Description/Analysis

Issue Detail: The Department of General Services (DGS), Fleet Management Division, has an ongoing requirement to purchase various types of fuel for the City's fleet of vehicles and equipment.

Policy Considerations: The recommendations in this report are in accordance with City Code Chapter 3.56 and Resolution No. 2013-0367, which requires additional posting time for agreements greater than \$1 million.

Economic Impacts: None

Environmental Considerations:

California Environmental Quality Act (CEQA): No environmental review is necessary because the recommendations in this report involve the purchase of fuel for City vehicles and equipment and are not considered to be a project in accordance with Section 15378(b)(2) of the CEQA guidelines.

Sustainability: The recommended fuel purchases are consistent with the Fleet Sustainability Policy adopted by City Council on February 16, 2010.

Commission/Committee Action: None

Rationale for Recommendation: The Department of General Services (DGS), Fleet Management Division, has an ongoing requirement to purchase various types of fuel for the City's fleet of vehicles and equipment.

In an ongoing effort to maximize cost savings and staff resources, many government agencies share contracting efforts through cooperative purchasing. This procurement method increases pricing competitiveness and lowers capital costs through volume buying. When comparing the administrative costs of procurement, staff considers product research, source selection, specifications, advertising, staff reports, awarding, protest, and administration of the contract. It is often more cost-effective to eliminate the cost and time spent on these administrative processes and purchase items and services through a cooperative purchasing program.

The City has used both regional and national CPAs to complement its own contracting initiatives. Cooperative purchasing enables City departments to evaluate a broader range of contracting opportunities and to share resources with other jurisdictions. Cooperative purchasing also leverages internal and external resources to maximize cost savings opportunities for the City.

The City is a participating agency under the SACOG CPA. In developing its bid, SACOG included the fuel requirements from all the agencies participating in the CPA. The volume of fuel this represents ensures better pricing than the City could obtain if Fleet Management issued its own bid. Under the terms of the CPA, participating agencies are required to execute a fuel procurement sub-agreement with Hunt and Sons, Inc.

Financial Considerations: The recommended purchases will be made from the DGS operating budget (Fleet Fund, Fund 6501) and charged to the operating budgets of the using departments. Purchases will be made on an "as-needed" basis. Sufficient funding is available in the DGS FY2014/15 operating budget for purchases through June 30, 2015. Purchases made after June 30, 2015 are subject to funding availability in the adopted budget of the applicable fiscal year.

In determining the recommended spending authorization, Fleet Management staff reviewed the expenditure history and considered future needs. Annual expenditure estimates are provided in the table below and include potential short delivery fees, propane tank lease fees, and a three percent contingency for any potential increase in fuel prices. The SACOG CPA includes an initial three-year term and two one-year renewal options. The table below shows the estimated maximum expenditure amount over the potential five-year term.

Annual Estimated Fuel Expenditures

	Year 1	Year 2	Year 3	Year 4	Year 5	Total

Hunt & Sons, Inc. and City of Sacramento

THIS FUEL PROCUREMENT AGREEMENT (the "Agreement"), is made and entered into this ____ day of ____, 20__, by and between the *City of Sacramento, a California municipal corporation* (hereinafter "Participating Agency"), and *Hunt & Sons, Inc., a California Corporation* (the "Contractor").

RECITALS:

A. The Sacramento Area Council of Governments ("SACOG") has entered into a Standard Agreement with Contractor, dated _____ to provide various forms of fuel products to certain participating SACOG member agencies and other eligible entities (the "SACOG Agreement"); and

B. The Participating Agency desires to purchase fuel products from Contractor pursuant to the terms and conditions set forth below.

AGREEMENT:

NOW, THEREFORE, the parties agree as follows:

1. The provisions of the SACOG Agreement, excluding Section 27 related to Costs and Attorneys' Fees, are incorporated into this Agreement as though set forth in full herein. Except as otherwise expressly set forth herein, the terms and conditions of the SACOG Agreement are made applicable to Contractor's provision of services to the Participating Agency.

2. Contractor shall perform the scope of work attached to this Agreement as Exhibit A and incorporated herein. The estimated fuel requirements set forth on Exhibit A are estimates only and do not bind the Participating Agency to purchase that amount of fuel products.

3. The Participating Agency shall pay Contractor in arrears for fuel delivered in accordance with the rate schedule set forth in Exhibit A. Payments shall be made pursuant to the payment provisions set forth in the SACOG Agreement.

4. Insurance Requirements. Contractor shall obtain and maintain the insurance required under Section 15 of the SACOG Agreement and shall cause the Participating Agency to be named as an additional insured thereunder.

5. Indemnity. Contractor shall defend, hold harmless and indemnify Participating Agency, its officers and employees, and each and every one of them, from and against any and all actions, damages, costs, liabilities, claims, demands, losses, judgments, penalties, costs and

expenses of every type and description, including, but not limited to, any fees and/or costs reasonably incurred by Participating Agency's staff attorneys or outside attorneys and any fees and expenses incurred in enforcing this provision (hereafter collectively referred to as "Liabilities"), including but not limited to Liabilities arising from personal injury or death, damage to personal, real or intellectual property or the environment, contractual or other economic damages, or regulatory penalties, arising out of or in any way connected with performance of or failure to perform this Agreement by Contractor, any subcontractor or agent, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, whether or not (i) such Liabilities are caused in part by a party indemnified hereunder or (ii) such Liabilities are litigated, settled or reduced to judgment; provided that the foregoing indemnity does not apply to liability for any damage or expense for death or bodily injury to persons or damage to property to the extent arising from the sole negligence or willful misconduct of Participating Agency, its agents, servants, or independent contractors who are directly responsible to Participating Agency, except when such agents, servants, or independent contractors are under the direct supervision and control of Contractor.

The existence or acceptance by Participating Agency of any of the insurance policies or coverages described in this Agreement shall not affect or limit any of Participating Agency's rights under this section, nor shall the limits of such insurance limit the liability of Contractor hereunder. The provisions of this section shall survive any expiration or termination of this Agreement.

6. The Participating Agency shall have the right to terminate this Agreement for any reason, with or without cause, at any time, by giving Contractor fifteen (15) days written notice. Participating Agency shall pay Contractor for the fuel purchased by City prior to termination; provided, however, Participating Agency shall not in any manner be liable for lost profits that might have been made by Contractor had the Agreement not been terminated. The notice shall be deemed served and effective for all purposes on the date it is deposited in the U.S. mail, certified, return receipt requested, addressed to Contractor at the address set forth next to its signature, below.

7. Project Manager.

The Participating Agency's project manager for this Agreement is Keith Leech, unless Participating Agency otherwise informs Contractor. Any notice, report, or other communication required by this Agreement shall be mailed by first-class mail to the Participating Agency Project Manager at the following address:

*Keith Leech, Fleet Manager
City of Sacramento
5730 24th Street, Building One
Sacramento, CA 95822*

Contractor's project manager for this Agreement is Josh Hunt. Communication to Contractor required by this Agreement shall be mailed by first-class mail to:

2. Each of the following public agencies may become "Participating Agencies" under this Agreement upon negotiation, execution and delivery of a sub-agreement with Contractor substantially in the form of Exhibit "G" attached hereto:

County of Butte
County of Placer
Nevada Irrigation District
City of Rocklin
City of Folsom
City of Galt

University of California at Davis
City of Yuba City

County of Sacramento
Town of Truckee
Placer County Water Agency
City of Roseville
City of Sacramento

3. Contractor shall, in good faith, negotiate, execute and deliver a sub-agreement with each of the public agencies listed in Section 1, above, substantially in the form of Exhibit "G" attached hereto. SACOG shall not be responsible for any Participating Agency's failure to execute a sub-agreement, or for the breach of any sub-agreement by a Participating Agency. Public agencies other than the Participating Agencies listed above may join this Agreement only upon prior written approval by SACOG and the Contractor. Following such approval, such public agencies shall be "Participating Agencies" for all purposes of this Agreement.

4. a. On or before the 15th day of the first month of each calendar quarter (i.e., January 15, March 15, July 15 and October 15), Contractor shall deliver to SACOG a written report of all fuels and lubricants delivered to the Participating Agencies during the preceding calendar quarter. The report shall include the following information for each Participating Agency: (1)

quantities purchased of each product type, (2) the administrative fee for each product type, (3) the total amount invoiced for each product type, (4) a total of the administrative fee for all product types, and (5) a total of the amount invoiced for all product types. b. Concurrently with the delivery of the quarterly report, Contractor shall pay an administrative fee to SACOG in the amount of \$0.0065 for each gallon (or gallon equivalent) of fuels and lubricants delivered during the prior calendar quarter. Payment shall be made on the basis of actual deliveries without any withholding for late payment by a Participating Agency.

Contractor's Scope of Work

Bulk Fuel Distribution

5. Contractor will deliver fuel and lubricants, and provide other services as specified below, to Participating Agencies without causing them to change the way they function or adding any additional expenses to their operating budgets. These services are included in the fees included within this contract. Fees for delivered fuel and lubricants will be assessed to the Participating Agencies at the rates set forth in Exhibit "B," attached hereto.

- a. Contractor will assign a customer service representative to each Participating Agency who will visit all the locations to verify tank sizes, physical tank locations, best traffic routes and physically stick each of the fuel tanks to get an initial inventory level so that Contractor can begin to monitor fuel usage and create deliveries when product is needed.
- b. Contractor's dispatch will also use its tracking method to gauge when fuel is needed based on daily usage.
- c. Dispatch will monitor the fuel market and advise the Participating Agencies on when to purchase fuel based on potential market increases and when to hold off from purchasing when prices are dropping.
- d. Contractor will maintain accurate inventory totals based on daily consumption and tank stick readings.
- e. Contractor will also put each location on a "keep full" route where, based on the daily fuel consumption, Contractor will deliver to all of the tankwagon delivery locations weekly or more often based on when fuel is needed.
- f. Since each delivery location will be on a "keep full" route Contractor will ensure that fuel is delivered to each as part of a weekly routine so that even if one of the

locations had a light week of fuel consumption it will still be serviced so that it does not fall out of its normal routine. A lot of times daily or weekly consumption might change for some reason so by all tanks being delivered to on a routine basis there won't be any issues of a location being low on inventory.

g. Contractor will also utilize the existing Tank monitoring systems that several agencies currently have where Contractor will be able to set the system to fax or email inventory levels on a daily basis to Contractor's dispatch so that Contractor can monitor fuel levels remotely for locations that are high volume sites.

h. For all high volume sites and sites that have inconsistent usages such as those in the "Snow" country, Contractor will call them on a daily basis to see what potential needs they would have such as if a storm was coming. As used in this paragraph, "high-volume sites" means those sites that have an average daily usage in excess of 4,000 gallons.

6. Steps in Fuel Delivery

a. Contractor receives a call from a Participating Agency location for fuel delivery or it comes due as part of Contractor's "Keep Full Program."

b. Contractor creates fuel order and dispatch schedules a delivery.

c. If delivery is for a location in one of the areas that will be serviced by Contractor where the most economical and logistical place of pick up will be a major loading terminal, then the fuel truck will be dispatched to one of the fuel loading racks in Sacramento, Chico, Stockton or the Bay Area that is connected to the pipeline system coming from the Bay Area Refineries. The fuel will be delivered to the ordering location.

d. If the delivery is for a location where the Participating Agency is best served by an outlying Contractor distribution facility, then the truck will load from that facility and deliver the fuel to the ordering location.

e. The fuel truck will make the delivery and then a signed delivery ticket is brought back to Contractor's headquarters for processing.

f. Invoice for fuel delivery will be generated and mailed to the Participating Agency for payment.

g. If a Participating Agency's order is for Lubricants, then the delivery will originate out of the closest Contractor distribution facility to that specific ordering location and then the signed delivery ticket is sent back to Contractor's Headquarters for processing.

Cardlock Services.

7. Contractor offers both Pacific Pride and CFN fueling networks.

- a. Contractor has four full time employees in their Cardlock Department. They handle large fuel card orders each day and replace lost or stolen cards.
- b. Contractor will provide paper or electronic invoices, as requested by the Participating Agencies. Contractor will also send cardlock invoice information in a .csv format to import into Participating Agency fleet databases, if so requested.
- c. Contractor will provide both vehicle cards and bulk fuel cards as requested by each Participating Agency and will itemize all charges for lost or stolen cards. [\$3.00 per card]
- d. Contractor's card lock invoices will include all of this information along with pricing, fueling location, departments and index codes.
- e. Participating Agencies may access their respective card lock transactions on Contractor's web page daily for the previous day's purchases.
- f. At the request of any Participating Agency, Contractor's software programmers will also write a program allowing the Participating Agency to log on to a specific web page and download cardlock transaction information in a format that the Participating Agency requires for its in-house Fleet Maintenance Software.

8. Emergency Resources and Protocol

- a. Contractor will prepare for potential emergency situations throughout the year by training its employees on the correct measures they will need to know to perform their duties to always having significant inventories of all products on hand so that Contractor can be there no matter what happens.
- b. Contractor's customer support is available to all Participating Agencies 24 hours a day, 365 days a year. Contractor's office hours are 6 a.m. to 6 p.m. Monday thru Friday and 8 a.m. to 12 p.m. on Saturdays. After hours Contractor's customer service team can be reached by calling Contractor's office and speaking with Contractor's answering service who can reach every member of Contractor's dispatch and customer service department by cell phone 24 hours a day.
- c. Contractor has trucks on the road 7 days a week so Contractor will always be able to respond to any issues.
- d. Contractor has hundreds of thousands of gallons of fuel and lubricants on hand at anytime at all of their Distribution Facilities or Cardlocks so that if there are product outages at the terminals or the pipelines are down Contractor will still have product to deliver.

- e. If power outages occur, Contractor will pull fuel from its own locations with its own power to ensure Participating Agencies still have fuel.
- f. Contractor has the experience and contacts at Cal Trans to ensure that Contractor's trucks can get through the highways even if roads are closed due to snow conditions and will still be able to make deliveries in emergency situations.

- i. Contractor will provide extra fueling equipment such as tanks and pumps to Participating Agencies to utilize during potential emergencies to help provide additional storage onsite to fuel vehicles and emergency generators.

9. Subcontractor

(TYPE OR WRITE NAME OF COMPANY)

California Government Code Section 84308

- (a) The definitions set forth in this subdivision shall govern the interpretation of this section.
- (1) "Party" means any person who files an application for, or is the subject of, a proceeding involving a license, permit, or other entitlement for use.
 - (2) "Participant" means any person who is not a party but who actively supports or opposes a particular decision in a proceeding involving a license, permit, or other entitlement for use and who has a financial interest in the decision, as described in Article 1 (commencing with Section 87100) of Chapter 7. A person actively supports or opposes a particular decision in a proceeding if he or she lobbies in person the officers or employees of the agency, testifies in person before the agency, or otherwise acts to influence officers of the agency.
 - (3) "Agency" means an agency as defined in Section 82003 except that it does not include the courts or any agency in the judicial branch of government, local governmental agencies whose members are directly elected by the voters, the Legislature, the Board of Equalization, or constitutional officers. However, this section applies to any person who is a member of an exempted agency but is acting as a voting member of another agency.
 - (4) "Officer" means any elected or appointed officer of an agency, any alternate to an elected or appointed officer of an agency, and any candidate for elective office in an agency.
 - (5) "License, permit, or other entitlement for use" means all business, professional, trade and land use licenses and permits and all other entitlements for use, including all entitlements for land use, all contracts (other than competitively bid, labor, or personal employment contracts), and all franchises.
 - (6) "Contribution" includes contributions to candidates and committees in federal, state, or local elections.
- (b) No officer of an agency shall accept, solicit, or direct a contribution of more than two hundred fifty dollars (\$250) from any party, or his or her agent, or from any participant, or his or her agent, while a proceeding involving a license, permit, or other entitlement for use is pending before the agency and for three months following the date a final decision is rendered in the proceeding if the officer knows or has reason to know that the participant has a financial interest, as that term is used in Article 1 (commencing with Section 87100) of Chapter 7. This prohibition shall apply regardless of whether the officer accepts, solicits, or directs the contribution for himself or herself, or on behalf of any other officer, or on behalf of any candidate for office or on behalf of any committee.
- (c) Prior to rendering any decision in a proceeding involving a license, permit or other entitlement for use pending before an agency, each officer of the agency who received a contribution within the preceding 12 months in an amount of more than two hundred fifty dollars (\$250) from a party or from any participant shall disclose that fact on the record of the proceeding. No officer of an agency shall make, participate in making, or in any way attempt to use his or her official position to influence the decision in a proceeding involving a license, permit, or other entitlement for use pending before the agency if the officer has willfully or knowingly received a contribution in an amount of more than two

hundred fifty dollars (\$250) within the preceding 12 months from a party or his or her agent, or from any participant, or his or her agent if the officer knows or has reason to know that the participant has a financial interest in the decision, as that term is described with respect to public officials in Article 1 (commencing with Section 87100) of Chapter 7. If an officer receives a contribution which would otherwise require disqualification under this section, returns the contribution within 30 days from the time he or she knows, or should have known, about the contribution and the proceeding involving a license, permit, or other entitlement for use, he or she shall be permitted to participate in the proceeding.

- (d) A party to a proceeding before an agency involving a license, permit, or other entitlement for use shall disclose on the record of the proceeding any contribution in an amount of more than two hundred fifty dollars (\$250) made within the preceding 12 months by the party, or his or her agent, to any officer of the agency. No party, or his or her agent, to a proceeding involving a license, permit, or other entitlement for use pending before any agency and no participant, or his or her agent, in the proceeding shall make a contribution of more than two hundred fifty dollars (\$250) to any officer of that agency during the proceeding and for three months following the date a final decision is rendered by the agency in the proceeding. When a closed corporation is a party to, or a participant in, a proceeding involving a license, permit, or other entitlement for use pending before an agency, the majority shareholder is subject to the disclosure and prohibition requirements specified in subdivisions (b), (c), and this subdivision.
- (e) Nothing in this section shall be construed to imply that any contribution subject to being reported under this title shall not be so reported.

County of Sacramento

County of Sacramento
Payee Data Record
(REV November 2013)

PURPOSE OF FORM

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you for real estate transaction.

ARE YOU A RESIDENT OR A NONRESIDENT?

Each corporation, individual/sole proprietor, partnership, estate or trust doing business with the County of Sacramento must indicate their residency status along with their taxpayer identification number.

A corporation will be considered a "resident" if it has a permanent place of business in California. The corporation has a permanent place of business in California if it is organized and existing under the laws of this state or, if a foreign corporation has qualified to transact intrastate business. A corporation that has not qualified to transact intrastate business (e.g., a corporation engaged exclusively in interstate commerce) will be considered as having a permanent place of business in this state only if it maintains a permanent office in this state that is permanently staffed by its employees.

For individual/sole proprietorship, the term "resident" includes every individual who is in California for other than a temporary or transitory purpose or any individual domiciled in California who is absent for a temporary or transitory purpose. Generally, an individual who comes to California for a purpose which will extend over a long or indefinite period will be considered a resident. However, an individual who comes to perform a particular contract of short duration will be considered a nonresident.

For withholding purposes, a partnership is considered a resident partnership if it has a permanent place of business in California. An estate is considered a California estate, if the decedent was a California resident at the time of death and a trust is considered a California trust if at least one trustee is a California resident.

More information on residency status can be obtained by calling the Franchise Tax Board at the numbers listed below:

From within the United States, call.....1-800-852-5711
From outside the United States, call.....1-916-845-6500
For hearing impaired with TDD, call.....1-800-822-6268

EXEMPTIONS

If you are exempt from backup withholding and/or FATCA reporting, enter in the Exemption box, any code(s) that may apply to you. See Exempt payee code and Exemption from FATCA reporting code on page 3 of IRS Form W-9 (Rev. 8-2013) for the codes.

ARE YOU SUBJECT TO NONRESIDENT WITHHOLDING?

Payments made to nonresident payees, including corporations, individuals, partnerships, estates, and trusts, are subject to withholding. Nonresident payees performing services in California or receiving rent, lease or royalty payments from property (real or personal) located in California will have 7% of their total payments withheld for state income taxes. However, no withholding is required if total payments to the payee are \$1500 or less for the calendar year.

A nonresident payee may request that income taxes be withheld at a lower rate or waived by sending a completed form FRB 588 to the address below. A waiver will generally be granted when a payee has a history of filing California returns and making timely estimated payments. If the payee activity is carried on outside of California or partially outside of California, a waiver or reduced withholding rate may be granted. For more information, contact:

PRIVACY STATEMENT

Section 7(b) of the Privacy Act of 1974 (Public Law 93-5791) requires that any federal, state, or local governmental agency which requests an individual to disclose his social security account number shall inform that individual whether that disclosure is mandatory or voluntary, by which statutory or other authority such number is solicited, and what uses will be made of it.

The County of Sacramento requires that all parties entering into business transactions that may lead to payment(s) from the County must provide their valid Taxpayer Identification Number (TIN) as required by the State Revenue and Taxation Code, Section 18646 to facilitate tax compliance enforcement activities and to facilitate the preparation of Form 1099 and other information returns as required by the Internal Revenue Code, Section 6109(a). The TIN for an individual and a sole proprietorship is the Social Security Number (SSN). The Internal Revenue Service (IRS) considers a TIN as incorrect if either the name or the number shown on an account does not match a name and number combination in their files or the files of the Social Security Administration (SSA). Section 3406 of the Internal Revenue Code requires that we withhold 28% in tax, called backup withholding, if the correct Payee name/TIN combination is not provided.

It is mandatory to furnish the information required. Federal law requires that payments for which the requested information is not provided be subject to a 28% withholding and state law imposes noncompliance penalties of up to \$20,000.

The Contractor shall take any necessary measures to

ensure delivery of sufficient quantities of fuel and related products to each of the Participating Agencies in accordance with said regulations.

7.2. In the event of such programs, the Participating Agencies reserve the right to terminate their respective sub-agreements on the effective date of the allocation program.
