Description/Analysis

Issue Detail: The Department of General Services (DGS), Fleet Management Division, has an ongoing requirement to purchase replacement vehicles and equipment to support mission critical operations performed by City departments. Time is of the essence when replacing vehicles and equipment to prevent interruptions in service and higher repair and maintenance costs associated with keeping assets beyond their useful lives. To expedite this process, this report recommends using the cooperative purchase agreements identified in Attachment 1 to purchase the needed sedans, vans, sport utility vehicles, trucks, flail mowers, and sweepers. Each of these agreements has been competitively bid, meets the needs of the City's fleet, offers better pricing than the City would receive through its own bid process due to a higher purchase volume, and eliminates the lengthy process of bidding and executing individual City contracts.

Policy Considerations: The recommendations in this report are in accordance with City Code Chapter 3.56 and Resolution No. 2013-0367, which requires additional posting time for agreements greater than \$1 million.

Economic Impacts: None

Environmental Considerations:

California Environmental Quality Act (CEQA): No environmental review is necessary because the recommendations in this report involve the purchase of vehicles and equipment and are not considered to be a project in accordance with Section 15378(b)(2) of the CEQA guidelines.

Sustainability: The recommended purchases are consistent with the Fleet Sustainability Policy adopted by City Council on February 16, 2010 (Resolution No. 2010-083).

Commission/Committee Action: None

Rationale for Recommendation: DGS, Fleet Management, has an ongoing requirement to purchase new and replacement vehicles and equipment to support mission critical operations performed by City departments. Time is of the essence when replacing vehicles and equipment to prevent interruptions in service and higher repair and maintenance costs associated with keeping assets beyond their replacement schedule. To expedite this process, this report recommends using the cooperative purchase agreements identified in Attachment 1 to purchase needed sedans, vans, sport utility vehicles, trucks, flail mowers, and sweepers. The quantities listed in Attachment 1 are estimates based on the historical and anticipated needs of City departments. Actual purchases may vary based on department needs at the time of the purchase. The sum of all purchases under the 24 agreements (listed in Attachment 1 and shown in Exhibit A) shall not exceed \$2,586,174.

Each of the cooperative purchase agreements has been competitively bid, meets the needs of the City's fleet, offers better pricing than the City would receive through its own bid process due to a higher purchase volume, and eliminates the lengthy process of bidding and executing individual City contracts.

In an ongoing effort to maximize cost savings and staff resources, many government agencies share contracting efforts through cooperative purchasing. This procurement method increases pricing competitiveness and lowers capital costs through volume buying. When comparing the administrative costs of procurement, staff considers product research, specifications, advertising, staff reports, awarding, protest, and administration of the contract. It is often more cost-effective to eliminate the

cost and time spent on these administrative processes and purchase items and services through a cooperative purchasing program.

The City has used both regional and national cooperative purchase agreements to complement its own contracting initiatives. Cooperative purchasing enables City departments to evaluate a broader range of contracting opportunities and to share resources with other jurisdictions. Cooperative purchasing also leverages internal and external resources to maximize cost savings opportunities for the City.

Financial Considerations: Purchases under the recommended cooperative purchase agreements will be made from the DGS operating budget (Fleet Fund, Fund 6501) and charged to the customer department's multi-year operating project (MYOP) for replacement vehicles and equipment. Sufficient funding is available in the DGS FY2014/15 operating budget and customer department MYOPs to support the recommended purchases.

In determining the recommended spending authorization in the not-to-exceed amount of \$2,586,174, Fleet Management compared the replacement vehicles and equipment to be purchased against available cooperative purchase agreements. The information provided in Attachment 1 is the best estimate at this time of the replacement vehicles and equipment that can be purchased from these agreements. This recommended spending authorization includes a ten percent increase of \$235,107 in the total amount for contingency purposes, and flexibility in terms of vehicle manufacturer and vendor selection. This will allow Fleet Management to respond quickly to the changing operational needs of City departments, and indeterminate events such as vehicle accidents, or increased quantities as a result of grant funding or increased service demands. Customer departments are required to obtain Finance Department approval, and provide funding for, purchases above and beyond what is included in the planned replacement schedule.

Local Business Enterprise (LBE): Downtown Ford Sales and Elk Grove Auto Group are LBE vendors.

Vehicles have been awarded by line item based on the highest score per line item. Line items may have multiple awards in a ranking order. Vehicles ranked #1 on a given line item received the highest score for that line item. Vehicles with the second highest score on a given line item are ranked #2, provided the vehicle is a different make and model, and so on. **State departments shall only purchase vehicles that are ranked #1 for each line item, NO EXCEPTIONS.** Local governmental agencies may purchase any vehicle on contract regardless of rank.

NOTE: Vehicles are categorized by rank on Attachment A, Contract Pricing. The tabs located at the bottom of Attachment A, Contract Pricing spreadsheets identify the ranking categories.

Sales Tax

The sales tax rate applied should be based on the rate of the "Bill To" address listed on the Purchase Order.

Options

All factory options shall be available and priced at dealer cost plus up to ten percent for an addition or dealer cost minus up to ten percent for a deletion in accordance with the manufacturer's price list in effect at the time of the bid opening. All options added or deleted shall be shown as a separate line item on the purchase order, invoice, and contract usage report. Equipment changes which might be made would include, but would not be limited to, the following:

- Add power windows;
- Add trailer tow package;
- Delete pick up box (bed).

Contract (Mandatory) 1-14-23-23 A – G, Supplement 4

The supplier will provide DGS/PD and/or ordering agencies a copy of the dated factory price lists in use at the time of bid opening if requested. These prices will be firm and not subject to increase through the life of the contract. The price list must be furnished to the requestor within ten (10) calendar days of notification.

For contractor performance issues, ordering agencies must submit a completed [Supplier Performance Report](#) via email or facsimile to the State Contract Administrator identified in Article 4. The ordering agency should include all relevant information and/or documentation (i.e. Purchase documents).

All pricing is listed on Attachment A, Contract Pricing. A Service Plan is offered on all light duty vehicles. The Service Plan is optional but highly recommended.

All prices quoted shall be fixed as the maximum cost for the contract period unless a price increase is granted.

Ranking Order

Vehicles have been awarded by line item based on the highest score per line item. Line items may have multiple awards in a ranking order. Vehicles ranked #1 on a given line item received the highest score for that line item. Vehicles with the second highest score on a given line item are ranked #2, provided the vehicle is a different make and model, and so on. **State departments shall only purchase vehicles that are ranked #1 for each line item, NO EXCEPTIONS.** Local governmental agencies may purchase any vehicle on contract regardless of rank.

NOTE: Vehicles are categorized by rank on Attachment A, Contract Pricing. The tabs located at the bottom of Attachment A, Contract Pricing spreadsheets identify the ranking categories.

Sales Tax

The sales tax rate applied should be based on the rate of the "Bill To" address listed on the Purchase Order.

Options

All factory options shall be available and priced at dealer cost plus up to ten percent for an addition or dealer cost minus up to ten percent for a deletion in accordance with the manufacturer's price list in effect at the time of the bid opening. All options added or deleted shall be shown as a separate line item on the purchase order, invoice, and contract usage report. Equipment changes which might be made would include, but would not be limited to, the following:

- Add power windows;
- Add trailer tow package;
- Delete pick up box (bed).

Contract (Mandatory) 1-14-23-20 A – G, Supplement 3
Contract Notification and User Instructions

In no case shall options be included or deleted in such a manner as to cause the vehicle to conflict with any other line item on this or any other vehicle contract. Additionally, the option to change the engine size shall not be allowed on all light duty vehicles (e.g. V6 to V8; 4.8L to 5.3L).

The supplier will provide DGS/PD and/or ordering agencies a copy of the dated factory price lists in use at the time of bid opening if requested. These prices will be firm and not subject to increase through the life of the contract. The price list must be furnished to the requestor within ten (10) calendar days of notification.

NOTE: Vehicles with options added or deleted must continue to meet or exceed the appropriate minimum specification.

Vehicles ordered for State use will be inspected by a State inspector at the dealer's place of business. Inspection will commence within five (5) working days of notification that a vehicle is ready for inspection. Inspection will include: specification compliance, workmanship, appearance, proper operation of all equipment and systems, and that all documents are present. In the event deficiencies are detected, the vehicle will be rejected and the delivering dealer will be required to make the necessary repairs, adjustments or replacements. RFP 081411

INTRODUCTION

A. ABOUT NJPA

1.1 The National Joint Powers Alliance®- (NJPA)- is a public agency serving as a national municipal contracting agency established under the Service Cooperative statute by Minnesota Legislative Statute §123A.21 with the authority to develop and offer, among other services, cooperative procurement services to its membership. Eligible membership includes states, cities, counties, governmental agencies, both public and non-public educational agencies, colleges, universities and non-profit organizations. This Minnesota Statute also allows for service to NJPA Member agencies in Minnesota and all other states.

1.2 To this end, NJPA has established a series of procurement contracts with various Vendors of products/services which NJPA Members desire to procure. These procurement contracts are created in compliance with applicable Minnesota Municipal Contracting Laws. A complete listing of NJPA cooperative procurement contracts can be found at www.njpacoop.org.

1.3 NJPA's publicly elected Board of Directors calls for all proposals, awards all Contracts, and hosts those resulting Contracts and offers them for the benefit of its Membership.

1.3.1 Subject to Approval of the Board: Any award of Contract made by an authorized NJPA Employee will be subject to such action by the NJPA Board of Directors.

1.4 NJPA currently serves over 30,000 member agencies. Both membership and utilization of NJPA Contracts continues to expand at exponential rates. The value of our Contracts driven to our Members is reflected in our growth.

B. JOINT EXERCISE OF POWERS LAWS

1.5 NJPA cooperatively shares those contracts with its Members nationwide through various "Joint Exercise of Powers Laws" established in Minnesota and most other States. The Minnesota "Joint Exercise of Powers Law" is Minnesota Statute §471.59 which states "Two or more governmental units...may jointly or cooperatively exercise any power common to the contracting parties..." Similar Joint Exercise of Powers Laws for each State of the United States can be found on our website at <http://www.njpacoop.org/LEARN/About/Legal.html> and clicking on that state at the bottom of the web-page.

C. WHY RESPOND TO A NATIONAL COOPERATIVE PROCUREMENT CONTRACT

1.6 National Cooperative Procurement Contracts create value for both Municipal buyers and their Vendors of products/services in two ways:

1.6.1 We **save the time and effort** of many municipal buyers bringing individual procurement proposals AND the time and effort of the Vendors in responding individually to those invitations. A single invitation for a cooperatively held contract can replace potentially thousands of invitations for the same items from individual NJPA Members.

1.6.2 We earn **volume purchasing discounts** which are passed on to our Members. A single awarded Proposal is likewise exposed to thousands of potential Municipal purchasing units nationwide creating efficiency and savings to the business community as they sell products and services to government and education agencies.

1.7 State laws that permit or encourage cooperative purchasing contracts do so with the belief that lower prices, better overall value and time savings will be the result.

RFP 081411

1.8 The collective purchasing power of thousands of NJPA Members nationwide offers the opportunity for volume pricing discounts. Although no volume is guaranteed by a Contract resulting from this RFP, substantial volume is anticipated and volume pricing is requested and justified.

1.9 NJPA and its Members desire the best value for their procurement dollar as well as a competitive price. Pre-competed procurement contracts offer NJPA and its Members the ability to more directly compare non-price factors in their procurement analysis and it offers Vendors the opportunity to display those attributes without the timing and interpretation constraints of a typical individual proposal process.

D. THE INTENT OF THIS RFP

1.10 The intent of this RFP is to award an Exclusive Single Award Contract to a qualifying manufacturer or distributor Proposer demonstrating a solution which meets and/or exceeds the requirements of NJPA and its Members within the scope of **PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES**. Qualifying Proposers must be able to demonstrate the knowledge of any and all applicable industry standards, laws and regulations; and the ability to both market to and service NJPA Members in all 50 states. All proposals received will be evaluated based on (among several other factors) their ability to provide the greatest utility to NJPA and NJPA Members and across the widest spectrum of products and services.

1.11 NJPA desires a relationship with a vendor providing a broad array of equipment, products, supplies, accessories and services anticipated and generally requested and desired by NJPA members from the **PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES** industry. Those products and services must include those most commonly used and desired by NJPA and its Members. NJPA is seeking a Prime and Exclusive Vendor relationship to best serve the overall needs of NJPA and NJPA Members nationally.

1.12 Non-Manufacturer Awards: NJPA reserves the right to make an award related to this invitation to a non-manufacturer such as a dealer/distributor if such action is in the best interests of NJPA and its Members.

1.13 Multiple Awards: Although it is NJPA's intent to award a contract to a single Vendor, NJPA reserves the right to award a Contract to multiple Proposers where the responding Proposers are deemed to lack the ability to appropriately service a national contract or such action is deemed to be in the best interests of NJPA and its Members

1.14 Award by Board of Directors: An Award of Contract may be made by the NJPA Board of Directors based on the recommendation of the NJPA Proposal Review Committee and on the best interests of NJPA and its Members. NJPA is seeking a Prime, Exclusive Vendor relationship(s) to meet this need. The goal and intent of this RFP is to follow through with a proposal award and contract to be marketed nationally through a cooperative effort between the awarded vendor(s) and NJPA to its participating members.

1.15 Best Responsive – Responsible Proposer: It is the intent of NJPA to award a Contract to the best responsible and responsive Proposer(s) offering the best overall quality and selection of products/services and services meeting the commonly requested specifications of the NJPA and NJPA Members, provided the Proposer's Response has been submitted in accordance with the requirements of this RFP.

1.16 Sealed Proposals: NJPA will receive sealed proposal responses to this RFP in accordance with accepted standards set forth in the Minnesota Procurement Code and Uniform Municipal Contracting Law. Awards may be made to responsible and responsive Proposers whose proposals are determined in writing to be the most advantageous to NJPA and its current or qualifying future NJPA Members.

1.17 Use of Contract: Any Contract resulting from this solicitation shall be awarded with the understanding that it is for the sole convenience of NJPA and its Members. NJPA and/or its members

RFP 081411

reserve the right to obtain like goods and services solely from this Contract or from another contract source of their choice.

1.18 NJPA's interest in a contract resulting from this RFP: Notwithstanding its own use, to the extent NJPA issues this RFP and any resulting contract for the use of its Members, NJPA's interests and liability for said use shall be limited to the competitive proposal process performed and terms and conditions relating to said contract and shall not extend to the products, services, or warranties of the Awarded Vendor or the intended or unintended effects of the goods and services procured there from.

1.19 Sole Source of Responsibility- NJPA desires a "Sole Source of Responsibility" Vendor meaning the Vendor will take sole responsibility for the performance of delivered products/services. NJPA also desires sole responsibility with regard to:

1.19.1 Scope of Products/Services: NJPA desires a single provider for the broadest possible scope of the goods and services being proposed over the largest possible geographic area and to the largest possible cross-section of NJPA Members.

1.19.2 Vendor use of sub-contractors in sourcing or delivering goods and services: NJPA desires a single source of responsibility for products/services proposed. Proposer's are assumed to have sub-contractor relationships with all organizations and individuals whom are external to the Proposer and are involved in providing or delivering the goods and services being proposed. Vendor assumes all responsibility for the products/services and actions of any such Sub-Contractor.

E. SCOPE OF THIS RFP

1.20 Additional Definition for the scope of this solicitation.

1.20.1 In addition to **PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES**, this solicitation should be read to include:

1.20.1.1 OEM Production vehicles from the Manufacturer (OEM)

1.20.1.2 Alt Fuel Vehicles and Vehicles utilizing leading edge technologies.

1.20.1.3 Cab and Chassis Trucks

1.20.1.2 Dump Trucks, Service Bodies, Flat Beds.

1.20.1 NJPA reserves the right to limit the scope of this solicitation for market segments already being serviced by existing NJPA procurement contracts.

1.21 Solutions Based Invitation:

1.21.1 All potential Proposers are assumed to be professionals in their respective fields. As professionals you are deemed to be intimately familiar with the spectrum of NJPA and NJPA Member's needs and requirements with respect to the scope of this RFP.

1.20.2 With this intimate knowledge of NJPA and NJPA Member's needs, Proposers are instructed to provide their proposal response in a format describing their solutions to those current and future needs and requirements. Proposers should take care to be economical in their response to this RFP.

1.21.3 Multiple solutions to the needs of NJPA and NJPA Member's are possible. **Examples could include:**

1.21.3.1 Materials Only Solution: A Materials Only Solution may be appropriate for situations where NJPA or NJPA Members possess the ability, either in-house or through local third party contractors, to properly install and bring to operation those materials being proposed.

1.21.3.2 Turn-Key Solutions: A Turn-Key Solution is combination of materials and services which provides a single price for materials, delivery, and installation to a properly operating status. Generally this is the most desirable solution as NJPA and NJPA Members may not possess, or desire to engage, personnel with the necessary expertise to complete these tasks internally or through other independent contractors

1.20.3.3 Good, Better, Best: Where appropriate and properly identified, Proposers are invited to offer the CHOICE of good – better – best multiple grade solutions to NJPA and NJPA Member's needs.

1.21.3.4 Proven – Accepted – Leading Edge Technology: Where appropriate and properly identified, Proposers are invited to provide the CHOICE of an appropriately identified spectrum of technology solutions to NJPA and NJPA Member's needs both now and into the future.

1.22 Geographic Area to be Proposed: This RFP invites proposals to provide **PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES** to NJPA and NJPA Members throughout the entire United States and possibly internationally. Proposers will be expected to express willingness to explore service to NJPA Members located abroad; however the lack of ability to serve Members outside of the United States will not be cause for non-award. The ability to serve Canada, for instance, will be viewed as a value-added attribute.

1.23 Manufacturer as a Proposer: If the Proposer is a Manufacturer or wholesale distributor, the response received will be evaluated on the basis of a response made in conjunction with that Manufacturer's Dealer Network. Unless stated otherwise, a Manufacturer or wholesale distributor Proposer is assumed to have a documented relationship with their Dealer Network where that Dealer Network is informed of, and authorized to accept, purchase orders pursuant to any Contract resulting from this RFP on behalf of the Manufacturer or wholesale distributor Proposer. Any such dealer will be considered a sub-contractor of the Proposer/Vendor. The relationship between the Manufacturer and wholesale distributor Proposer and its Dealer Network may be proposed at the time of the proposed submission if that fact is properly identified.

1.24 Dealer/Re-seller as a Proposer: If the Proposer is a dealer or re-seller of the products and/or services being proposed, the response will be evaluated based on the Proposer's authorization to provide those products and services from their manufacturer. Where appropriate, Proposers must document their authority to offer those products and/or services.

1.25 Contract Term: A contract resulting from this RFP will become effective the date established in the "Offering and Award" (Form D). NJPA is seeking a Contract base term of four years subject to annual renewals as allowed by Minnesota Contracting Law. Full term is expected, however will only occur through successful annual renewals. One additional one-year renewal-extension may be offered by NJPA to Vendor beyond the original four year term if NJPA deems such action to be in the best interests of NJPA and its Members.

1.26 Minimum Contract Value: NJPA anticipates considerable activity resulting from this RFP and subsequent award; however no commitment of any kind is made concerning actual quantities to be acquired. NJPA does not guarantee usage. Usage will depend on the actual needs of the NJPA Members

RFP 081411

and the value of the awarded contract.

1.27 Estimated Contract Volume: Estimated quantities and sales volume are based on potential usage by NJPA and NJPA Members.

1.28 Largest Possible Solution: If applicable, Contracts will be awarded to Proposer(s) able to deliver a proposal meeting the entire needs of NJPA and its Members within the scope of this RFP. NJPA prefers Proposers submit their complete product line of products and services described in the scope of this RFP. NJPA reserves the right to reject individual, or groupings of specific products/services proposals as a part of the award.

1.29 Contract Availability: This Contract must be available to all current and potential NJPA Members who choose to utilize this NJPA Contract to include all governmental agencies, public and private primary and secondary education agencies, and all non-profit organizations nationally.

1.30 Proposer's Commitment Period: In order to allow NJPA the opportunity to evaluate each proposal thoroughly, NJPA requires any response to this solicitation be valid and irrevocable for ninety (90) days after the date proposals were opened regarding this RFP.

F. EXPECTATIONS FOR PRODUCTS/SERVICES BEING PROPOSED

1.31 Industry Standards: Except as contained herein, the specifications or solutions for this RFP shall be those accepted guidelines set forth by the **PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES** industry, as they are generally understood and accepted within that industry across the nation. Submitted products/services, related services, and their warranties and assurances are required to meet and/or exceed all current, traditional and anticipated needs and requirements of NJPA and its Members.

1.31.1 Deviations from industry standards must be identified by the Proposer and explained how, in their opinion, the products/services they propose will render equivalent functionality, coverage, performance, and/or service. Failure to detail all such deviations may comprise sufficient grounds for rejection of the entire proposal.

1.31.2 Technical Descriptions/Specifications. Bidder's must supply **sufficient** information to:

- Demonstrate the Bidder's knowledge of industry standards, and
- identify the products and services being bid, and
- differentiate those products and services from others.

Excessive technical descriptions and specifications which, in the opinion of NJPA, unduly enlarges the bid response may reduce evaluation points awarded on Form G.

1.32 Important note: NJPA does not typically offer specific product and service specifications; rather NJPA is requesting an industry standard or accepted specification for the requested products and services. Where specific line items are specified, those line items should be considered the minimum which can be expanded by the Proposer to deliver the Proposer's "Solution" to NJPA and NJPA Member's needs.

1.33 Commonly used Goods and Services: It is important that the products/services submitted are the products/services commonly used by public sector entities.

1.34 New Current Model Goods: Proposals submitted shall be for new, current model products and services with the exception of certain close-out products allowed to be offered on the Proposer's "Hot List" described herein.

RFP 081411

1.35 Compliance with laws and standards: All items supplied on this Contract shall comply with any current applicable safety or regulatory standards or codes.

1.36 Delivered and operational; Products offered herein are to be proposed based upon being delivered and operational at the NJPA Member's site. Exceptions to "delivered and operational" must be explicitly disclosed in the "Total Cost of Acquisition" section of your proposal response.

1.37 Warranty: The Proposer/Vendor warrants that all products, equipment, supplies, and services delivered under this Contract shall be covered by the industry standard or better warranty. All products and equipment should carry a minimum industry standard manufacturer's warranty that includes materials and labor. The Proposer has the primary responsibility to submit, as a part of Tab 7, product specific warranty as required and accepted by industry standards. Dealer/Distributors agree to assist the purchaser in reaching a solution in a dispute over warranty's terms with the manufacturer. Any manufacturer's warranty which is effective past the expiration of the warranty will be passed on to the NJPA member. Failure to submit a minimum warranty may result in the non-award.

1.38 Proposer's Warrants: The Proposer warrants all goods and services furnished hereunder will be free from liens and encumbrances; and defects in design, materials, and workmanship; and will conform in all respects to the terms of this RFP including any specifications or standards. In addition, Proposer/Vendor warrants the goods and services are suitable for and will perform in accordance with the purposes for which they were intended.

3.16 If the answer to a question is deemed by NJPA to have a material impact on other potential proposers or the RFP itself, the answer to the question will become an addendum to this RFP.

3.17 If the answer to a question is deemed by NJPA to be a clarification of existing terms and conditions and does not have a material impact on other potential proposers or the RFP itself, no further documentation of that question is required.

3.18 As used in this solicitation, clarification means communication with a Potential Proposer for the sole purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the RFP.

Withdrawn proposals may be resubmitted up to the time designated for the receipt of the proposals if they are then fully in conformance with the Instructions to Proposer.

H. VALUE ADDED ATTRIBUTES, PRODUCTS/SERVICES

3.22 Examples of Value Added Attributes: Value-Added attributes, products and services are items offered in addition to the products and services being proposed which adds value to those items being proposed. The availability of a contract for maintenance or service after the initial sale, installation, and set-up may, for instance, be “Value Added Services” for products where a typical buyer may not have the ability to perform these functions.

3.23 Where to document Value Added Attributes: The opportunity to indicate value added dimensions and such advancements will be available in the Proposer’s Questionnaire and Proposer’s product and service submittal and must be tabbed under Tab 5.

3.24 Value added products/services and expanded services, as they relate to this RFP, will be given positive consideration in the award selection. Consideration will be given to an expanded selection of PASSENGER CARS, LIGHT DUTY, MEDIUM DUTY, AND HEAVY DUTY TRUCKS WITH RELATED ACCESSORIES, and advances to provide products/services, supplies meeting and/or exceeding today’s industry standards and expectations. A value add would include a program or service that further serves the members needs above and possibly beyond standard expectation and complements the products/services and training. Value added could include areas of product and service, sales, ordering, delivery, performance, maintenance, technology, and service that furthers the functionality and effectiveness of the procurement process while remaining within the scope of this RFP.

3.25 Minority, Small Business, and Women Business Enterprise (WMBE) participation: It is the policy of some NJPA Members to involve Minority, Small Business, and WMBE contractors in the purchase of goods and services. Vendors should document WMBE status for their organization AND any such status of their affiliates (i.e. Supplier networks) involved in carrying out the activities invited. The ability of a Proposer to provide “Credits” to NJPA and NJPA Members in these subject areas, either individually or through related entities involved in the transaction, will be evaluated positively by NJPA. NJPA is committed to facilitating the realization of such “Credits” through certain structuring techniques for transactions resulting from this RFP.

3.26 Environmentally Preferred Purchasing Opportunities: There is a growing trend among NJPA Members to consider the environmental impact of the products/services they purchase. Please identify any “Green” characteristics of the goods and services in your proposal and identify the sanctioning body determining that characteristic. Where appropriate, please indicate which products have been certified as “green” and by which certifying agency.

3.27 On-Line Requisitioning systems: When applicable, on-line requisitioning systems will be viewed as a value-added characteristic. Proposer shall include documentation about user interfaces that make on-line ordering easy for NJPA Members as well as the ability to punch-out from mainstream eProcurement or Enterprise Resource Planning (ERP) systems that NJPA Members may currently utilize.

3.28 Financing: The ability of the Proposer to provide financing options for the products and services being proposed will be viewed as a Value Added Attribute.

I. CERTIFICATE OF INSURANCE

3.29 Proposer shall procure and maintain insurance which shall protect the Proposer and NJPA (as an additional insured) from any claims for bodily injury, property damage, or personal injury covered by the indemnification obligations set forth herein. The Proposer shall procure and maintain the insurance

RFP 081411

policies described below at the Proposer's own expense and shall furnish to NJPA an insurance certificate listing the NJPA as certificate holder and as an additional insured. The insurance certificate must document that the Commercial General Liability insurance coverage purchased by the Proposer includes contractual liability coverage applicable to this Contract. In addition, the insurance certificate must provide the following information: the name and address of the insured; name, address, telephone number and signature of the authorized agent; name of the insurance company (authorized to operate in all fifty United States); a description of coverage in detailed standard terminology (including policy period, policy number, limits of liability, exclusions and endorsements); and an acknowledgment of notice of cancellation to the NJPA.

3.30 Proposer is required to maintain the following insurance coverage's during the term of the NJPA Contract:

(1) Workers Compensation Insurance (Occurrence) with the following minimum coverage's: Bodily injury by accident--per employee \$100,000; Bodily injury by disease--per employee \$100,000; Policy limits \$500,000. In addition, Proposer shall require all subcontractors occupying the premises or performing work under the contract to obtain an insurance certificate showing proof of Workers Compensation Coverage with the following minimum coverage's: Bodily injury by accident--per employee \$100,000; Bodily injury by disease--per employee \$100,000; Policy limits \$500,000.

(2) Commercial General Liability Policy per occurrence \$1,000,000.

(3) Business Auto Policy to include but not be limited to liability coverage on any owned, non-owned and hired vehicle used by Proposer or Proposer's personnel in the performance of this Contract. The Business Automobile Policy shall have a per occurrence limit of \$1,000,000.

3.31 The foregoing policies shall contain a provision that coverage afforded under the policies will not be canceled, or not renewed or allowed to lapse for any reason until at least thirty (30) days prior written notice has been given to NJPA. Certificates of Insurance showing such coverage to be in force shall be filed with NJPA prior to commencement of any work under the contract. The foregoing policies shall be obtained from insurance companies licensed to do business nationally and shall be with companies acceptable to NJPA, which must have a minimum AM Best rating of A-. All such coverage shall remain in full force and effect during the term and any renewal or extension thereof.

3.32 Within ten (10) days of contract award, the Proposer must provide NJPA with two (2) Certificates of Insurance. Certificates must reference NJPA RFP 102811 by number.

J. ORDER PROCESS AND/OR FUNDS FLOW

3.33 Please propose an order process and funds flow in Tab 6 for your proposal. Please choose from one of the following:

3.33.1 B-TO-G: The Business-to-Government order process and/or funds flow model involves NJPA Members issuing Purchase Orders directly to a Vendor and pursuant to a Contract resulting from this RFP.

3.33.3 Other: Please fully identify.

K. ADMINISTRATIVE FEES

3.34 Proposer agrees to authorize and/or allow for an administrative fee payable to NJPA by an Awarded Vendor in exchange for its facilitation and marketing of a Contract resulting from this RFP to current and potential NJPA Members. This Administration Fee shall be:

3.34.1 Calculated as a percentage of the dollar volume of all products/services provided to and purchased by NJPA Members or calculated as reasonable and acceptable method applicable to the contracted transaction, and

3.34.2 Included in, and not added to, the pricing included in Proposer's Response to this RFP, and

RFP 081411

3.34.3 Set based on the anticipated costs of NJPA's involvement in facilitating the establishment, Vendor training, and the order/product/funds flow of the Contract resulting from this RFP.

3.34.3.1 Typical administrative fees for a B-TO-G order process and funds flow is 2.0%.

3.35 The opportunity to propose these factors and an appropriate administrative fee is available in the Proposer's Questionnaire, and submitted in Tab 9 of your response.

4. PRICING STRATEGIES

4.1 NJPA requests Potential Proposers respond to this RFP only if they are able to offer a wide array of products/services and at prices lower and better value than what they would ordinarily offer to single government agency, larger school district, or regional cooperative.

4.2 RFP is an "Indefinite Quantity Product/Service Price Request" with potential national sales distribution and service. Proposers are agreeing to fulfill Contract obligations regarding each product/service to which you provide a description and a price. If Proposer's solution requires additional supporting documentation, describe where it can be found in your submission. If Proposer offers the solution in an alternative fashion, describe your solution to be easily understood. All pricing must be tabbed and organized under Tab 9, and copied on a CD along with other requested information as a part of a Proposer's Response.

4.3 Regardless of the payment method selected by NJPA or NJPA Member, a total cost associated with any purchase option of the products/services and being supplied must always be disclosed at the time of purchase.

4.4 Primary Pricing/Secondary Pricing Strategies- All Proposers will be required to submit "Primary Pricing" in the form of either "Line-Item Pricing," or "~~Percentage Discount from Catalog Pricing,~~" or a combination of these pricing strategies. Proposers are also encouraged to offer OPTIONAL pricing strategies including "Hot List," "Sourced Goods," and "Volume Discounts," as well as financing options such as leasing.

4.5 Government Price Assistance- It is understood that a component of the pricing to be offered to this solicitation is "Government Price Assistance" from the respective OEM manufacturers. Prices quoted on vehicles including "Government Price Assistance" are available only to NJPA Members qualifying for "Government Pricing Assistance".

4.5.1 For NJPA Members not qualifying for "Governmental Price Assistance" (Non-Profits for example) all other manufacturer rebates applicable at the time of delivery.

A. LINE-ITEM PRICING

4.6 Line-Item pricing- A pricing format where specific individual products and/or services are offered at specific individual Contract prices. Products and/or services are individually priced and described by characteristics such as manufacture name, stock or part number, size, or functionality. This method of pricing offers the least amount of confusion as products and prices are individually identified, however Proposers with a large number of products to propose may find this method cumbersome. In these situations, a ~~percentage discount~~ from catalog or category pricing model may make more sense.

4.7 Format: Line Item vehicle pricing for this RFP must be submitted using attached "Price Form P1". The intent here is to describe and price a "Base" vehicle in each of eight classes AND also offer, on an ala carte basis, options (both Manufacturer Options and Dealer Options) to customize each vehicle offered.

4.8 All Line-Item Pricing items must be numbered, organized, sectioned, including SKU's (when applicable) and easily understood by the Proposal Review Committee and members.

RFP 081411

4.9 Line-Item Pricing items are to be submitted in an Excel spreadsheet format provided and are to include all appropriate identification information necessary to discern the line item from other line items in each Proposer's proposal.

4.10 The purpose for the excel spreadsheet format for Line-Item Pricing is to be able to use the "Find" function to quickly find any particular item of interest. For that reason, Proposers are responsible for providing the appropriate product and service identification information along with the pricing information which is typically found on an invoice or price quote for such products and services.

4.11 All products and services typically appearing on an invoice or price quote must be individually priced and identified on the line-item price sheet, including any and all ancillary costs.

4.12 Proposers are asked to provide both a "List" price as well as a "Proposed Contract Price" in their pricing matrix. "List" price will be the standard "quantity of one" price currently available to government and educational customers excluding cooperative and volume discounts

B. MASS PRODUCED PRODUCTION VEHICLES

4.13 Original Equipment from the Manufacturer (OEM) mass production vehicles will be priced using the pricing sheets attached as "Attachment P" and executed according to the instructions contained on the first tab of that attachment.

C. ALL OTHER VEHICLES AND ACCESSORIES.

4.14 Please use the general descriptions for "Line Item Pricing". A format is not specified for these items beyond those provided in "Line Item Pricing". Please use a format which fully identifies and prices the goods and services being offered.

D. TAX AND OTHER CREDITS.

4.15 Tax and other credits accruing to the vehicle being purchased which are not applicable to an NJPA Member will accrue to the benefit of the Awarded Contractor.

E. HOT LIST PRICING

4.16 Where applicable, NJPA also invites the Vendor, at their option, to offer a specific selection of products/services, defined as a Hot List Pricing, at greater discounts than those listed in the standard Contract pricing. All product/service pricing, including the Hot List Pricing, must be submitted in hard copy as well as electronically provided in Excel format. Hot List pricing must be submitted in a Line-Item format. Providing a "Hot List" of products/services is optional. Products/services may be added or removed from the "Hot List" at any time provided that current "Hot List" prices are provided to NJPA at all times.

4.17 Hot List pricing when applicable may also be used to discount and liquidate close-out and discontinued products/services as long as those close-out and discontinued items are clearly labeled as such. Current ordering process and administrative fees apply. This option must be published and made available to all NJPA Members.

4.18 Hot List Pricing is allowed to change at the discretion of the Vendor within the definition of Hot List Pricing. The Vendor is responsible to maintain current Hot List product/service descriptions and Pricing with NJPA.

RFP 081411

E. CEILING PRICE

4.19 Proposal pricing is to be established as a ceiling price. At no time may the proposed products/services be offered pursuant to this Contract at prices above this ceiling price without approval by NJPA. Prices may be reduced to allow for volume considerations and to meet the specific and unique needs of an NJPA Member.

4.20 Allowable specific needs may include certain purchase volume considerations or the creation of custom programs based on the individual needs of NJPA Members.

F. VOLUME PRICE DISCOUNTS

4.21 Proposers are free to offer volume discounts from the quantity-of-one pricing documented in a Contract resulting from this RFP. Volume considerations shall be determined between the Vendor and individual NJPA Members on a case-by-case basis.

4.22 Nothing in this Contract establishes a favored member relationship between the NJPA or any NJPA Member and the Vendor. The Vendor will, upon request by NJPA Member, extend this same reduced price offered or delivered to another NJPA Member provided the same or similar volume commitment, specific needs, terms, and conditions, a similar time frame, seasonal considerations and provided the same manufacturer support is available to the Vendor.

4.23 All price adjustments are to be offered equally to all NJPA Members exhibiting the same or substantially similar characteristics such as purchase volume commitments, and timing including the availability of special pricing from the Vendor's suppliers.

G. SOURCED GOODS

4.24 NJPA and NJPA Members may, from time to time, request goods and/or products/services within the scope of this RFP which are not included in an awarded Vendor's line-item product /service listing or "list or catalog" known as Sourced Goods.

4.25 An awarded Vendor resulting from this RFP may "Source" these products/services for NJPA or NJPA Member to the extent they:

4.25.1 Include in their bid response a cost-plus-percentage-of-cost pricing factor for such Sourced goods and services, and

4.25.2 Provide as many quotes for the Member's "Total Cost of Acquisition" for the goods and services to be sourced as may reasonably be required by NJPA Member.

4.25.3 Provide "Sourced Goods" only to the extent that they are incidental to the total transaction being contemplated.

H. COST PLUS A PERCENTAGE OF COST

4.26 Except as provided in "Sourced Goods" above, cost plus a percentage of cost as a primary pricing mechanism is not desirable.

I. TOTAL COST OF ACQUISITION

4.27 The Total Cost of Acquisition for the products/services being proposed, including those payable by NJPA Members to either the Proposer or a third party, shall be disclosed in the Proposer's Response including but not limited to:

- The capitalized cost of the listed products/services being proposed,
- The cost of accessories, alterations, and customizations typically incurred in the acquisition of the

- products/services being proposed.
- The cost of delivery, setup and installation (where applicable) of the products/services and any accessories being proposed.
- Other costs, where applicable, typically associated with the purchase, delivery, set-up, and installation of the products/services being proposed and making it operational at the purchaser's site.

4.28 The Total Cost of Acquisition is to be stated "As Proposed." As an example, a materials only proposal, or portions of proposals, must include the total cost of acquisition for those materials delivered. In contrast, the Total Cost of Acquisition for a turn-key proposal must include the total costs to be incurred in the process of delivering that combination of products/services.

J. REQUESTING PRODUCT AND SERVICE ADDITIONS/DELETIONS

4.29 Requests for product, service, and price additions, deletions, or changes must be made in written form and shall be subject to approval by NJPA.

4.30 New products/services may be added to a Contract resulting from this RFP at any time during that Contract to the extent those products/services are within the scope of this RFP. Those requests are subject to review and approval of NJPA. Allowable new products/services generally include new updated models of products/services and or enhanced services previously offered which could reflect new technology and improved functionality.

4.31 Proposers representing multiple manufacturers, or carrying multiple related product lines may also request the addition of new manufacturers or product lines to their Contract to the extent they remain within the scope of this RFP.

4.32 NJPA's due diligence in analyzing any request for change is to determine if approval of the request is 1) within the scope of the original RFP, and 2) in the "Best Interests of NJPA and NJPA Members." We are looking for consistent pricing and delivery mechanisms and an understanding of what value the proposal brings to NJPA and NJPA Members.

4.33 Documenting the "Best Interests of NJPA and NJPA Members" when out-dated equipment is being deleted is fairly straight forward since the product is no longer available and not relevant to the procurement Contract.

4.34 Requests must be in the form of 1) a cover letter to NJPA a) asking to add the product line, b) making a general statement identifying how the products to be added are within the scope of the original RFP, and c) making a general statement identifying that, if appropriate, the pricing is consistent with the existing Contract pricing and 2) the detail as to what is being added at what price will then be an attachment to that cover letter.

4.35 NJPA's intent here is to encourage Proposers to provide and document NJPA's due diligence in a clear and concise one page format on which we can stamp and sign our acknowledgment and acceptance. This information must ultimately come from Proposers, and NJPA is requiring it in this format.

K. REQUESTING PRICING CHANGES

4.36 Price Decreases: Requests for standard Contract price decrease adjustments (~~percentage discount increases~~) are encouraged and will be allowed at any time based on market place efficiencies, market place competitiveness, improved technologies and/or improved methods of delivery or if Vendor engages in innovative procurement practices such as strategic sourcing, aggregate and volume purchasing. NJPA expects Vendors to propose their very best prices and anticipates price reductions due to the advancement of technologies and market place efficiencies. Documenting the "Best Interests of NJPA and NJPA Members" is pretty easy when we are documenting price reductions.

4.37 Price increases: Requests for standard contract price increases (or the inclusion of new generation products/services/services at higher prices) can be made at any time. These requests will again be evaluated by NJPA based on the best interests of NJPA and NJPA Members. As an example, typically acceptable requests for price increases for existing products/services may cite increases to the Vendor of input costs such as petroleum or other applicable commodities. Typically acceptable requests for price increases for new products/services enhance or improve on the current solutions currently offered as well as cite increases in utility of the new compared to the old. Vendors are requested to reasonably document the claims cited in their requests. Your written request for a price increase, therefore, is an exercise in describing what you need, and a justification for why you need it in sufficient detail for NJPA to deem such change to be in the best interests of our self and our Members.

4.37 Price Change Request Format: An awarded Proposer will use the format of a cover letter requesting price increases in general terms (a 5% increase in product line X) and stating their justification for that price increase (due to the recent increase in petroleum costs) by product category. Specific details for the requested price change must be attached to the request letter identifying product/services where appropriate, both current and proposed pricing. Attachments such as letters from suppliers announcing price increases are appropriate for documenting your requests here.

L. PRICE AND PRODUCT CHANGES FORMAT

4.39 NJPA’s due diligence regarding product and price change requests is to consider the reasonableness of the request and document consideration on behalf of our members. We would appreciate it if you would send the following documentation to request a pricing change:

4.39.1 A cover letter:

- a. Please address the following subjects in your cover letter:
 - i. What product/service prices are changing?
 - ii. How much are the prices changing?
 - iii. Why are the prices changing?
 - iv. Any additions or deletions from the previous product list and the reason for the changes.
- b. The specifics of the product/services and price changes will be listed in the excel spreadsheets indentified below. Please take a more general “Disclosure” approach to identifying changes in the cover letter.
 - i. If appropriate, **for example**, state, “All paper products/services increased 5 % in price due to transportation costs.”
 - ii. If appropriate, for instance, state, “The 6400 series floor polisher added to the product list is the new model replacing the 5400 series. The 6400’s 3% price increase reflects the rate of inflation over the past year. 5. MARKETING PLAN

5.1 Internal Marketing Plan: An award of Contract resulting from this RFP is an opportunity for the awarded contractor to pursue commerce with, and deliver value to NJPA and NJPA Members nationwide. An award of Contract is not an opportunity to see how much business NJPA can drive to an awarded Vendor's door. Your internal marketing plan should serve to:

5.1.1 Identify the appropriate levels of sales management whom will need to understand the value of, and the internal procedures necessary to deliver this Contract opportunity to NJPA and NJPA Members through your sales force.

5.1.2 Identify, in general, your national foot print and dedicated feet-on-the-street sales force that will be carrying this Contract message and opportunity in the field to NJPA Members. Outline the sale force in terms of numbers and geographic distribution.

5.1.2.1 Identify whether your sales force are employees or independent contractors.

5.1.3 Identify your plan for delivering training to these individuals.

5.1.3.1 Will you have your sales force gathered at national or regional events in the near future? Does your sales force have the ability to participate in webinar or webcast events?

5.1.3.2 NJPA is prepared to provide our personnel in your location for sales training and/or on a webinar or webcast where sufficient efficiencies can be shown in reaching the appropriate groups within your employee base, and sufficient numbers of personnel trained.

5.1.4 Identify your personnel involved in training.

5.1.4.1 NJPA can provide personnel to deliver training regarding the Contract itself, the authority of NJPA to offer the Contract vehicle to its Members, the value the Contract vehicle delivers to NJPA and NJPA Members, the scope of NJPA Membership, and the authority of NJPA Members to utilize our procurement contracts.

5.1.4.2 Your personnel will be needed to provide training regarding employee compensation and internal procedures when delivering the Contract opportunity, and how this Contract purchasing opportunity relates with other such opportunities available.

5.2 Success in marketing is dependent upon 1) the delivery of value as defined in section 1.4, 2) the delivery of knowledge of the program and its proper use and utility, and 3) the delivery of opportunity and reward which creates a personal commitment to the program. NJPA desires a marketing plan that:

5.2.1 identifies the value delivered in a competitively proposed national cooperative procurement contract by relieving both the NJPA Member and the Vendor/Vendor's sales staff of the responsibility for bringing and answering many similar and individual RFP's; and

5.2.2 identifies the appropriate Vendor personnel from both management and sales staff's who will be trained on the use and utility of such a contract and a general schedule of when and how those individuals will be trained; and

5.2.3 identifies in general how the reward system for the marketing, delivery, and service chain of

the Vendor will be affected by the implementation of the proposed Contract and how that will be proposed to those individuals in terms of the value created for them and their departments in 5.1.1 above.

5.3 External Marketing Plan: NJPA is seeking the ability to serve all our current and potential members nationwide. The Proposer must demonstrate the ability to both market and service their products/services/services nationwide. Please demonstrate your sales and service force contains sufficient people in sufficient proximities, to receive the knowledge, opportunity, and reward in order to make a personal commitment to serving NJPA and NJPA Members nationwide.

5.4 The Proposer must exhibit the willingness and ability to develop marketing materials and participate in marketing venues such as:

5.4.1 Printed Marketing Materials. Proposer will initially produce and thereafter maintain full color print advertisements in camera ready electronic format including company logos, identifying the Vendor, the Vendor's general utility for NJPA and NJPA Members, and contact information to be used by NJPA and NJPA Members in a full page, half page, and quarter page formats. These advertisements will be used in the NJPA Catalog and publications.

5.4.2 Press releases and advertisements. Proposer will identify a marketing plan identifying their anticipated press releases, contract announcements, advertisements in industry periodicals, or other direct or indirect marketing activities.

5.4.3 Proposer's Website. Proposer will identify how an Awarded Contract will be displayed on the Proposer's website. An on-line shopping experience for NJPA and NJPA Members is desired when applicable and will be viewed as a value-added attribute to a Proposer's Response.

5.4.4 Trade Shows. Proposer will outline their proposed involvement in the promotion of a Contract resulting from this RFP through trade shows. Vendors are encouraged to identify trade-show, and other appropriate venues, for the promotion of any such Contract. Vendors are strongly encouraged to participate in cooperation with NJPA at the following NJPA embraced trade shows:

NAEP	National Association of Education Procurement
I-ASBO	International Association of School Business Officials
NIGP	National Institute of Government Purchasing

5.5 Proposer must also work in cooperation with NJPA to develop a marketing strategy and provide avenues to equally market and drive sales through the Contract and program to all NJPA Members nationally. Awarded Vendor agrees to actively market in cooperation with NJPA all available products/services to current and potential NJPA Members. NJPA reserves the right to deem a proposer non-responsive or to waive an award based on an unacceptable marketing plan.

5.6 As a part of this response, submit a complete Marketing Plan on how you would help NJPA rollout this program to current and potential NJPA Members. NJPA requires the Vendor actively promote the Contract in cooperation with the NJPA. Vendors are advised to consider marketing efforts in the areas of 1) Website Link from Vendors website to NJPA's website, 2) Attendance and participation with a display booth at national trade shows as agreed upon/required by NJPA, and 3) Sales team and sales training programs involving both Vendor sales management and NJPA staff. NJPA requires awarded Vendors to offer the NJPA Contract opportunity to all current and qualified NJPA Members.

5.7 Facilitating NJPA Membership: Proposer should express their commitment to determine the membership status of their customers whom are eligible for NJPA Membership, AND their commitment

RFP 081411

to establishing that membership.

5.7.1 Membership information: Proposer should further express their commitment to capturing sufficient member information as is deemed necessary by NJPA to appropriately facilitate membership and certain marketing activities as agreed to by NJPA and an Awarded contractor.

QUESTION:

I will address the current situation for Government agency Members in the State of Washington alone, just to give you an idea of the complexity.

- Sales tax must be paid by (even State) Government agencies. In the case where the selling dealer is located in the state, the sales tax charged is applicable to that which is charged at the location of the selling dealer.
- Sales taxes vary by county (and, in some cases, by city...so it's actually by Zip Code!), and if the selling dealer is located outside the state, then the Member must pay the sales tax that is applicable at their site.
 - In the case of vehicles that are purchased but as yet not complete vehicles (such as, cab/chassis that must have a service body installed), the sales tax must include the completed vehicle. If a Member chooses to purchase the chassis from me, and have someone else complete the truck, sales tax cannot be determined/collected until the unit is complete.
 - In addition, the licensing cannot be completed until the completed unit is weighed, and a weight slip is included in the licensing app.
 - The only way a dealer might be able to take on these responsibilities would be to:
 - Add a fee to consider the cost of flooring these vehicles through this extra time the vehicle is "on their inventory books."
 - Add an additional fee for a business, such as RoadReady (www.roadreadyregs.com) to take care of all the complexities of this task, ensuring the dealer has not erred in the process of serving the Members. The cost of a service such as this is \$105/vehicle, and we will have to consider this cost in the rendering of our bid.
- Licensing is typically carried out by the Member for their vehicles.

I would hazard a guess that every state has different sales tax and licensing policies...although Washington is decidedly complex.

I would suggest to you that the Members would be best served to take the responsibility for taking care of the sales tax (where due), and the licensing as well. The alternative is for the supplier to require that the Member indicate the sales tax

that will be due to their purchase, as well as the cost of licensing, with the understanding that if the actual cost incurred has a variance, they will be charged (or reimbursed) for any difference.

ANSWER:

You can make your proposal any way you want it to be, however you need to disclose your exceptions to the "total cost of acquisition" costs which are not included in your proposed pricing. Sales tax and licensing are to be included in the total cost of acquisition.

Prior to working for NJPA I worked in banking. In our bank was a leasing department where we leased equipment in the underground directional boring industry nationwide. To accomplish this we purchased software which ensured our compliance with state and local sales taxes and helped us file sales tax returns in every state in the nation. My point is that there are solutions out there for this problem. If you want to play on a national scale, this may be something you want to look into investing in.

With regard to the titling issues, a motor vehicle, designed for use on a roadway, which cannot be legally operated on a roadway because it is not legally titled, is less valuable to NJPA Members than one that can. Our Members have not likely needed to be licensing experts in the past and do not likely desire to become an expert to utilize your contract. Therefore a proposal including titling will likely be superior to a proposal excluding titling from the Proposer's responsibilities.

AFFIRMATION REGARDING CONSTRUCTION RELATED GOODS AND SERVICES

A contract awarded under this Proposal Invitation covers only the specific goods and services awarded by the BuyBoard. As explained in the BuyBoard Construction Related Goods and Services Advisory for Texas Members ("Advisory"), **Texas law prohibits the procurement of architecture or engineering services through a purchasing cooperative. This BuyBoard contract does not include such services. Architecture or engineering services must be procured by a Cooperative member separately, in accordance with the Professional Services Procurement Act (Chapter 2254 of the Texas Government Code) and other applicable law and local policy.**

The Advisory, attached to this Form F, provides an overview of certain legal requirements that are potentially relevant to a Cooperative member's procurement of construction or construction-related goods and services, including those for projects that may involve or require architecture, engineering or independent testing services.

By signature below, the undersigned affirms that Proposer has read and understands the Advisory attached to this Form F and is authorized by Proposer to make this affirmation. If Proposer sells construction-related goods or services to a Cooperative member under a BuyBoard contract awarded under this Proposal Invitation, Proposer will comply with the Advisory and applicable legal requirements, and will make a good faith effort to make its Cooperative clients or potential clients aware of such requirements.
