## Description/Analysis

**Policy Considerations:** The recommendations in this report are in accordance with City Code Chapter 3.56 regarding the purchase of supplies and the use of cooperative purchase agreements.

**Economic Impacts:** None

### Environmental Considerations:

**California Environmental Quality Act (CEQA):** No environmental review is necessary because the recommendations in this report involve the purchase of supplies and are not considered to be a project in accordance with Section 15378(b)(2) of the CEQA Guidelines.

**Sustainability:** The recommended purchase is consistent with the Fleet Sustainability Policy adopted by City Council on February 16, 2010 (Resolution No. 2010-083).

**Commission/Committee Action:** None

**Rationale for Recommendation:** The Department of General Services (DGS), Fleet Management Division, has a customer requirement to purchase one replacement pavement patch truck for the Department of Public Works (DPW), Maintenance Services Division. After reviewing the available purchase options, Fleet Management staff determined that the cooperative purchase agreement with the National Joint Powers Alliance (NJPA) represents the most advantageous purchasing strategy. Fleet Management staff has confirmed with Nixon-Egli Equipment Company, the sole authorized distributor for PB Loader equipment in California, that the NJPA agreement offers better pricing than it could offer if competitively bid by Fleet Management at this time.

In an ongoing effort to maximize cost savings and staff resources, many government agencies share contracting efforts through cooperative purchasing. This procurement approach increases pricing competitiveness and lowers operating costs through volume buying. When comparing the administrative costs of procurement, staff considers product research, source selection, specifications, advertising, staff reports, awarding, protest, and administration of contract. It is often more cost-effective to eliminate the cost and time spent on these administrative processes and purchase items and services through a cooperative purchasing program.

The City has used both regional and national cooperative purchase agreements to complement its own contracting initiatives. Cooperative purchasing enables City departments to evaluate a broader range of contracting opportunities and to share resources with other jurisdictions. Cooperative purchasing also leverages internal and external resources to maximize cost savings opportunities for the City.

**Financial Considerations:** The recommended purchase of one pavement patch truck is a budgeted replacement for Fiscal Year (FY) 2013/14, which will be made from the DGS FY2013/14 operating budget (Fleet Fund, Fund 6501) and charged to the DPW multi-year operating project (MYOP) for replacement vehicles and equipment (I06013150, General Fund, Fund 1001). Sufficient funding is available in the DPW MYOP to make the recommended purchase.

On August 20, 2013, City Council adopted Resolution No. 2013-0277 authorizing the acceptance and execution of a Sacramento Emergency Clean Air Transportation (SECAT) Program grant, which provides funding to reimburse the City for a portion of the cost of replacing existing diesel vehicles with alternative fuel vehicles to lower vehicle emissions. The pavement patch truck recommended for purchase in this report is eligible for an estimated reimbursement of \$19,839, which will be credited to the DPW MYOP.

**Emerging Small Business Development (ESBD):** PB Loader Corporation is not certified as an emerging/small business. Cooperative purchase agreements are created, evaluated and awarded by other government agencies that may or may not have similar emerging and small business programs. DGS will consider other alternatives if it is determined that using cooperative purchase agreements has a negative impact on small businesses.

## Form A

- 1) Why did you respond to this RFP?  
*-As a National Supplier of asphalt patchers and asphalt related equipment and parts, our interest in this RFP lies in better serving our dealer network and streamlining the purchasing process for the end user. We have always believed that making the process easier for the customer is imperative in increasing customer loyalty and maintaining customer relationships. Pricing and locale are important to the modern purchaser, but if you can take the pain out of the process, and not only make the end user's job easier, but show them that you are willing to go the extra mile to help them do so it will pay dividends in the long run. Today's purchaser is more savvy than ever and the number of vendors taking their time is ever-increasing. Finding a way to increase your value in a customer's eyes is the challenge of every vendor in every industry, and this RFP is a way to show value beyond measure.*
  
- 2) What are your company's expectations in the event of an award?

*-Simply put, the year over year numbers are consistent at 99% Govt (State, County and Municipal) versus 1% Educational Institutions. **Proposer's ability to sell and service nationwide.**

19) Please describe your company sales force in terms of numbers, geographic dispersion, and the proportion of their attention focused on the sale and services of the equipment/products contemplated in this RFP?

*--We currently have over 40 dealers across the US and Canada, covering every state and most of Canada. As an aggregate we have at least two and up to five salespeople in some places in every state in the continental US. In a recent Poll the average Salesperson told us that they spend anywhere from 2% to 25% of their time on PB Loader products depending on season and budget year variables.*

*-See Map/ Dealer List Attached*

21) Please describe your dedicated company service force or dedicated network in terms of numbers, geographic dispersion, and the proportion of their attention focused on the sale of the equipment/products and related services contemplated in this RFP?

*We have a dealer network throughout the United States and Canada each support a staff of several sales people. We are solely focused on equipment related to RFP.*

- 22) Please describe your dedicated dealer service force or network in terms of numbers geographic dispersion, and the proportion of their attention focused on the sale of the equipment/products and related services contemplated in this RFP? Additionally, please describe any applicable road service and do they offer the ability to service customers at the customer's location?

*Many dealers offer both in house and outside service to accommodate the customers' needs.*

- 23) Describe in detail your customer service program regarding process and procedure. Please include, where appropriate, response time capabilities and commitments as a part of this RFP response and awarded contract.

*Our dealers are required by many of their contracts to provide immediate service, which customers of RFP will receive the same performance.*

- 24) Identify any geographic areas or NJPA market segments of the United States you will NOT be fully serving through the proposed contract.

*None*

- 25) Identify any of NJPA Member segments or defined NJPA verticals you will NOT be offering and promoting an awarded contract to? (Government, Education, Non-profit)

*None*

- 26) Describe your off shore contract sales capabilities and requirements. Define any specific requirements or restrictions as it applies to our members located off shores such as Hawaii and Alaska and the US Islands. Address your off shore shipping program on the Pricing form P of this document.

*We currently have a dealer placed in Alaska and are working on a dealer for our full equipment line in Hawaii as we speak. Our Hawaiian dealer should be in place by February 2013. In the past we have shipped units to Hawaii, Guam and the Philippines. We will consider members in all US territories on a case by case basis depending on service availability.*

### **Marketing Plan**

- 27) Describe your contract sales training program to your sales management, dealer network and/or direct sales teams relating to a NJPA awarded contract.

*-We intend to use a three pronged approach of on-site training, literature dispersion (in both paper and electronic formats) and a 'WebEx approach' as mentioned in this offering by NJPA.*

*In our on-site training we plan to meet with the sales managers and representatives to introduce the program, and answer any questions, then to ride-along with the reps, visiting prospective customers to introduce the option of Cooperative Purchasing in person. With Literature dispersion we would do a press release to the major industry trade media outlets including the scope of the road maintenance equipment bid, prominently displaying the NJPA logo and membership information. We also would encourage our dealers to send out digital copies or paper copies of approved NJPA marketing materials with any customer mailers they plan to send. Lastly, we will work with our dealer network to schedule WebEx trainings at times convenient for your staff and as many of our sales teams as possible. This should further show the advantages and techniques of selling your service to as many involved as possible.*

- 28) Describe your general marketing program strategy to promote the proposed Contract nationally and ensure success.

*-The above plan would be utilized on a national level which would include our Canadian dealers as well and cover both Contract Sales Training and General Marketing Program Strategy. We would also be utilizing the same strategies for our current and local customers, ensuring that with our dealer footprint locally and across the nation we would see a surge of interest in both membership*

*and purchasing.*

- 29) Describe your marketing material, and overall marketing ability, relating to promoting this type of partnership and contract opportunity. As much as possible, please send examples of your marketing materials in electronic format.  
*-While at this time we are in the process of re-working all of our marketing materials please see the enclosed representation of our current offerings in the Marketing Materials Folder.*
- 30) Describe your use of technology and the internet to provide marketing and ensure national contract awareness.  
*-Besides our website, we have a presence on Manta.com and a Facebook Page. Upon acceptance of the contract from NJPA we had planned on displaying NJPA's Logo on all three sites.*
- 31) Describe your perception of NJPA's role in marketing the contract and your contracted products/equipment and related services.  
*-It is our understanding that NJPA is a facilitator who puts customers with vendors to make a deal while simplifying the bidding process for the end user. So in that framework, we see NJPA being responsible for fairly presenting the vendor's equipment, facilitating the purchase and verifying the specifics of the deal.*
- 32) Describe in detail any unique marketing techniques and methods as a part of your proposal that would separate you from other companies in your industry.  
*-Sincere Customer Service, while unique, it shouldn't be.*
- 33) Describe your company's Senior Management level commitment with regards to embracement, promoting, supporting and managing a resultant NJPA awarded contract  
*-Our Senior Management is fully dedicated to supporting this contract and has wholeheartedly expressed not only interest, but ordered a driving initiative in this facet of the market.*
- 34) Do you view your products/equipment applicable to an E-procurement ordering process? Yes/ No.  
*-Yes, we see most procurement as being applicable to E-procurement and we feel that most purchasers see the same trend in their jobs. Most equipment RFP's and bidding is seen as advertised on the internet, and many customers of our are sourcing their purchasing to third party sites such as Bidsync and Onvia quite regularly, requiring the bid to be tabulated and evaluated solely in an online environment. From this to E-procurement is a very small step if not already meshing with their current practices. In the very near future we see the incidence of E-procurement to be not only commonplace, but the rule rather than the exception.*
- 35) If yes, describe examples of E-procurement system(s) that your products/equipment was available through. Demonstrate the success of government and education customers to ordering through E-procurement.  
*-As I will address below, we are already a vendor on H-GAC as of October 1, 2012 and have seen several quote requests already, not two months after winning the bid. This was a factor which encouraged us to actively seek out other Cooperative Bidding organizations. We had initially sought to bid with NJPA first but were made to wait since the bid wasn't released until a month or so ago.*
- 36) Please describe how you will communicate your pricing and pricing strategy to your sales force nationally?  
*-We intend to send out a press release to our dealers alerting them to our new contract with NJPA, as well as calling the salespeople in the field individually. After the pricing is in place we will schedule WebEx trainings and make sure they have access to all of the necessary tools to order on this new*

*contract including the procedure for signing up new members and making them aware of the benefits of using an NJPA procedure for ordering our equipment.*

### **Other Cooperative Procurement Contracts Held**

- 37) Identify all cooperative contracts hosted by any government or education agency or government or education cooperative or by a third party marketing company, which are marketed in more than one state, held or utilized by the Proposer.

*-We are only affiliated with one other cooperative contract, being H-GAC*

- 38) What is the annual dollar sales volume generated through each of the contract(s) identified in your answer to the previous question.

*-Since we only were awarded the contract for asphalt maintenance equipment through H-GAC on October 1, 2012 we have not generated any revenue as of yet, but have seen interest in several quotes.*

- 39) Identify awarded WSCA or specific state procurement contracts held or utilized by the Proposer with any State of the United States.

*-While we hold no contract officially, we do regular business with a number of state agencies across the county and in Canada as well.*

- 40) What is the annual combined dollar sales volume for each of these contracts?

*N/A*

- 41) Identify any GSA Contracts held or utilized by the Proposer.

*N/A*

- 42) If you are awarded the NJPA contract, are there any market segments or verticals (e.g., higher education, K-12 local governments, non-profits etc.) or geographical markets where the NJPA contract will not be your primary contract purchasing vehicle? If so, please identify those markets and which cooperative purchasing agreement will be your primary vehicle.

*-The Customer's preference for their 'Contract Purchasing Vehicle' will always be their choice, but NJPA will always be the primary option suggested for their equipment purchase*

- 43) If you are awarded the NJPA contract, is it your intention and commitment to lead with your NJPA contract?  Yes  No Explain and demonstrate your commitment and/or restrictions.

*-As I claimed above, NJPA will always be the primary option suggested for their equipment purchase.*

- 44) Identify a proposed administrative fee payable to NJPA for facilitation, management and promotion of the NJPA contract, should you be awarded. This fee should be calculated as a percentage of Contract sales and not a line item addition to the customers cost of goods.

*-We would propose an administrative fee payable to NJPA of 2%*

### **Value Added Attributes**

- 45) If applicable, describe any product/equipment training programs available as options for NJPA members. If applicable, do you offer equipment operator training as well as maintenance training?

Yes  No

*-We offer both operator training and maintenance training onsite at the time of end user putting the unit in-service.*

46) Is this training standard as a part of a purchase or optional?

*-Optional*

47) Describe current technological advances your proposed equipment/products and related services offer.

*-We are constantly innovating according to the needs and requests of our customers. If we do not offer an option for a unit, we have an on-site engineering department which can be tasked with the design and implementation of any feasible option a customer requests. We are not in the business of making a 'cookie cutter' product and baking them by the dozen. With each order the customer has the option to visit our facility for a 'Pre-Paint Inspection' with complete equipment layout for their approval. At this time the end user is welcome to make changes or additions to the unit so the completed product matches their ever changing needs. We have recently added an option for Electric heat on our units instead of the traditional propane heat, and are currently researching new conveyor designs to better serve the customer's needs of versatility of equipment.*

48) Describe your "Green" program as it relates to your company, your products/equipment, and your recycling program, including a list of all green products accompanied by the certifying agency for each (if applicable).

*-Officially we are not certified by any 'Green Agencies' on any of our products, but we do offer several options which can be considered green. Our electric heat option we mentioned above is one of them which we designed at a customer's request and was then added to our stable of options. Another is the wide array of alternative fuelled chassis options offered to the customer. We work closely with the chassis dealers to insure the right options and spec is chosen for the build at the customer's request.*

49) Describe any Women or Minority Business Entity (WMBE) or Small Business Entity (SBE) accreditations and the general minority and small business program of your organization as it relates to a Contract resulting from this RFP.

*-Currently we are not accredited as a WBE, but are starting the application process in 2013 to become recognized in this capacity.*

50) Identify any other unique or custom value added attributes of your company or your products/equipment or related services.

*-N/A*

51) Other than what you have already demonstrated or described, what separates your company, your products/equipment and related services from your competition? What makes your proposed solutions unique in your industry as it applies to NJPA members?

*-Quality and Customer Service have always diminished us as an industry leader, and will continue to in the future. We are not a bloated corporate entity who has five levels of management convoluting our policies and procedures. We are a small and nimble company able to make decisions at once instead of asking for permission all the way up a corporate ladder. We see what needs to be done to make a customer happy and we do it as quickly as possible.*

52) Identify and describe any service contract options included in the proposal, or offered as a proposed option, for the products/equipment being offered.

*-N/A*

53) Identify your ability and willingness to offer an awarded contract to qualifying member agencies in

Canada specifically and internationally in general.

*-We currently have three dealers in Canada covering nearly the entire country. The only question in a deal in northern Canada would be the availability of service personnel due to lack of infrastructure and inclement weather. This would be addressed on a case by case basis, but we would certainly sell to members in Canada through our established dealer network.*

54) Describe any unique distribution and/or delivery methods or options offered in your proposal.

*-N/A*

## 1. INTRODUCTION

### A. ABOUT NJPA

**1.1** The National Joint Powers Alliance®- (NJPA)- is a public agency serving as a national municipal contracting agency established under the Service Cooperative statute by Minnesota Legislative Statute §123A.21 with the authority to develop and offer, among other services, cooperative procurement services to its membership. Eligible membership and participation includes states, cities, counties, all government agencies, both public and non-public educational agencies, colleges, universities and non-profit organizations.

**1.2** Under the authority of Minnesota state laws and enabling legislation, NJPA facilitates a competitive bidding and contracting process on behalf of the needs of itself and the needs of current and potential member agencies nationally. This process results in national procurement contracts with various Vendors of products/equipment and services which NJPA Member agencies desire to procure. These procurement contracts are created in compliance with applicable Minnesota Municipal Contracting Laws. A complete listing of NJPA cooperative procurement contracts can be found at <http://www.njpacoop.org/contract-purchasing-solutions/contracts>.

**1.3** NJPA is a public agency governed by publicly elected officials that serve as the NJPA Board of Directors. NJPA's Board of Directors call for all proposals, awards all Contracts, and hosts those resulting Contracts for the benefit of its own and its Members use.

**1.3.1 Subject to Approval of the NJPA Board:** NJPA contracts are awarded by the action of NJPA Board of Directors. This action is based on the open and competitive bidding process facilitated by NJPA. The evaluation and resulting recommendation is presented to the Board of Directors by the NJPA Proposal Evaluation Committee.

**1.4** NJPA currently serves over 47,000 member agencies nationally. Both membership and utilization of NJPA contracts continue to expand, due in part to the increasing acceptance of Cooperative Purchasing throughout the government and education communities nationally.

### B. JOINT EXERCISE OF POWERS LAWS

**1.5** NJPA cooperatively shares those contracts with its Members nationwide through various "Joint Exercise of Powers Laws" established in Minnesota and most other States. The Minnesota "Joint Exercise of Powers Law" is Minnesota Statute §471.59 which states "Two or more governmental units...may jointly or cooperatively exercise any power common to the contracting parties..." Similar Joint Exercise of Powers Laws exists within the laws of each State of the United States. This Minnesota Statute allows NJPA to serve Member agencies located in all other states. Municipal agencies nationally have the ability to participate in cooperative purchasing activities as a result of specific laws of their own state. These laws can be found on our website at <http://www.njpacoop.org/contract-purchasing-solutions/legal-authority/state-procurement-resources>.

### C. WHY RESPOND TO A NATIONAL COOPERATIVE PROCUREMENT CONTRACT

**1.6** National Cooperative Procurement Contracts create value for Municipal and Public Agencies, as well as for Vendors of products/equipment and services in a variety of ways:

**1.6.1** National cooperative contracts potentially **save the time and effort** of Municipal and Public Agencies who would have been otherwise charged with soliciting vendor responses to individual RFP's, resulting in individual contracts, to meet the procurement needs of their respective agencies. Considerable time and effort is also potentially saved by the Vendors who would have had to otherwise respond each of those individual RFPs. A single, nationally

advertised RFP, resulting in a single, national cooperative contract can potentially replace thousands of individual RFPs for the same products/services that might have been otherwise advertised by individual NJPA member agencies.

**1.6.2** NJPA contracts offer our Members nationally leveraged **volume purchasing discounts**. Our contract terms and conditions offer the opportunity for Vendors to recognize individual member procurement volume commitment through additional volume based contract discounts.

**1.7** State laws that permit or encourage cooperative purchasing contracts do so with the belief that cooperative efficiencies will result in lower prices, better overall value, and considerable time savings.

**1.8** The collective purchasing power of thousands of NJPA Member agencies nationwide offers the opportunity for volume pricing discounts. Although no sales or sales volume is guaranteed by an NJPA Contract resulting from this RFP, substantial volume is anticipated and volume pricing is requested and justified.

**1.9** NJPA and its Members desire the best value for their procurement dollar as well as a competitive price. Pre-competed procurement contracts offer NJPA and its Member agencies the ability to directly compare non-price factors in their procurement analysis. Vendors have the opportunity to display and highlight value added attributes of their company, equipment/products and services without constraints of a typical individual proposal process.

#### D. THE INTENT OF THIS RFP

**1.10. A national contract awarded by the NJPA Board of Directors:** The intent of this RFP is to award a national contract by the action of the NJPA Board of Directors. This action will be influenced by the recommendation of the NJPA Proposal Evaluation Committee, and as a result of the competitive proposal and evaluation process which has been designed to reflect the best interests of NJPA and its Member agencies. NJPA is seeking the most responsive Vendor relationship(s) to meet this need. The goal and intent of this RFP is to follow through with an award and contract, which will be marketed nationally through a cooperative effort between the awarded vendor(s) and NJPA.

**1.11** NJPA's primary intent is to establish and provide a national cooperative procurement contract, offering opportunities for NJPA and our Member agencies to procure quality product/equipment and services as desired and needed. Contracts are expected to offer price levels reflective of the potential and collective volume of NJPA and the nationally established NJPA membership base.

**1.11.1** Beyond our primary intent, NJPA further desires to:

- Award a four year term contract with a fifth year contract option resulting from this RFP;
- Offer and apply any applicable technological advances throughout the term of a contract resulting from this RFP;
- Deliver "Value Added" aspects of the company, equipment/products and services as defined in the "Proposer's Response";
- Deliver wide spectrums of solutions to meet the needs and requirement of NJPA and NJPA Member agencies.
- Award an exclusive contract to the most responsive vendor when it is deemed to be in the best interest of NJPA and the NJPA Member agencies.

**1.12 Non-Manufacturer Awards:** NJPA reserves the right to make an award related to this invitation to a non-manufacturer or dealer/distributor if such action is in the best interests of NJPA and its Members.

**1.13 Exclusive or Multiple Awards:** Although it is NJPA's intent and desire to award a contract to a single exclusive Vendor, NJPA reserves the right to award a Contract to multiple Proposers where the responding Proposers are deemed to be in the best interests of NJPA and its Member agencies.

#### E. SCOPE OF THIS RFP

**1.14** The scope and goal of this RFP is to award a contract to a qualifying vendor defined as a manufacturer, provider, or dealer/distributor, established as a Proposer, and deemed responsive through our open and competitive proposal process. Vendors will be awarded contracts based on demonstrated overall highest value solutions which meet and/or exceed the needs and requirements of NJPA and its Member agencies within the scope of **ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES, AND SUPPLIES**. Qualifying Proposers must be able to anticipate the needs and requirements of NJPA and NJPA member agencies; demonstrate the knowledge of any and all applicable industry standards, laws and regulations; and possess the ability to both market to and service NJPA Members in all 50 states. NJPA requests proposers submit their entire product line as it applies and relates to the scope of this RFP. All proposals deemed responsive will be evaluated based on their ability to provide the overall highest value to NJPA and NJPA Member agencies. One of the measures of overall highest value will be the proposed breadth and depth of products and services.

**1.15 Best and Most Responsive – Responsible Proposer:** It is the intent of NJPA to award a Contract to the best and most responsible and responsive Proposer(s) offering the best overall quality and selection of equipment/products and services meeting the commonly requested specifications of the NJPA and NJPA Members, provided the Proposer's Response has been submitted in accordance with the requirements of this RFP.

**1.16 Sealed Proposals:** NJPA will receive sealed proposal responses to this RFP in accordance with accepted standards set forth in the Minnesota Procurement Code and Uniform Municipal Contracting Law. Awards may be made to responsible and responsive Proposers whose proposals are determined in writing to be the most advantageous to NJPA and its current or qualifying future NJPA Member agencies.

**1.17 Use of Contract:** Any Contract resulting from this solicitation shall be awarded with the understanding that it is for the sole convenience of NJPA and its Members. NJPA and/or its members reserve the right to obtain like product/equipment and services solely from this Contract or from another contract source of their choice or from a contract resulting from their own procurement process.

**1.18 NJPA's interest in a contract resulting from this RFP:** Notwithstanding its own use, to the extent NJPA issues this RFP and any resulting contract for the use of its Members, NJPA's interests and liability for said use shall be limited to the competitive proposal process performed and terms and conditions relating to said contract and shall not extend to the products, services, or warranties of the Awarded Vendor or the intended or unintended effects of the product/equipment and services procured there from.

**1.19 Awarded Vendor's interest in a contract resulting from this RFP:** Awarded Vendors will be able to offer to NJPA, and current and potential NJPA Members, only those products/equipment and services specifically awarded on their NJPA Awarded Contract(s). Awarded Vendors may not offer as "contract compliant", products/equipment and services which are not specifically identified and priced in their NJPA Awarded Contract.

**1.20 Sole Source of Responsibility-** NJPA desires a "Sole Source of Responsibility" Vendor meaning the Vendor will take sole responsibility for the performance of delivered products/services. NJPA also desires sole responsibility with regard to:

**1.20.1 Scope of Products/Services:** NJPA desires a provider for the broadest possible scope of products/equipment and services being proposed over the largest possible geographic area and to

the largest possible cross-section of NJPA current and potential Members.

**1.20.2 Vendor use of sub-contractors in sourcing or delivering product/equipment and services:** NJPA desires a single source of responsibility for equipment/products and services proposed. Proposers are assumed to have sub-contractor relationships with all organizations and individuals whom are external to the Proposer and are involved in providing or delivering the product/equipment and services being proposed. Vendor assumes all responsibility for the equipment/products and services and actions of any such Sub-Contractor.

**1.21 Additional Definitions** for the scope of this solicitation.

**1.21.1** In addition to **ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES, AND SUPPLIES**, this solicitation should be read to include, but not limited to:

**1.21.1.1** Road De-icing, Road Patching, Road Plowing, Road Right of Way Maintaining, Road Signage, Road Striping, Road Surface Maintaining. Any equipment, service or supply associated with the performance or support of these types of activities.

**1.21.2** NJPA reserves the right to limit the scope of this solicitation for NJPA and current and potential NJPA member agencies.

**1.22 Suggested Solutions Options**

**1.22.1** All potential Proposers are assumed to be professionals in their respective fields. As professionals you are deemed to be intimately familiar with the spectrum of NJPA and NJPA Members' needs and requirements with respect to the scope of this RFP.

**1.22.2** With this intimate knowledge of NJPA and NJPA Members' needs, Proposers are instructed to provide their proposal response in a format describing their solutions to those current and future needs and requirements. Proposers should take care to be economical in their response to this RFP.

**1.22.3** Multiple solutions to the needs of NJPA and NJPA Members are possible. **Examples could include:**

**1.22.3.1 Equipment/Products Only Solution:** Equipment/products Only Solution may be appropriate for situations where NJPA or NJPA Members possess the ability, either in-house or through local third party contractors, to properly install and bring to operation those equipment/products being proposed.

**1.22.3.2 Turn-Key Solutions:** A Turn-Key Solution is a combination of equipment/products and services which provides a single price for equipment/products, delivery, and installation to a properly operating status. Generally this is the most desirable solution as NJPA and NJPA Members may not possess, or desire to engage, personnel with the necessary expertise to complete these tasks internally or through other independent contractors

**1.22.3.3 Good, Better, Best:** Where appropriate and properly identified, Proposers are invited to offer the CHOICE of good – better – best multiple grade solutions to NJPA and NJPA Members' needs.

**1.22.3.4 Proven – Accepted – Leading Edge Technology:** Where appropriate and

properly identified, Proposers are invited to provide an appropriate identified spectrum of technology solutions to compliment or enhance the functionality of the proposed solutions to NJPA and NJPA Members' needs both now and into the future.

### **1.23 Overlap of Scope:**

**1.23.1** When considering equipment, products, or groups of product/equipment and services submitted as a part of your response, and whether inclusion of such will fall within a "Scope of Proposal", please consider the validity of an inverse statement.

- For example, pencils and post-it-notes can generally be classified as office supplies and office supplies generally include pencils and post-it-notes.
- In contrast, computers (PCs and peripherals) can generally be considered office supplies; however, the scope of office supplies does not generally include computer servers and infrastructure.
- In conclusion: With this in mind, individual products and services must be examined individually by NJPA, from time to time and in its sole discretion, to determine their compliance and fall within the original "Scope" as intended by NJPA.

**1.24 Geographic Area to be Proposed:** This RFP invites proposals to provide **ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES, AND SUPPLIES** to NJPA and NJPA Members throughout the entire United States and possibly internationally. Proposers will be expected to express willingness to explore service to NJPA Members located abroad; however the lack of ability to serve Members outside of the United States will not be cause for non-award. The ability and willingness to serve Canada, for instance, will be viewed as a value-added attribute.

**1.25 Manufacturer as a Proposer:** If the Proposer is a Manufacturer or wholesale distributor, the response received will be evaluated on the basis of a response made in conjunction with that Manufacturer's authorized Dealer Network. Unless stated otherwise, a Manufacturer or wholesale distributor Proposer is assumed to have a documented relationship with their Dealer Network where that Dealer Network is informed of, and authorized to accept, purchase orders pursuant to any Contract resulting from this RFP on behalf of the Manufacturer or wholesale distributor Proposer. Any such dealer will be considered a sub-contractor of the Proposer/Vendor. The relationship between the Manufacturer and wholesale distributor Proposer and its Dealer Network may be proposed at the time of the proposed submission if that fact is properly identified.

**1.26 Dealer/Re-seller as a Proposer:** If the Proposer is a dealer or re-seller of the products and/or services being proposed, the response will be evaluated based on the Proposer's authorization to provide those products and services from their manufacturer. Where appropriate, Proposers must document their authority to offer those products and/or services.

**1.27 Contract Term:** At NJPA's option a contract resulting from this RFP will become effective either; 1) The date awarded by the NJPA Board of Directors, or 2) The day following the expiration date of an existing NJPA procurement contract for the same or similar product/equipment and services.

**1.27.1** NJPA is seeking a Contract base term of four years subject to annual renewals as allowed by Minnesota Contracting Law. Full term is expected, however will only occur through successful annual renewals. One additional one-year renewal-extension may be offered by NJPA

to Vendor beyond the original four year term if NJPA deems such action to be in the best interests of NJPA and its Members.

**1.28 Minimum Contract Value:** NJPA anticipates considerable activity resulting from this RFP and subsequent award; however, no commitment of any kind is made concerning actual quantities to be acquired. NJPA does not guarantee usage. Usage will depend on the actual needs of the NJPA Members and the value of the awarded contract.

**1.29 Estimated Contract Volume:** Estimated quantities and sales volume are based on potential usage by NJPA and NJPA Member agencies nationally.

**1.30 Largest Possible Solution:** If applicable, Contracts will be awarded to Proposer(s) able to deliver a proposal meeting the entire needs of NJPA and its Members within the scope of this RFP. NJPA prefers Proposers submit their complete product line of products and services described in the scope of this RFP. NJPA reserves the right to reject individual, or groupings of specific equipment/products and services proposals as a part of the award.

**1.31 Contract Availability:** This Contract must be available to all current and potential NJPA Members who choose to utilize this NJPA Contract to include all governmental and public agencies, public and private primary and secondary education agencies, and all non-profit organizations nationally.

**1.32 Proposer's Commitment Period:** In order to allow NJPA the opportunity to evaluate each proposal thoroughly, NJPA requires any response to this solicitation be valid and irrevocable for ninety (90) days after the date proposals were opened regarding this RFP.

## F. EXPECTATIONS FOR EQUIPMENT/PRODUCTS AND SERVICES BEING PROPOSED

**1.33 Industry Standards:** Except as contained herein, the specifications or solutions for this RFP shall be those accepted guidelines set forth by the **ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES, AND SUPPLIES** industry, as they are generally understood and accepted within that industry across the nation. Submitted products/equipment, related services, and their warranties and assurances are required to meet and/or exceed all current, traditional and anticipated needs and requirements of NJPA and its Members.

**1.33.1 Deviations from industry standards** must be identified by the Proposer and explained how, in their opinion, the equipment/products and services they propose will render equivalent functionality, coverage, performance, and/or related services. Failure to detail all such deviations may comprise sufficient grounds for rejection of the entire proposal.

**1.33.2 Technical Descriptions/Specifications.** Proposers must supply **sufficient** information to:

- Demonstrate the Proposer's knowledge of industry standards, and
- Identify the equipment/products and services being proposed, and
- Differentiate those products and services from others.

Excessive technical descriptions and specifications which, in the opinion of NJPA unduly enlarge the proposal response may reduce evaluation points awarded on Form G.

**1.34 Important note:** NJPA does not typically provide product and service specifications; rather NJPA is requesting an industry standard or accepted specification for the requested product/equipment and services. Where specific line items are specified, those line items should be considered the minimum which can be expanded by the Proposer to deliver the Proposer's "Solution" to NJPA and NJPA Members' needs.

**1.35 Commonly used Product/Equipment and Services:** It is important that the equipment/products and services submitted are the equipment/products and services commonly used by public sector entities.

**1.36 New Current Model Product/Equipment:** Proposals submitted shall be for new, current model products and services with the exception of certain close-out products allowed to be offered on the Proposer's "Hot List" described herein.

**1.37 Compliance with laws and standards:** All items supplied on this Contract shall comply with any current applicable safety or regulatory standards or codes.

**1.38 Delivered and operational;** Products/equipment offered herein are to be proposed based upon being delivered and operational at the NJPA Member's site. Exceptions to "delivered and operational" must be explicitly disclosed in the "Total Cost of Acquisition" section of your proposal response.

**1.39 Warranty:** The Proposer warrants that all products, equipment, supplies, and services delivered under this Contract shall be covered by the industry standard or better warranty. All products and equipment should carry a minimum industry standard manufacturer's warranty that includes materials and labor. The Proposer has the primary responsibility to submit product specific warranty as required and accepted by industry standards. Dealer/Distributors agree to assist the purchaser in reaching a solution in a dispute over warranty's terms with the manufacturer. Any manufacturer's warranty which is effective past the expiration of the warranty will be passed on to the NJPA member. Failure to submit a minimum warranty may result in non-award.

**1.40 Proposer's Warrants:** The Proposer warrants all products/equipment and related services furnished hereunder will be free from liens and encumbrances; defects in design, materials, and workmanship; and will conform in all respects to the terms of this RFP including any specifications or standards. In addition, Proposer/Vendor warrants the products/equipment and related services are suitable for and will perform in accordance with the purposes for which they were intended.

## G. SOLUTIONS BASED SOLICITATION

**1.41** NJPA solicitations and contract process will not offer specific specifications for proposers to meet or base your response on. This RFP is a "Solutions Based Solicitation". This means the proposers are asked to understand and anticipate the current and future needs of NJPA and the nationally located NJPA membership base, within the scope of this RFP, and including specifications commonly desired or required by law or industry standards. Your proposal will be evaluated in part on your demonstrated ability to meet or exceed the needs and requirements of NJPA and our member agencies within the defined scope of this RFP.

## H. INQUIRY PERIOD

**1.42** The inquiry period shall begin at the date of first advertisement and continue to the "Deadline for Requests". RFP packages shall be distributed to Potential Bidders only during the inquiry period. The purpose for the defined "Inquiry Period" is to provide a finite group of Potential Bidders to invite to, and attend the pre-bid conference.

## I. PRE-PROPOSAL CONFERENCE

**1.43** All Potential Bidders inquiring during the inquiry period will be invited to the OPTIONAL "Pre-Bid Conference" via the e-mail address used to make their inquiry. The purpose of the pre-bid conference is to allow Potential Bidders to ask questions and hear answers from their own questions and the questions of other Potential Bidders.

**2.11** FOB does not identify who is responsible for the costs of shipping. The responsibility for the costs of shipping is addressed elsewhere in this document.

## 3. INSTRUCTIONS FOR PREPARING YOUR PROPOSAL

## A. PRE-PROPOSAL CONFERENCE

**3.1** A non-mandatory pre-proposal conference will be held at the date and time specified in the time line on page one of this RFP. Conference call and web connection information will be sent to all Potential Proposers through the same means employed in their inquiry. The purpose of this conference call is to allow Potential Proposers to ask questions regarding this RFP. Only answers issued in writing by NJPA to questions asked before or during the Pre-proposal Conference shall be considered binding.

## B. IDENTIFICATION OF KEY PERSONNEL

**3.2** Vendor will designate one senior staff individual who will represent the awarded Vendor to NJPA. This contact person will correspond with members for technical assistance, questions or problems that may arise including instructions regarding different contacts for different geographical areas as needed.

## C. PROPOSER'S EXCEPTIONS TO TERMS AND CONDITIONS

**3.4** Any exceptions, deviations, or contingencies a Proposer may have to the terms and conditions contained herein must be documented on Form C.

**3.5** Exceptions, deviations or contingencies stipulated in Proposer's Response, while possibly necessary in the view of the Proposer, may result in disqualification of a Proposal Response.

## D. FORMAL INSTRUCTIONS TO PROPOSERS

**3.16** If the answer to a question is deemed by NJPA to have a material impact on other potential proposers or the RFP itself, the answer to the question will become an addendum to this RFP.

**3.17** If the answer to a question is deemed by NJPA to be a clarification of existing terms and conditions and does not have a material impact on other potential proposers or the RFP itself, no further documentation of that question is required.

**3.18** As used in this solicitation, clarification means communication with a Potential Proposer for the sole purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the RFP.

**3.19** Addenda are written instruments issued by NJPA that modify or interpret the RFP. All addenda issued by NJPA shall become a part of the RFP. Addenda will be delivered to all Potential Proposers using the same method of delivery of the original RFP material. NJPA accepts no liability in connection with the delivery of said materials. Withdrawn proposals may be resubmitted up to the time designated for the receipt of the proposals if they are then fully in conformance with the Instructions to Proposer.

## G. VALUE ADDED ATTRIBUTES, PRODUCTS/SERVICES

**3.22 Examples of Value Added Attributes:** Value-Added attributes, products and services are items offered in addition to the products and services being proposed which adds value to those items being proposed. The availability of a contract for maintenance or service after the initial sale, installation, and set-up may, for instance, be "Value Added Services" for products where a typical buyer may not have the ability to perform these functions.

**3.23 Where to document Value Added Attributes:** The opportunity to indicate value added dimensions and such advancements will be available in the Proposer's Questionnaire and Proposer's product and service submittal.

**3.24** Value added equipment/products and services and expanded services, as they relate to this RFP, will be given positive consideration in the award selection. Consideration will be given to an expanded selection of **"ROAD MAINTENANCE EQUIPMENT WITH RELATED ACCESSORIES, SERVICES, AND SUPPLIES"**, and advances to provide products/services, supplies meeting and/or exceeding today's industry standards and expectations. A value add would include a program or service that further serves the members needs above and possibly beyond standard expectation and complements the equipment/products and services and training. Value added could include areas of product and service, sales, ordering, delivery, performance, maintenance, technology, and service that furthers the functionality and effectiveness of the procurement process while remaining within the scope of this RFP.

**3.25 Minority, Small Business, and Women Business Enterprise (WMBE) participation:** It is the policy of some NJPA Members to involve Minority, Small Business, and WMBE contractors in the process to purchase product/equipment and related services. Vendors should document WMBE status for their organization AND any such status of their affiliates (i.e. Supplier networks) involved in carrying out the activities invited. The ability of a Proposer to provide "Credits" to NJPA and NJPA Members in these subject areas, either individually or through related entities involved in the transaction, will be evaluated positively by NJPA and reflected in the "value added" area of the evaluation. NJPA is committed to facilitating the realization of such "Credits" through certain structuring techniques for transactions resulting from this RFP.

**3.26 Environmentally Preferred Purchasing Opportunities:** There is a growing trend among NJPA Members to consider the environmental impact of the equipment/products and related services they purchase. "Green" characteristics demonstrated by responding companies will be evaluated positively by NJPA and reflected in the "value added" area of the evaluation. Please identify any Green characteristics of the product/equipment and related services in your proposal and identify the sanctioning body determining that characteristic. Where appropriate, please indicate which products have been certified as "green" and by which certifying agency.

**3.27 On-Line Requisitioning systems:** When applicable, on-line requisitioning systems will be viewed

as a value-added characteristic. Proposer shall include documentation about user interfaces that make on-line ordering easy for NJPA Members as well as the ability to punch-out from mainstream e-Procurement or Enterprise Resource Planning (ERP) systems that NJPA Members may currently utilize.

**3.28 Financing:** The ability of the Proposer to provide financing options for the products and services being proposed will be viewed as a Value Added Attribute.

#### H. CERTIFICATE OF INSURANCE

**3.29** Proposer shall provide evidence of liability insurance coverage identified below in the form of an ACCORD binder form with their proposal. Upon Award issued pursuant to this contract, and prior to the execution of any commerce relating to such award, Vendor will be responsible for providing verification, in the form of an ACCORD binder identifying the coverage required below and identifying NJPA as a "Certificate Holder" and an "Additional Insured". Vendor will be responsible to maintain such insurance coverage at their own expense throughout the term of any contract resulting from this solicitation.

**3.30** Vendor, upon award, shall be required to maintain the following insurance coverages during the term of the NJPA Contract:

(1) Workers Compensation insurance (Occurrence) with the following minimum coverages: Bodily injury by accident--per employee \$100,000; Bodily injury by disease--per employee \$100,000; Policy limits \$500,000. In addition, Proposer shall require all subcontractors occupying the premises or performing work under the contract to obtain an insurance certificate showing proof of Workers Compensation Coverage with the following minimum coverages: Bodily injury by accident--per employee \$100,000; Bodily injury by disease--per employee \$100,000; Policy limits \$500,000.

(2) Commercial General Liability Policy per occurrence \$1,000,000.

(3) Business Auto Policy to include but not be limited to liability coverage on any owned, non-owned and hired vehicle used by Proposer or Proposer's personnel in the performance of this Contract. The Business Automobile Policy shall have a per occurrence limit of \$1,000,000.

**3.31** The foregoing policies shall contain a provision that coverage afforded under the policies will not be canceled, or not renewed or allowed to lapse for any reason until at least thirty (30) days prior written notice has been given to NJPA. Certificates of Insurance showing such coverage to be in force shall be filed with NJPA prior to commencement of any work under the contract. The foregoing policies shall be obtained from insurance companies licensed to do business nationally and shall be with companies acceptable to NJPA, which must have a minimum AM Best rating of A-. All such coverage shall remain in full force and effect during the term and any renewal or extension thereof.

#### I. ORDER PROCESS AND/OR FUNDS FLOW

**3.32** Please propose an order process and funds flow. Please choose from one of the following:

**3.32.1 B-TO-G:** The Business-to-Government order process and/or funds flow model involves NJPA Members issuing Purchase Orders directly to a Vendor and pursuant to a Contract resulting from this RFP.

**3.32.3 Other:** Please fully identify.

#### J. ADMINISTRATIVE FEES

**3.33** Proposer agrees to authorize and/or allow for an administrative fee payable to NJPA by an Awarded Vendor in exchange for its facilitation and marketing of a Contract resulting from this RFP to current and potential NJPA Members. This Administration Fee shall be:

**3.33.1** Calculated as a percentage of the dollar volume of all equipment/products and services

provided to and purchased by NJPA Members or calculated as reasonable and acceptable method applicable to the contracted transaction, and

**3.33.2** Included in, and not added to, the pricing included in Proposer's Response to this RFP, and

**3.33.3** Designed to offset the anticipated costs of NJPA's involvement in contract management, facilitating marketing efforts, Vendor training, and any order processing tasks relating to the Contract resulting from this RFP.

**3.33.3.1** Typical administrative fees for a B-TO-G order process and funds flow is 2.0%.

**3.34** The opportunity to propose these factors and an appropriate administrative fee is available in the Proposer's Questionnaire.

#### 4. PRICING STRATEGIES

**4.1** NJPA requests Potential Proposers respond to this RFP only if they are able to offer a wide array of equipment/products and services and at prices lower and better value than what they would ordinarily offer to single government agency, larger school district, or regional cooperative.

**4.2** RFP is an "Indefinite Quantity Product/Equipment and Related Service Price and Program Request" with potential national sales distribution and service. Proposers are agreeing to fulfill Contract obligations regarding each product/equipment to which you provide a description and a price. If Proposer's solution requires additional supporting documentation, describe where it can be found in your submission. If Proposer offers the solution in an alternative fashion, describe your solution to be easily understood. All pricing must be copied on a CD along with other requested information as a part of a Proposer's Response.

**4.3** Regardless of the payment method selected by NJPA or NJPA Member, a total cost associated with any purchase option of the equipment/products and services and being supplied must always be disclosed at the time of purchase.

**4.4 Primary Pricing/Secondary Pricing Strategies-** All Proposers will be required to submit "Primary Pricing" in the form of either "Line-Item Pricing," or "Percentage Discount from Catalog Pricing," or a combination of these pricing strategies. Proposers are also encouraged to offer OPTIONAL pricing strategies such as but not limited to "Hot List," "Sourced Product/Equipment" and "Volume Discounts," as well as financing options such as leasing.

##### A. LINE-ITEM PRICING

**4.5 Line-Item pricing-** A pricing format where specific individual products and/or services are offered at specific individual Contract prices. Products/equipment and/or related services are individually priced and described by characteristics such as manufacture name, stock or part number, size, or functionality. This method of pricing offers the least amount of confusion as products/equipment and prices are individually identified however, Proposers with a large number of products/equipment to propose may find this method cumbersome. In these situations, a percentage discount from catalog or category pricing model may make more sense and increase the clarity of the contract pricing format.

**4.6** All Line-Item Pricing items must be numbered, organized, sectioned, including SKU's (when applicable) and easily understood by the Evaluation Committee and members.

**4.7** Line-Item Pricing items are to be submitted in an Excel spreadsheet format provided and are to include all appropriate identification information necessary to discern the line item from other line items in each Responder's proposal.

**4.8** The purpose for the excel spreadsheet format for Line-Item Pricing is to be able to use the “Find” function to quickly find any particular item of interest. For that reason, Proposers are responsible for providing the appropriate product and service identification information along with the pricing information which is typically found on an invoice or price quote for such products/equipment and related services.

**4.9** All products/equipment and related services typically appearing on an invoice or price quote must be individually priced and identified on the line-item price sheet, including any and all ancillary costs.

**4.10** Proposers are asked to provide both a published “List” price as well as a “Proposed Contract Price” in their pricing matrix. “The published List” price will be the standard “quantity of one” price currently available to government and educational customers excluding cooperative and volume discounts.

## B. PERCENTAGE DISCOUNT FROM CATALOG OR CATEGORY

**4.11 Percent Discount From Catalog, list or Category Pricing-** A specific percentage discount from a “Catalogue or List Price” defined as a published Manufacturer’s Suggested Retail Price (MSRP) for the products/equipment or related services being proposed.

**4.12** Individualized percentage discounts can be applied to any number of defined product groupings.

**4.13** A Percentage Discount from MSRP may be applied to all elements identified in MSRP including all Manufacturer Options applicable to the product/equipment or related service.

**4.14** Accessory options requested by the customer and related to the general scope of this RFP but are not under the current contract will be priced using a “Sourced Product/equipment pricing model” as defined herein. See Section F

**4.15** When a Proposer elects to use “Percentage Discount from Catalog or Category,” Proposer will be responsible for providing and maintaining current published “MSRP” with NJPA and must be included in their proposal and provided throughout the term of any Contract resulting from this RFP.

**4.16** NJPA reserves the right to review catalogs submitted to determine if the represented products and services reflect and relate to the scope of this RFP. Each new catalog received may have the effect of adding new product offerings and deleting products no longer carried by the Vendor. New catalogs shall apply to the Contract only upon approval of the NJPA. Non-approved use of catalogs may result in termination for convenience. New price lists or catalogs found to be offering non-contract items during the Contract may be grounds for terminating the Contract for convenience. New optional accessories for product/equipment and related services may be added to the Contract through the NJPA approval process at the time they become available.

## C. HOT LIST PRICING

**4.17** Where applicable, NJPA also invites the Vendor, at their option, to offer a specific selection of products/services, defined as a Hot List selection offer pricing at greater discounts or related advantages than those listed in the standard Contract pricing. All product/service pricing, including the Hot List Pricing, must be submitted electronically provided in Excel format. Hot List pricing must be submitted in a Line-Item format. Providing or offering a “Hot List Selection” of equipment/products and related services is optional. Equipment/products and related services may be added or removed from the “Hot List” at any time.

**4.18** Hot List program and pricing when applicable may also be used to discount and liquidate close-out and discontinued equipment/products and related services as long as those close-out and discontinued

items are clearly labeled as such. Current ordering process and administrative fees apply. This option must be published and made available to all NJPA Members.

**4.19** Hot List Program and Pricing is allowed to change at the discretion of the Vendor within the definition of Hot List Pricing. The Vendor is responsible to maintain current Hot List product/equipment and related service descriptions and Pricing with NJPA.

#### D. CEILING PRICE

**4.20** Proposal pricing is to be established as a ceiling price. At no time may the proposed equipment/products and related services be offered pursuant to this Contract at prices above this ceiling price without request and approval by NJPA. **IMPORTANT NOTE:** Contract prices may be reduced to allow for volume considerations and commitments and to meet the specific and unique needs of an NJPA Member.

**4.21** Allowable specific needs may include competitive situations, certain purchase volume commitments or the creation of custom programs based on the individual needs of NJPA Members.

#### E. VOLUME PRICE DISCOUNTS

**4.22** Proposers are free to offer volume commitment discounts from the contract pricing documented in a Contract resulting from this RFP. Volume considerations shall be determined between the Vendor and individual NJPA Members on a case-by-case basis.

**4.23** Nothing in this Contract establishes a favored member relationship between the NJPA or any NJPA Member and the Vendor. The Vendor will, upon request by NJPA Member, extend this same reduced price offered or delivered to another NJPA Member provided the same or similar volume commitment, specific needs, terms, and conditions, a similar time frame, seasonal considerations, locations, competitive situations and provided the same manufacturer support is available to the Vendor.

**4.24** All price adjustments are to be offered equally to all NJPA Members exhibiting the same or substantially similar characteristics such as purchase volume commitments, and timing including the availability of special pricing from the Vendor's suppliers.

#### F. SOURCED PRODUCT/EQUIPMENT /OPEN MARKET ITEMS

**4.25** NJPA or NJPA Members may from time to time, request product/equipment and/or equipment/products and related services that are within the related scope of this RFP, which are not included in an awarded Vendor's line-item product/equipment and related service listing or "list or catalog". These items are known as Sourced Product/Equipment or Open Market Items.

**4.26** An awarded Vendor resulting from this RFP may "Source" this equipment/products and related services for NJPA or an NJPA Member to the extent they:

**4.26.1** Identify all such equipment, products and services as "Sources Product/Equipment" or "Open Market Items" on any quotation issued in reference to an NJPA awarded contract, and provided to either NJPA or an NJPA Member, and

**4.26.2** All applicable acquisition regulations pertaining to the purchase of such equipment, products and services have been followed, as defined by NJPA or the NJPA Member receiving quotation from Vendor, and

**4.26.3** NJPA or the NJPA Member has determined the prices as quoted by Vendor for such equipment, products and services are deemed to be fair and reasonable and are acceptable to the member.

## G. COST PLUS A PERCENTAGE OF COST

**4.27** Cost plus a percentage of cost as a primary pricing mechanism is not desirable.

## H. TOTAL COST OF ACQUISITION

**4.28** The Total Cost of Acquisition for the equipment/products and related services being proposed, including those payable by NJPA Members to either the Proposer or a third party, shall be defined as:

- The cost of the proposed equipment/products product/equipment and related services delivered and operational for its intended purpose in the end-user's location.

**4.29** For example, if you are proposing equipment/products only "Warehouse Product/Equipment" contract, FOB Proposer's dock, your proposal would identify your deviation from the "Total Cost of Acquisition" of contracted equipment/products. The "Proposal should reflect that the contract does not provide for delivery beyond Proposer's dock, nor any set-up activities or costs associated with those delivery or set-up activities." In contrast, proposed terms including all costs for product/equipment and services delivered and operational at to the end-user's location would require a disclosure of "None".

## I. REQUESTING PRODUCT/EQUIPMENT AND RELATED SERVICE ADDITIONS/DELETIONS

**4.30** Requests for product/equipment and related services, price changes, additions, deletions, or any related contract changes must be made in written form and shall be subject to approval by NJPA.

**4.31** New equipment/products and related services may be added to a Contract resulting from this RFP at any time during that Contract to the extent those equipment/products and related services are within the scope of this RFP. Those requests are subject to review and approval of NJPA. Allowable new equipment/products and related services generally include new updated models of equipment/products and related services and or enhanced services previously offered which could reflect new technology and improved functionality.

**4.32** Proposers representing multiple manufacturers, or carrying multiple related product lines may also request the addition of new manufacturers or product lines to their Contract to the extent they remain within the scope of this RFP.

**4.33** NJPA's due diligence in analyzing any request for change is to determine if approval of the request is 1) within the scope of the original RFP, and 2) in the "Best Interests of NJPA and NJPA Members." We are looking for consistent pricing and delivery mechanisms and an understanding of what value the proposal brings to NJPA and NJPA Members.

**4.34** Documenting the "Best Interests of NJPA and NJPA Members" when outdated equipment is being deleted is fairly straight forward since the product is no longer available and not relevant to the procurement Contract.

**4.35** Requests must be in the form of 1) a cover letter to NJPA a) asking to add the product/equipment line, b) making a general statement identifying how the products to be added are within the scope of the original RFP, and c) making a general statement identifying that, if appropriate, the pricing is consistent with the existing Contract pricing and 2) the detail as to what is being added at what price will then be an attachment to that cover letter. Pending approval of your request by NJPA you will need to provide a complete re-statement of all pricing including all new prices/products AND existing prices and products/equipment.

**4.36** NJPA's intent is to encourage Proposers to provide and document NJPA's due diligence in a clear and concise one page format on which we can approve and sign our acknowledgment and acceptance.

This information must ultimately come from Proposers, and NJPA is requiring it in this format.

## J. REQUESTING PRICING CHANGES

**4.37 Price Decreases:** Requests for standard Contract price decrease adjustments (percentage discount increases) are encouraged and will be allowed at any time based on market place efficiencies, market place competitiveness, improved technologies and/or improved methods of delivery or if Vendor engages in innovative procurement practices such as strategic sourcing, aggregate and volume purchasing. NJPA expects Vendors to propose their very best prices and anticipates price reductions due to the advancement of technologies and market place efficiencies. Documenting the “Best Interests of NJPA and NJPA Members” is highly valued when we are documenting price reductions.

**4.38 Price increases:** Requests for standard contract price increases (or the inclusion of new generation products/equipment/services at higher prices) can be made at any time. These requests will again be evaluated by NJPA based on the best interests of NJPA and NJPA Members. As an example, typically acceptable requests for price increases for existing equipment/products and services may cite increases to the Vendor of input costs such as petroleum or other applicable commodities. Typically acceptable requests for price increases for new equipment/products and services enhance or improve on the current solutions currently offered as well as cite increases in utility of the new compared to the old. Vendors are requested to reasonably document the claims cited in their requests. Your written request for a price increase, therefore, is an exercise in describing what you need, and a justification for why you need it in sufficient detail for NJPA to deem such change to be in the best interests of ourselves and our Members.

**4.39 Price Change Request Format:** An awarded Proposer will use the format of a cover letter requesting price increases in general terms (a 5% increase in product line X) and stating their justification for that price increase (due to the recent increase in petroleum or raw material costs) by product category. Specific details for the requested price change must be attached to the request letter identifying product/services where appropriate, both current and proposed pricing. Attachments such as letters from suppliers announcing price increases are appropriate for documenting your requests here.

## K. PRICE AND PRODUCT CHANGES FORMAT

**4.40** NJPA’s due diligence regarding product and price change requests is to consider the reasonableness of the request and document consideration on behalf of our members. Submit the following documentation to request a pricing change:

**4.40.1** A cover letter:

- a. Please address the following subjects in your cover letter:
  - i. What product/equipment and related service prices are changing?
  - ii. How much are the prices changing?
  - iii. Why are the prices changing?
  - iv. Any additions or deletions from the previous product/equipment and related services list and the reason for the changes.
- b. The specifics of the product/services and price changes will be listed in the excel spreadsheets identified below. Please take a more general “Disclosure” approach to identifying changes in the cover letter.
  - i. If applicable and **for example** indicate, “All paper equipment/products and services increased 5 % in price due to transportation and fuel costs.”
  - ii. If applicable, for instance, indicate, “The 6400 series floor polisher added to the product list is the new model replacing the 5400 series. The 6400’s 3% price increase reflects the rate of inflation over the past year. The 5400 series is now included in the “Hot List” at a 20% discount from previous pricing until remaining inventory is liquidated.”

**4.40.2** An excel spreadsheet identifying all equipment/products and services being offered and their pricing. Each subsequent pricing update will be saved using the naming convention of “(Vendor Name) pricing effective XX/XX/XXXX.”

- a. Include all equipment/products and services regardless of whether their prices have changed. By observing this convention we will:
  - i. Reduce confusion by providing a single, easy to find, current pricing sheet for each Vendor.
  - ii. Create a historical record of pricing.

#### L. SINGLE STATEMENT OF PRICING/HISTORICAL RECORD OF PRICING

**4.41** Initially; and again with each request for product addition, deletion, and/or pricing change; you must state all pricing for all equipment/products and services available. The request for price changes described above will serve as the documentation for those requested changes. Each complete pricing list will be identified by its “Effective Date.” Each successive price listing identified by its “Effective Date” will create a “Product and Price History” for the Contract.

**4.42** Proposers may use the multiple tabs available in an Excel workbook to separately list logical product groupings or to separately list product and service pricing as they see fit.

**4.43** All equipment/products and services together with their pricing, whether changed within the request or remaining unchanged, will be stated on each “Pricing” sheet created as a result of each request for product, service, or pricing change.

**4.44** Each subsequent “Single Statement of Product and Pricing” will be archived by its effective date therefore creating a product and price history for any Contract resulting from this RFP. Proposers are required to create a historical record of pricing annually by submitting updated pricing referred to as a “Single Statement of Product/Equipment and Related Services Contract Price Update”. This pricing update is required at a minimum of once per contract year.

#### M. PAYMENT TERMS

**4.45** Payment terms will be defined by the Proposer in the Proposer’s Response. Proposers are encouraged to offer payment terms through P Card services if applicable to the customary method of procurement relating to the contracted product/equipment and related services.

**4.46** Leasing- If available, identify any leasing programs available to NJPA and NJPA Members as part of your proposal. Proposers should submit an example of the lease agreement to be used. Proposers should identify:

- General leasing terms such as:
  - The percentage adjustment over/under an index rate used in calculating the internal rate of return for the lease; and
  - The index rate being adjusted; and
  - The “Purchase Option” at lease maturity (\$1, or fair market value); and
  - The available term in months of lease(s) available.
- Leasing company information such as:
  - The name and address of the leasing company; and
  - Any ownership, common ownership, or control between the Proposer and the Leasing Company.

## N. SALES TAX

**4.47** Sales and other taxes, where applicable, shall not be included in the prices quoted. Vendor will charge state and local sales and other taxes on items for which a valid tax exemption certification has not been provided. Each NJPA Member is responsible for providing verification of tax exempt status to Vendor. When ordering, if applicable, NJPA Members must indicate that they are tax exempt entities. Except as set forth herein, no party shall be responsible for taxes imposed on another party as a result of or arising from the transactions contemplated by a Contract resulting from this RFP.

## O. SHIPPING AND SHIPPING PROGRAM

**4.48** Shipping program for material only proposals, or sections of proposals, must be defined as a part of the cost of product/equipment. If shipping is charged to NJPA or NJPA Member, only the actual cost of delivery may be added to an invoice. Shipping charges calculated as a percentage of the product price may not be used, unless such charges are lower than actual delivery charges. No COD orders will be accepted. It is desired that delivery be made within ninety-days (90) of receipt of the Purchase Order. See "The Total Cost of Acquisition" for the equipment/products and related services.

**4.49** Any shipping cost charged to NJPA or NJPA Members will be considered to be part of "proposal pricing."

**4.50** Additional costs for expedited deliveries will be at the additional shipping or handling expense to the NJPA Member.

**4.51** Selection of a carrier for shipment will be the option of the party paying for said shipping. Use of another carrier will be at the expense of the requester.

**4.52** Proposers must define their shipping programs for Alaska and Hawaii and any location not served by conventional shipping services. Over-size and over-weight items and shipments may be subject to custom freight programs.

**4.53** Proposals containing restocking fees are less advantageous than those not containing re-stocking fees. That being said, certain industries cannot avoid restocking fees. Certain industries providing made to order product/equipment may not allow returns. With regard to returns and restocking fees, Proposers will be evaluated based on the relative flexibility extended to NJPA and NJPA Members relating to those subjects. Where used, restocking fees in excess of 15% will be considered excessive. Restocking fees may be waived, at the option of the Proposer/Vendor. Indicate all shipping and re-stocking fees in price program.

**4.54** Proposer agrees shipping errors will be at the expense of the Vendor. For example, if a Vendor ships a product that was not ordered by the member, it is the responsibility of the Vendor to pay for return mail or shipment at the convenience of the member.

**4.55** Unless specifically stated otherwise in the "Shipping Program" of a Proposer's Response, all prices quoted must be F.O.B. destination with the freight prepaid by the Vendor. Delivery effectiveness is very important aspect of this Contract. **Question:** Does this information become public if submitted with the bid? I ask this because we are a private owned company and do not publish this information. We would be willing to provide a statement as long as it is not shared with the public.

**Answer:** All materials submitted in response to this RFP will become property of the NJPA and will become public record in accordance with Minnesota Statutes, section 13.591, after the evaluation process is completed. If the Responder submits information in response to this RFP that it believes to be trade secret materials, as defined by the Minnesota Government Data Practices Act, Minnesota Statute § 13.37, the Responder must:

- clearly mark all trade secret materials in its response at the time the response is submitted,
- include a statement with its response justifying the trade secret designation for each item, and
- defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless the NJPA, its agents and employees, from any judgments or damages awarded against the NJPA in favor of the party requesting the materials, and any and all costs connected with that defense.

This indemnification survives the NJPA's award of a contract. In submitting a response to this RFP, the Responder agrees that this indemnification survives as long as the trade secret materials are in possession of the NJPA.

We suggest you send two separate responses, the first titled "Solicitation Response", and the second titled "Public Records Response" where the latter has all "Trade Secret" information redacted. You must also include citing the appropriate laws enabling each redaction you have claimed.
