## Description/Analysis

**Issue Detail:** The Department of General Services (“DGS”), Fleet Management Division, has a customer requirement to purchase replacement patrol vehicles for the Police Department (“PD”). After evaluating all available police-pursuit rated vehicles for performance, road handling, fuel economy, cost, ergonomics, and safety, PD recommends purchasing the Ford Police Interceptor Utility (“Utility”). Accordingly, this report recommends executing a supplemental agreement with Downtown Ford Sales to authorize the purchase of additional Utility vehicles (and eliminating the planned purchase of sedans), along with making the necessary budget adjustment.

**Policy Considerations:** The recommendations in this report are in accordance with the provisions of City Code Section 3.56.

**Economic Impacts:** None

### Environmental Considerations:

**California Environmental Quality Act (CEQA):** No environmental review is necessary because the recommendations in this report involve the purchase of vehicles and are not considered to be a project in accordance with Section 15378(b)(2) of the CEQA guidelines.

**Sustainability:** The recommended purchases are consistent with the Fleet Sustainability Policy adopted by City Council on February 16, 2010 (Resolution No. 2010-083) by including flex fuel technology that enables greater use of E85, a cleaner burning alternative fuel which significantly reduces carbon emissions.

**Commission/Committee Action:** None

**Rationale for Recommendation:** DGS, Fleet Management Division, has a customer requirement to purchase replacement patrol vehicles for PD. The recommendations in this report provide the budgetary and contractual authority to make those purchases. The recommended contract supplement will increase the not-to-exceed amount of the contract by \$276,420. In lieu of purchasing additional sedans, as originally contemplated under the agreement, the City, under the proposed supplement, will begin purchasing only Utility vehicles. After evaluating all available police-pursuit rated vehicles for performance, road handling, fuel economy, cost, ergonomics, and safety, PD has determined that Utility vehicles best suit its needs. Further information regarding PD’s vehicle analysis is in Attachments 1-3.

**Financial Considerations:** On April 2, 2013, City Council passed Motion No. 2013-0084, awarding a three-year contract to Downtown Ford Sales for replacement Ford vehicles in an amount not to exceed \$1,822,536 for the three-year period. The following table provides a summary of the estimated expenditures in the original contract award and the estimated expenditures resulting from the recommendations in this report.

FY2012/13	Original Estimated Expenditures		Revised Estimated Expenditures		Difference	
	Quantity	Cost	Quantity	Cost	Quantity	Cost
Sedan	2	\$56,868	2	\$56,868	0	\$0

Total	39	\$1,222,573	31	\$1,038,593	(8)	(\$183,980)
<b>Grand Total</b>	<b>59</b>	<b>\$1,822,536</b>	<b>63</b>	<b>\$2,098,956</b>	<b>4</b>	<b>\$276,420</b>

The FY2012/13 vehicles shown above have been purchased. On average, the cost of a Utility vehicle is between \$2,100 and \$3,700 more than a sedan, depending on the model year and options purchased.

The recommended vehicles will be purchased from the DGS operating budget (Fleet Fund, Fund 6501) and charged to either the PD multi-year operating project for replacement vehicles and equipment (I06013110, General Fund, Fund 1001) or the PD Measure U project (I80110200, Measure U Special Revenue Fund, Fund 2401). Sufficient funding will exist in all the budgets noted above upon completion of the recommended budget adjustment to increase the DGS operating budget for the Measure U restoration funding in the amount of \$368,533. Funding for the revised estimated expenditures noted in the table above will be as follows:

Fiscal Year	Quantity	Cost	Fund Name	Fund No.	Project
FY2013/14	18	\$603,054	General Fund	1001	I06013110

## **Ford Police Interceptor Utility Analysis**

The City has historically purchased the Ford Crown Victoria Police Interceptor (CVPI) for the Police Department's patrol vehicles. In 2011, Ford discontinued the production of the CVPI and began producing the Ford Police Interceptor (PI) Sedan and Utility vehicles as CVPI replacements.

Fleet Management worked closely with the Police Department to provide vehicle data and specifications to evaluate potential replacement vehicles and develop a transition plan to avoid any potential service level impacts. The Police Department evaluated all available police pursuit rated vehicles for performance, road handling, fuel economy, cost, ergonomics and safety. The vehicles evaluated included the Ford PI Sedan, Ford PI Utility, Chevrolet Tahoe Police Pursuit Vehicle (Tahoe PPV), Chevrolet Caprice PPV, and the Dodge Charger Pursuit. An overview of the vehicle specifications and analysis is located in Attachment 2.

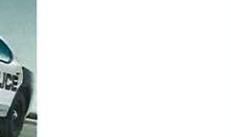

With safety being one of the principal factors, the Police Department evaluated the gross vehicle weight rating (GVWR) and payload capacity of each vehicle. The GVWR is the maximum allowable weight, including the weight of the vehicle itself, passengers, and equipment that can be safely carried in the vehicle. The payload capacity is the total weight of passengers and equipment the vehicle can safely carry. The Police Department conducted an analysis to evaluate each vehicle's ability to support the weight of the occupants and required equipment for patrol operations. This analysis is located in Attachment 3.

Based on the analysis conducted, the only vehicles that could be safely operated, while accommodating the Police Department's equipment specifications, were the PI Utility, Tahoe PPV, and the Charger Pursuit (V6). Of the three vehicles, it was determined that the Ford PI Utility was the best available option for the new patrol vehicle and is the recommended replacement for the City's CVPI patrol vehicles. This recommendation is consistent with the findings of other public safety agencies. Approximately 80% of agencies in the region are migrating either all or a portion of their patrol fleets to the PI Utility primarily due to the limited weight and space capacities in the other available pursuit rated vehicles. These agencies include the California Highway Patrol (CHP), Sacramento County Sheriff, City of Oakland, City of Folsom, City of Galt, City of Lincoln, City of Los Angeles, City of San Diego and City of San Francisco. In addition, the PI Utility is recommended for the following reasons:

- Preferred option by Police Officers due to performance, increased space and improved ergonomics.
- All-wheel drive improves handling, especially in wet weather conditions.
- Higher ground clearance is expected to reduce maintenance costs associated with undercarriage damage and allows for improved visibility during field operations.
- According to the Environmental Protection Agency (EPA), the estimated fuel economy of the PI Utility exceeds the CVPI fuel economy.
- Flex fuel compatible (E85).
- The estimated resale value exceeds the CVPI resale value by three times.
- Lowest priced available option able to safely transport Police Officers and passengers.
- Maintained stability in emergency driving situations.
- Some equipment currently installed in the City's CVPI's are transferable at the end of the CVPIs useful life and can be re-installed in the PI Utility.

## New Pursuit Rated Vehicle Analysis

Ford stopped production of the Crown Victoria at the end of 2011. The SPD has evaluated five pursuit rated models as a possible replacement. These models include the Ford Police Interceptor (PI) Sedan, Ford PI Utility, Chevrolet Tahoe Police Pursuit Vehicle (PPV), Chevrolet Caprice PPV, and the Dodge Charger Pursuit. Following is a side by side comparison of each of the vehicles.

## Gross Vehicle Weight Rating Analysis (GVWR)

The GVWR is determined by the auto manufacturer and represents the maximum weight of passengers and cargo that can be safely carried in a vehicle. This rating includes the weight of the chassis, body, engine, engine fluids, fuel, accessories, driver, passenger, cargo, spare tire, etc. A vehicle should never be loaded beyond the GVWR. If the GVWR is exceeded, brakes and suspension components can become ineffective putting passengers at risk.

**Results of Analysis: The only pursuit related vehicles currently in production able to safely accommodate SPD average weight requirements are the Ford Police Interceptor Utility, Chevrolet Tahoe Police Pursuit Vehicle (PPV) and the Dodge Charger Pursuit V6.**

Adopted by the Sacramento City Council

June 10, 2014

### REPLACEMENT POLICE PATROL VEHICLES

#### BACKGROUND

- A. The Department of General Services (“DGS”), Fleet Management Division, has a customer requirement to purchase replacement patrol vehicles for the Police Department (“PD”). After evaluating all available police-pursuit rated vehicles for performance, road handling, fuel economy, cost, ergonomics, and safety, PD has determined that the Ford Police Interceptor Utility (“Utility”) best suits its needs.

- C. The Utility vehicles will be purchased from the DGS operating budget (Fleet Fund, Fund 6501) and charged to either the PD multi-year operating project for replacement vehicles and equipment (I06013110, General Fund, Fund 1001) or the PD Measure U project (I80110200, Measure U Special Revenue Fund, Fund 2401). Sufficient funding will exist in all the budgets noted above upon completion of the budget adjustment identified below to increase the DGS operating budget to account for the Measure U restoration funding in the amount of \$368,533.

#### **BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:**

- Section 1. The City Manager or the City Manager’s designee is authorized to increase the expenditure and revenue budgets in the DGS FY2013/14 operating budget (Fleet Fund, Fund 6501) in the amount of \$368,533.

The receipt of such an amendment must be acknowledged in accordance with the directions on the amendment. Oral explanations or instructions given before the award of the contract will not be binding.

14. **Bid Evaluation.** In determining the amount bid by each bidder, the City shall disregard mathematical errors in addition, subtraction, multiplication and division that appear obvious on the face of the Bid. When such a mathematical error appears on the face of the Bid, the City shall have the right to correct such error and to compute the total amount bid by the bidder on the basis of the corrected figure or figures.

When an item price is required to be set forth in the Bid, and the total for the item set forth separately does not agree with a figure which is derived by multiplying the item price times the City's estimate of the quantity to be provided or performed for said item, the item price shall prevail over the sum set forth as the total for the item unless, in the sole discretion of the City, such a procedure would be inconsistent with the intent of the bid process. The total paid for each such item of work shall be based upon the item price and not the total price.

Should the Bid contain only a total price for the item and the item price is omitted, the City shall determine the item price by dividing the total price for the item by City's estimate of the estimated quantities to be provided or performed.

If the Bid contains neither the item price nor the total price for the item, then it shall be deemed incomplete and the Bid shall be disregarded.

If prospective bidders are bidding an item "or equal" the bidders shall list the manufacturer's name and product number of the item offered in the space provided. If such information is not provided, it will be assumed that the

bidder is offering the exact item specified. The City's decision as to whether an item is an equal to the item specified shall be final.

- 15. Determination of Lowest Responsible Bidder.** Sacramento City Code '3.56.020 provides that the lowest responsible bidder shall be determined as follows:
- a. In determining whether a bidder is responsible, consideration shall be given to: (i) the quality and performance of the supplies to be provided by the bidder; (ii) the ability, capacity and skill of the bidder to perform the contract or effectuate the transaction; (iii) the ability of the bidder to perform the contract or effectuate the transaction within the time specified, without delay; (iv) the character, integrity, reputation, judgment, experience and efficiency of the bidder; (v) the quality of the bidder's performance on previous purchases by, or contracts with, the City; (vi) the ability of the bidder to provide future maintenance, repair parts and services for the supplies provided.
  - b. Based on the information provided in the bids, the City Council or the City Manager, as the case may be, shall identify those bids that are subject at the time of bid opening to the City's local sales or use tax under the provisions of Part 1.5 of Division 2 of the California Revenue and Taxation Code and Chapter 3.24 of the City Code. The lowest responsible bidder shall be determined after the amount of local sales or use tax that would be received by the City is deducted from such bids. This deduction shall be in addition to the application of any bid price preferences authorized by subsection c, below.
  - c. The City Council may by resolution, from time to time, adopt programs or procedures for providing bid price preferences, including but not limited to, preferences to promote the participation and utilization of small business enterprises, energy conservation and sustainability in the City's contracting for supplies and nonprofessional services. The lowest responsible bidder shall be the responsible bidder whose bid price is the lowest after all bid prices are calculated to include any such preferences. The calculation of such preferences shall be in addition to any deduction of sales or use tax required by subsection b, above.
- 16. Pre-Award Conference.** The apparent lowest responsible bidder may be required to attend a pre-award conference at a mutually acceptable time at which requirements of the Contract will be reviewed. At that time, samples of forms, reports etc., will be submitted by the Contractor for final approval.

- 18. Multiple Awards.** The City reserves the right to make multiple awards in order to provide alternate sources to insure continuity of supply if meeting the City's requirements within an acceptable time period exceeds the capacity or capability of the primary contractor(s).
- 19. Contract Award.** Within ninety (90) days after the bid opening, a contract will be awarded by the City to the lowest responsible bidder, subject to the right of the City to reject all bids or waive informalities or minor irregularities, as it may deem proper. The time for awarding a contract may be extended in the sole discretion of the City, if required to evaluate bids or for such other purposes as the City may determine, unless the Bidder objects to such extension in writing with his/her bid. The City may accept this bid offer by issuance of a Notice of Award Letter, Contract and/or a Purchase order covering award of said bid to Bidder at any time on or before the 90<sup>th</sup> day following the day of this official bid is opened by the City. This offer shall be irrevocable for 90 days after bid opening or 90 days after City Council awards the bid, whichever comes last, however this period may be extended by mutual agreement of both parties.
- 20. Emergency/Declared Disaster Requirements.** In the event of an emergency or if a City facility is declared a disaster area by the county, state or federal government, this contract may be subjected to unusual usage. The consultant/vendor/supplier shall service the City during such an emergency or declared disaster under the same terms and conditions that apply during non-emergency/disaster conditions. The pricing quoted by the consultant/vendor/supplier shall apply to serving the City's needs regardless of the circumstances. If the consultant/vendor/supplier is unable to supply the goods/services under the terms of the contract because of a disruption in its chain of supply or service, then the consultant/vendor/supplier shall provide proof of such disruption which may include, but not be limited to a copy of a letter from the source of supply or service stating reason for the

## **D. EQUAL BENEFITS ORDINANCE (EBO) REQUIREMENTS**

### **REQUIREMENTS OF THE NON-DISCRIMINATION IN EMPLOYEE BENEFITS CODE**

#### **INTRODUCTION**

The Sacramento Non-Discrimination In Employee Benefits Code (the "Ordinance"), codified as Sacramento City Code Chapter 3.54, prohibits City contractors from discriminating in the provision of employee benefits between employees with spouses and employees with domestic partners, and between the spouses and domestic partners of employees.

#### **APPLICATION**

The provisions of the Ordinance apply to any contract or agreement (as defined below), between a Contractor and the City of Sacramento, in an amount exceeding \$100,000.00. The Ordinance applies to that portion of a contractor's operations that occur: (i) within the City of Sacramento; (ii) on real property outside the City of Sacramento if the property is owned by the City or if the City has a right to occupy the property; or (iii) at any location where a significant amount of work related to a City contract is being performed.

The Ordinance does not apply: to subcontractors or subcontracts of any Contractor or contractors; to transactions entered into pursuant to cooperative purchasing agreements approved by the Sacramento City Council; to legal contracts of other governmental jurisdictions or public agencies without separate competitive bidding by the City; where the requirements of the ordinance will violate or are inconsistent with the terms or conditions of a grant, subvention or agreement with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or agreement; to permits for excavation or street construction; or to agreements for the use of City right-of-way where a contracting utility has the power of eminent domain.

#### **DEFINITIONS**

As set forth in the Ordinance, the following definitions apply:

"Contract" means an agreement for public works or improvements to be performed, or for goods or services to be purchased or grants to be provided, at the expense of the City or to be paid out of moneys deposited in the treasury or out of the trust money under the control or collected by the City. "Contract" also means a written agreement for the exclusive use ("exclusive use" means the right to use or occupy real property to the exclusion of others, other than the right reserved by the fee owner) or occupancy of real property for a term exceeding 29 days in any calendar year, whether by singular or cumulative instrument, (i) for the operation or use by others of real property owned or controlled by the City for the operation of a business, social, or other establishment or organization, including leases, concessions, franchises and easements, or (ii) for the City's use or occupancy of real property owned by others, including leases, concessions, franchises and easements.

"Contract" shall not include: a revocable at-will use or encroachment permit for the use of or encroachment on City property regardless of the ultimate duration of such permit; excavation, street construction or street use permits; agreements for the use of City right-of-way where a contracting utility has the power of eminent domain; or agreements governing the use of City property that constitute a public forum for activities that are primarily for the purpose of espousing or advocating causes or ideas and that are generally protected by the First Amendment to the United States Constitution or that are primarily recreational in nature.

"Contractor" means any person or persons, firm partnership or corporation, company, or combination thereof, that enters into a Contract with the City. "Contractor" does not include a public entity.

"Domestic Partner" means any person who has a currently registered domestic partnership with a governmental entity pursuant to state or local law authorizing the registration.

"Employee Benefits" means bereavement leave; disability, life, and other types of insurance; family medical leave; health benefits; membership or membership discounts; moving expenses; pension and retirement benefits; vacation; travel benefits; and any other benefit given to employees. "Employee benefits" shall not include benefits to the extent that the application of the requirements of this chapter to such benefits may be preempted by federal or state.

### **CONTRACTOR'S OBLIGATION TO PROVIDE THE CITY WITH DOCUMENTATION AND INFORMATION**

Contractor shall provide the City with documentation and information verifying its compliance with the requirements of the Ordinance within ten (10) days of receipt of a request from the City. Contractors shall keep accurate payroll records, showing, for each City Contract, the employee's name, address, Social Security number, work classification, straight time pay rate, overtime pay rate, overtime hours worked, status and exemptions, and benefits for each day and pay period that the employee works on the City Contract. Each request for payroll records shall be accompanied by an affidavit to be completed and returned by the Contractor, as stated, attesting that the information contained in the payroll records is true and correct, and that the Contractor has complied with the requirements of the Ordinance. A violation of the Ordinance or noncompliance with the requirements of the Ordinance shall constitute a breach of contract.

### **EMPLOYER COMPLIANCE CERTIFICATE AND NOTICE REQUIREMENTS**

- (a) All contractors seeking a Contract subject to the Ordinance shall submit a completed Declaration of Compliance Form, signed by an authorized representative, with each proposal, bid or application. The Declaration of Compliance shall be made a part of the executed contract, and will be made available for public inspection and copying during regular business hours.

Specifications on the following pages are written with intent to meet all applicable documents but the final certification to comply shall rest with the vendor and not the City of Sacramento. Should requirements as specified not comply, the manufacturer is required to refigure and revise the specifications to meet all laws, rules and regulations where it applies to items such as the ratings of axles, tires, wheels, brakes, batteries, cooling capacity, etc., and the City of Sacramento is to be notified thereof.

## Gross Vehicle Weight Rating Analysis (GVWR)

The GVWR is determined by the auto manufacturer and represents the maximum weight of passengers and cargo that can be safely carried in a vehicle. This rating includes the weight of the chassis, body, engine, engine fluids, fuel, accessories, driver, passenger, cargo, spare tire, etc. A vehicle should never be loaded beyond the GVWR. If the GVWR is exceeded, brakes and suspension components can become ineffective putting passengers at risk.

**Results of Analysis: The only pursuit related vehicles currently in production able to safely accommodate SPD average weight requirements are the Ford Police Interceptor Utility, Chevrolet Tahoe Police Pursuit Vehicle (PPV) and the Dodge Charger Pursuit V6.**
