable to the formation process and administration of a special district.

Committee/Commission Action: None

Rationale for Recommendation: The actions in the recommended resolution are required by the Sacramento City Code, as set forth in Chapter 3.124, for annual proceedings of an existing district.

Financial Considerations: The District is self-supporting and has no impact on the General Fund. The cost of maintenance for the Laguna Creek Wetlands Mitigation Program, together with the landscaped areas, will be funded by the District. The total assessment for FY2012/13 is projected at \$147,150 as shown on Exhibit B and as detailed in the attached Engineer's Report (Exhibit D).

The proposed total assessment in FY2012/13 represents a 23.7% decrease in assessments over the FY2011/12 tax period and is the result of the use of excess fund balance to offset District expenses in FY2012/13.

Emerging Small Business Development (ESBD): City Council approval of these proceedings is not affected by City policy related to the ESBD Program.

BACKGROUND

The Laguna Creek wetlands area was constructed in 1988. On April 16, 1991, the City Council approved formation of the Laguna Creek Maintenance District (District). The District provides funding for environmental monitoring and maintenance activities associated with the Laguna Creek Wetlands Mitigation Program. The monitoring and maintenance work is required to comply with a Section 404 Permit (No. 9570) issued by the U.S. Army Corps of Engineers to the City of Sacramento. The adopted monitoring program identified a five-to-eight year monitoring period, which has been completed along with the required remediation work. The ongoing purpose of the district is to provide continued maintenance and monitoring to ensure compliance with the 404 permit, which includes a public education element as described below.

Monitoring and Maintenance Program

The Laguna Creek wetlands maintenance area includes the primary creek channel and adjacent wetlands, wetlands preserved to the south of the floodway, and adjacent turf areas. The maintenance area also includes channel improvements and wetlands located west of Franklin Boulevard which were constructed as part of the Laguna Creek Floodway project. The work that is intended to be funded by the annual maintenance district includes:

- Maintenance and repair of irrigation systems.
- Maintenance and operation of planting basins, including fertilization, pruning, staking, turf and grassland mowing, disking fire breaks, litter control, and patrolling.
- Maintenance of bikeways and landscaping adjacent to the wetlands area.
- Unscheduled maintenance such as repair of damage due to vandalism, flood or fire, and temporary irrigation of vernal pools not wetted by natural events.
- Public outreach, including design and development of interpretive signage, education workshops, nature walks, information for the kiosk (i.e. community information center), and for wetlands articles in the North Laguna Creek Neighborhood Association newspaper.

RESOLUTION NO.

Adopted by the Sacramento City Council

ADOPTING THE LAGUNA CREEK MAINTENANCE DISTRICT ENGINEERS ANNUAL REPORT, ANNUAL BUDGET AND LEVYING AN ASSESSMENT FOR FISCAL YEAR (FY) 2012/13

BACKGROUND:

- A. The Laguna Creek Maintenance District (District), as depicted in Exhibit A, was established by the City Council and approved by the property owners on April 16, 1991.
- B. The City Council established the District under Chapter 3.124 of the Sacramento City Code (“Chapter 3.124”), and has previously levied assessments on property in the District to pay for landscaping maintenance services and related services to be provided within the District, all in accordance with Chapter 3.124.
- C. The proposed total assessment in FY2012/13 represents a 23.7% decrease as compared to the total assessment in the current year (FY2011/12) and is the result of use of excess fund balance to offset District expenses in FY2012/13.
- D. The Council is fully advised in this matter.

BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:

- Section 1.** The City Council finds and determines that the background statements A through D are true and correct.
- Section 2. The Engineer’s Annual Report (Exhibit D) is approved.
- Section 2.** The Supervising Engineer of the Department of Transportation, the person designated by this Council as the Engineer of Work for the District, is hereby directed to file the Engineer’s Annual Report with the Public Improvement Financing Division, which has been designated by the City Clerk to be the repository of documents associated with special districts.
- Section 3.** The City Council:
 - (a) Adopts the annual budget set forth in the FY2012/13 Engineer’s Annual Report and as shown on Exhibit B.

- (b) Levies the assessment set forth in the FY2012/13 Engineer's Annual Report and as shown on Exhibit C.
- (c) Directs the City Clerk to record in the office of the county recorder the assessment diagram and notice in substantially the form described in Streets and Highways Code Section 3114.

Section 4. Exhibits A, B, C, and D are part of this resolution.

ENGINEER'S REPORT LAGUNA CREEK MAINTENANCE DISTRICT

TIMOTHY MAR, Engineer of Work for Laguna Creek Maintenance District, City of Sacramento, County of Sacramento, State of California makes this report, as directed by the City Council, pursuant to Chapter 81 of the Sacramento City Code.

The improvement maintenance work which is the subject of this report (hereinafter referred to as the "work") is briefly described as follows:

The work described herein is to be carried out in the Laguna Creek Floodway corridor and North Folk Floodway corridor within the City limits between Sheldon Road, Bruceville Road and Franklin Boulevard. This includes the creek channel and adjacent lands, the bike trail, wetland preserves to the south of the floodway within City lands and adjacent turf areas. Also included in this work are the County lands, west of Franklin Boulevard, which were constructed as a part of the Laguna Creek Floodway.

The work to be performed consists of scheduled general horticultural maintenance and cleanup of landscape areas; repairs to irrigation as directed by the City; and replacement of plant materials damaged by vandalism or other means. The work includes, but is not limited to, the maintenance and operation of planting basins, irrigation systems, fertilization, pruning and staking, turf mowing and maintenance, grassland mowing, disking fire breaks, litter control, patrolling, bike trails and the keeping of Contractor's records. Requirements vary by location depending upon the landscaping present. All work described in the Specifications for Laguna Creek Floodway Maintenance and deemed necessary to satisfy the conditions of the Corps of Engineers 404 Permit, as well as any other work required to properly operate, maintain, repair or replace the Laguna Creek Floodway, is also included.

Certain types of unscheduled maintenance are also to be performed, but only when specifically approved by the City of Sacramento Finance Department. These tasks include plant replacement, turf and grassland seeding, insect, weed and rodent control, erosion control, channel repairs, hauling and dumping debris, maintaining floodway improvements, maintaining areas adjacent to the floodway right-of-way, vernal pool renovation, and repair of damage due to vandalism, flood, or fire. Occasionally, a temporary ditch pump will be needed to inundate vernal pools, which are not wetted by natural events.

All costs associated with the formation and administration of the District are also included.

Funds raised for maintaining and operating the above described improvements shall be based on annual benefit assessment apportioned to land benefiting from work and within the boundaries of the Maintenance District. The Council sets the assessment each year after receiving and approving an Engineer's Report.

This report includes the following attached exhibits:

EXHIBIT A- An estimate of the cost of the work.

EXHIBIT B- Laguna Creek Floodway Illustrative Map.

EXHIBIT C- A statement of the method by which the undersigned determined the amount proposed to be assessed against each parcel based on benefits to be derived by each parcel, respectively, from the work.

EXHIBIT D- An assessment roll showing the amount proposed to be specially assessed against each parcel of real property within this maintenance district. Each parcel is described by County Assessor's parcel number, and each parcel is also assigned a separate "assessment number" for the purposes of this proceeding.

EXHIBIT E- A list of the names and addresses of the owners of real property within this maintenance district, as shown on the last equalized assessment roll for taxes, or as known to the Clerk. The list is keyed to Exhibit D by assessment number.

EXHIBIT F- A diagram showing all of the parcels of real property within this maintenance district. The diagram is keyed to Exhibit D by assessment number.

Timothy Mar, P.E.
Engineer of Work
City of Sacramento, Sacramento County, State of California

Laguna Creek Maintenance District

EXHIBIT C

METHOD OF SPREADING ASSESSMENTS

The following section describes the proposed method of assessing the costs for the Laguna Creek Maintenance District to each parcel in the District in relation to the amount of benefit received. Costs for this District are assessed to each parcel within the District boundary except for those parcels owned by public agencies or dedicated for public use.

All of the land that was determined to benefit from the improvements funded by the Laguna Creek Assessment District (established in 1988) will also benefit from the operation and maintenance work of this Maintenance District.

Cost of maintenance is assessed to each benefited parcel in proportion to its residents or employees to the total number of residents (for single family and multi-family residences) and employees (for non-residential parcels) which benefit from the Maintenance District. Each employee is determined to have 40 percent of the benefit of a resident. Each single family residential unit was determined to have an average of 2.673 persons per unit and each multi-family residential unit was determined to have an average of 1.818 persons per unit (Reference 1980 census). The number of residential units for each single-family residential parcel within the Maintenance District boundary is based on existing final and tentative maps. Developed multi-family parcels are assessed assuming 15 units per acre. The number of employees in each non-residential parcel was calculated by multiplying an average of 33.47 employees per acre by an average parcel size. The average parcel sizes were calculated to be 12,500 sq. ft. for the 0-25,000 sq. ft. size category, 62,500 sq. ft. for the 25,001-100,000 sq. ft. size category, and 130,000 sq. ft. for the greater than 100,000 sq. ft. size category. Based on operation use factors, churches were determined to have two-sevenths of the benefiting employees of a 0-25,000 sq. ft. non-residential parcel.

Costs for billing and administration for the District are assessed to each benefited parcel equally, as each parcel is considered to receive the same benefit from this work regardless of land use or parcel size. The amount assessed to each parcel was determined by dividing the cost of billing and administration by the total number of parcels within the District boundary, excluding those parcels owned by public agencies or dedicated for public use. The number of parcels in the District was determined from the following table. The subdivisions listed in italicized font on the following table refer to fully recorded subdivisions; therefore, the number of lots shown for those subdivisions equals the number of the recorded parcels in those subdivisions. The remaining lines each correspond to one recorded parcel. The total number of parcels in the District is 2,502.

The following table shows the number of residential units and non-residential acres contained in each subdivision or parcel. As mentioned above, the italicized subdivisions on the table refer to recorded subdivisions. The assessments for these subdivisions are spread equally to each recorded single family lot in the subdivision. The rest of the lines refer to individual parcels, which are given by assessment number in the far-left column. Some of these parcels have tentative subdivision maps, as shown, from which lot counts were made for assessment purposes. In those cases where several parcels are included under one tentative subdivision map heading and several lot counts are given, each lot count refers to one of the assessed parcels, in respective order.
