Description/Analysis

Issue: The City has ongoing needs to purchase Information Technology (IT) related goods and services. In May 2012, the IT Department conducted its annual review of all citywide IT related purchases in FY 2011/12. Based on this annual review, staff has prepared an estimate of the anticipated purchases citywide of a variety of IT-related goods and services for FY 2012/13. Staff requests approval and spending authorization to cover the estimated expenditures through the use of cooperative purchasing agreements. The cooperative purchasing agreements and vendors that will be used to procure the IT related goods and services for FY 2012/13 are listed in Exhibit A.

Policy Considerations: The recommendations in this report are in accordance with City Code Section 3.56.240 which authorizes the City Manager, where advantageous to the City, to utilize cooperative purchasing agreements approved by the City Council to purchase supplies or nonprofessional services through legal contracts of other governmental jurisdictions or public agencies without separate competitive bidding by the City.

Environmental Considerations: The report does not constitute a “project” and is therefore exempt from the California Environmental Quality Act (CEQA) [CEQA Guidelines Sections 15061(b)(3);15378(b)(2)].

Sustainability: Under Phase 1 of the City of Sacramento’s Climate Action Plan, all applicable “Green” technology initiatives will be considered prior to the purchase of IT equipment hardware and software.

Commission/Committee Action: Not applicable

Rationale for Recommendation: In an ongoing effort to maximize cost savings and staff resources, many government agencies share contracting efforts through cooperative purchasing. This procurement approach increases pricing competitiveness and lowers operating costs through volume purchasing. When comparing the administrative costs of procurement, staff considers product research, source selection, specifications, advertising, staff reports, awarding, protest, and administration of the contract. It is often more cost-effective to eliminate the cost and time spent on these administrative processes and purchase items and services through a cooperative purchasing program. The City has used both regional and national cooperative purchasing agreements to complement its own contracting initiatives. Cooperative purchasing enables City departments and the Procurement Services Division to evaluate a broader range of contracting opportunities and to share resources with other jurisdictions. Cooperative purchasing also leverages internal and external resources to maximize cost savings opportunities for the City.

Financial Considerations: The total amount requested for FY 2012/13 will not exceed \$8,331,000. The increase from FY 2011/12 is due to upcoming infrastructure and data storage upgrades, which will result in operational savings. At such time that the overall total or individual limit by vendor exceeds the amounts authorized, or in cases involving unauthorized purchases of IT hardware, software or services, Council authorization will be requested. Funding for the purchases will be made from various departmental operating and CIP budgets through competitive/cooperative purchasing agreements listed in Exhibit A.

Emerging Small Business Development (ESBD): Cooperative purchasing agreements are created, evaluated and awarded by other government agencies that may or may not have similar emerging and small business programs. However, all effort will be made to encourage and utilize certified ESBE vendors when possible.

Background

1. Cooperative Purchase Agreements: The use of cooperative purchasing agreements maximizes cost savings and staff resources by sharing contracting and purchasing efforts with other government agencies. Utilizing cooperative purchasing agreements is advantageous to the City because it provides an opportunity for the City to obtain lower pricing through volume purchasing. Below is a brief explanation of competitive agreements the City will use to make cooperative IT purchases:

U.S. General Services Administration (GSA) Schedule contracts: Negotiated by the federal government with the intent of “most favored customer” pricing plus a discount offered to GSA and other authorized purchasers. Purchasing from GSA Schedule contracts offers the following advantages over procuring on the open market: (1) GSA has determined prices under the Schedule contracts to be fair and reasonable, (2) Schedule contracts have been awarded in compliance with all applicable laws and regulations, (3) Administrative time is reduced; (4) Schedule contracts offer a wide selection of state-of-the-art commercial supplies and services.”

Western States Contracting Alliance (WSCA): WSCA establishes cooperative multi-State contracts where participating states may join together in order to achieve cost-effective and efficient acquisition of quality products and services. Government purchasing benefits from cumulative volume discounts. Resulting WSCA agreements are available to all State of California governmental entities (state agencies, cities, counties, school districts, universities, etc.) that expends public funds for the acquisition of both goods and services.

State of California Software Licensing Program (SLP): The SLP offers extensive discounts that are negotiated with major software publishers that are then passed on to the State through SLP contracts established with authorized participating resellers. The SLP streamlines the purchasing process by reducing the need for individual departments and other public entities to conduct repetitive bids for their software needs. The customers that use the SLP consist of State departments, boards and commissions; cities, counties and special districts; educational entities; and public entities that can expend public funds.

State of California Contract for Wireless Service: These contracts offer cellular service and equipment for wireless voice, voice with walkie-talkie and data services with Sprint Nextel Corporation (#1S-05-58-01) and Verizon Wireless (#1S-05-58-02). The contract offers huge savings, increased service levels, and is convenient to use.

State of California Strategic Sourcing Contract: Strategic Sourcing is a process designed to allow the State of California to purchase the best products and best

services for the best value. Using this purchasing approach, the buyer (California) analyzes what it's buying, what the market conditions are and who can supply those goods or services. The buyer then uses that information--plus innovative contracting techniques--to find the best values available in the marketplace.

County of Merced Fast Open Contracts Utilization Services (FOCUS) Contract: FOCUS is a nationwide, local government-to-government purchasing program that allows government agencies access to pre-screened, competitively bid vendors in the technology industry. FOCUS is open to any federal, state, county, city, school or special district public jurisdiction.

2. On-going Multiyear Cooperative IT Purchase Agreements: Below is a list of multiyear IT cooperative purchase agreements that have been previously approved by City Council:

Microsoft Enterprise Agreement: On April 1, 2010, City Council approved the purchase of Microsoft Licenses and Maintenance for a five year period through the use of the County of Riverside's cooperative purchasing agreement (ITARC054). (Reso 2010-167)

3. Staff Review: For the past several years, the City Council has approved and authorized use of cooperative purchasing agreements to procure a variety of IT-related goods and services citywide, such as computer hardware, software, and technical support services. Below is a summary of the previously approved IT purchases:
 - a. Fiscal year 2005/06: IT Purchases for an amount not to exceed \$5,825,000. (Reso 2005-673).
 - b. Fiscal Year 2006/07: IT purchases for an amount not to exceed \$11,025,000 (Reso 2006-520).
 - c. Fiscal Year 2007/08: IT purchases for an amount not to exceed \$12,425,000 (Reso 2007-458)
 - d. Fiscal year 2008/09: IT purchases for an amount not to exceed \$11,185,000 (Reso 2008-434)
 - e. Fiscal year 2009/10: IT purchases for an amount not to exceed \$8,610,000 (Reso 2009-417)
 - f. Fiscal year 2010/11: IT purchases for an amount not to exceed \$7,410,000 (Reso 2010-362)
 - g. Fiscal year 2011/12: It purchases for an amount not to exceed \$6,008,000 (Reso 2011-384)
