Description/Analysis

Issue Detail: The Crocker Art Museum's Chief Curator, Executive Director, Collection and Acquisitions Committee, and the Crocker Art Museum Co-Trustees propose deaccessioning the 139 works of art listed in Exhibit A.

Policy Considerations: The action recommended here is consistent with the Crocker Art Museum's Collections Management Policy which was approved by City Council on October 8, 2013.

Each artwork from the attached list should be deaccessioned because it meets one or more of the following criteria set forth in the Collections Management Policy (see section 11):

- a. The item is inconsistent with the mission of the Museum or is unrelated to the collecting areas;
- b. The item lacks historical, art historical, and/or artistic merit;
- c. It has been established that the item is inauthentic or has failed to retain its identity;
- d. The item is redundant;
- e. The Museum lacks the ability or resources to properly care for, conserve, store and/or exhibit the item;
- f. The Museum is repatriating the item or returning the item to its rightful owner(s);
- g. The Museum is returning the item to the donor, or the donor's heirs or assigns, to fulfill donor restrictions related to the item that the Museum can no longer satisfy;
- h. The item presents a hazard to people or other collection items; or
- i. The item has been lost or stolen and has not been recovered after three consecutive inventories.

Economic Impacts: None.

Environmental Considerations: None.

California Environmental Quality Act (CEQA): Under the CEQA guidelines, continuing administrative activities do not constitute a project and are therefore exempt from review.

Sustainability: Not applicable.

Commission/Committee Action: The Collections and Acquisitions Committee passed motions on November 15, 2012, and September 26, 2014, authorizing the deaccession of artworks on the attached list. Subsequently, the Co-Trustees of the Crocker Art Museum passed motions authorizing the deaccession of artworks on the attached list on June 26, 2014, and on October 23, 2014.

Rationale for Recommendation: The Crocker Art Museum is deaccessioning 139 works. The Museum has more than 16,000 objects in the collection. Deaccessioning is a process that the Crocker conducts every few years or as needed.

Financial Considerations: All proceeds from the sale of works of art are deposited into a restricted account of the Crocker Art Museum Association, to be used solely for the purchase of art and are not deposited with the city, consistent with section 11 of the Crocker Collections Management Policy.

Local Business Enterprise (LBE): Not applicable.
