Description/Analysis

Issue: The City-County Office of Metropolitan Water Planning (CCOMWP) has partnered with the U.S. Bureau of Reclamation (USBOR), U.S. Fish and Wildlife (USFWS), California Department of Fish and Game, and Sacramento County Regional Parks on the Lower American River Salmonid Spawning Gravel Augmentation Project (G14140100) (Project) since 2006. The purpose of the Project is to increase the availability of spawning gravel and rearing habitat for fall-run Chinook salmon and steelhead trout in the lower American River. This report recommends approval of an agreement for design, implementation, and post project assessment necessary to perform the Project.

Policy Considerations: This Project will aid fish habitat restoration efforts for the lower American River, consistent with goals of the Water Forum Agreement. Pursuant to the Interagency Agreement that created the CCOMWP, the City's procedures are followed for all CCOMWP contracting activities.

Economic Impacts: None.

Environmental Considerations:

California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA): The Project is subject to review pursuant to both CEQA and NEPA. USBOR is responsible for NEPA review. USBOR prepared a Finding of No Significant Impact (FONSI) for the Project. The NEPA review process does not require action by the City.

The Project is exempt from CEQA review pursuant to CEQA Guidelines Section 15333, Small Restoration Projects. The project does not exceed five acres in size, will be undertaken for the purpose of restoring habitat for fish, would have no significant impact on endangered, rare or threatened species or their habitat, and would not otherwise result in any significant effects on the environment.

Sustainability Considerations: Implementation of the Project is consistent with the City's Sustainability Master Plan:

Sustainability Goal No. 7 - Parks, Open Space, and Habitat Conservation are promoted by the second co-equal objective of the Water Forum Agreement "To preserve the fishery, wildlife, recreational, and aesthetic values of the lower American River."

Commission/Committee Action: None.

Rationale for Recommendation: The Lower American River Gravel Monitoring Project management team, which includes USBOR, has asked cbec inc., eco-engineering to continue providing its services through June 30, 2016, to perform technical work for an amount not-to-exceed \$126,000. This work was first requested by USBOR in FY2008/09, and has been performed by cbec in each year since that time. cbec inc., eco-engineering possesses an exceptional knowledge of the subject and has compiled extensive data regarding this Project that would be extremely difficult, if not impossible, to find in another firm. For these reasons, the CCOMWP Executive Director has approved the

recommendation to contract with cbec on a sole source basis in accordance with the City's Administrative Policy No. 4102. Approval of this contract with cbec inc., eco-engineering will provide studies to support USBOR in their efforts to monitor the effectiveness of the Lower American River Habitat Enhancement Program and will support adaptive management of the system. Staff biologists with USBOR and the USFWS, another partner, worked with cbec inc., eco-engineering staff to achieve the most cost-effective scope and budget for the contract based on their funding priorities

Financial Considerations: This Project has no impact on the City's General Fund. On May 13, 2014, the Sacramento City Council authorized the execution of Agreement C2014-0914, a cooperative funding agreement, with USBOR for \$4,554,580 for the Project. There are sufficient Habitat Management Element funds (Fund 7104) in G14140100 to cover the \$126,000 maximum for the contract with cbec inc., eco-engineering.

Background

The USBOR operates facilities that regulate flows in the lower American River, which contains populations of anadromous Chinook salmon and threatened steelhead trout. Flow regulation and stream channel manipulations have modified anadromous salmonid habitat in the American River. Specifically, gravel is regularly lost from spawning sites on the river because of the construction and operation of Central Valley Project dams, bank protection projects, and other actions that reduce the availability of spawning gravel and rearing habitat in the American River downstream of Nimbus Dam.

In 2006 USBOR approached the City-County Office of Metropolitan Water Planning CCOMWP, on behalf of the Sacramento Region Water Forum, to assist USBOR and other project partners in carrying out the Project. Assistance from the CCOMWP includes project planning, permitting, inter-agency coordination, and contracting. Pursuant to the Interagency Agreement that created the CCOMWP, the City's procedures are followed for all CCOMWP contracting activities.

This Project is consistent with the goals of the Fisheries and Instream Habitat Plan, which is incorporated into the River Corridor Management Plan (RCMP). The RCMP is a coordinated approach to management of the lower American River that was developed and endorsed by 38 organizations and local governments in 2002, including the City of Sacramento.

The RCMP serves as the implementation vehicle for the Habitat Management Element (HME) of the Water Forum Agreement, of which the City of Sacramento is a signatory. The HME implements one of the Agreement's co-equal objectives, which is to preserve the fishery, wildlife, recreational, and aesthetic values of the lower American River.

Date:	August 7, 2015
To:	Lilly Allen, Water Forum
From:	Chris Hammersmark and Ben Taber, cbec
Proposal:	15-63 - LAR Gravel Augmentation Project 2015/16
Subject:	Scope of Work and Budget Estimate

Introduction

The Water Forum (WF) has requested cbec to assist with technical services related to the design, implementation and post-project assessment of the 2015-2016 Sacramento Bar Project of Lower American River Salmonid Gravel Augmentation and Side Channel Habitat Establishment Program. As has occurred in past years, partial funding for the initial design of this project has been provided by the previous year's design contract. To provide funding for the next project (after Sacramento Bar), Tasks 9-11 have been included to allow for the initial design phases of the next project. In addition to services related to the Sacramento Bar Project, Julie Zimmerman of USFWS has requested that cbec perform additional GIS analyses to inform the continued development of the Structured Decision Making (SDM) Model for the LAR. The following sections provide additional details on the tasks included in this scope of work.

Task 1 - Project Management, Coordination and Meetings

cbec's project manager, Chris Hammersmark, will be responsible for day to day coordination with the stakeholders and will directly coordinate with John Hannon, project manager for the USBR, Julie Zimmerman project manager for USFWS, and Lilly Allen, project manager for the Water Forum. This task will also include up to 5 meetings with project stakeholders to perform site reconnaissance, discuss potential design alternatives, as well as review modeling of alternatives and proposed project designs. In addition, budget has been provided for general project management activities (e.g., setting up the contract, preparing invoices, etc.).

Task 2 - Design Development and Modeling

cbec will utilize the hydraulic model developed under the previous year's design contract to simulate and iteratively refine the proposed design concept. We have allowed for up to 20 iterations of the design surface for the complete project. Modeling will consist of hydraulic, habitat suitability and potential sediment mobility at a range of flow conditions (e.g., 500-5,000 cfs). The design surface will be refined as necessary to optimize spawning habitat in the main channel and rearing habitat in the side channel.

Deliverable: cbec will provide USBR with final hydraulic model files and results digitally via ftp or CD.

Task 3 - Design Drawings

cbec will produce construction ready design drawings and basic specifications for the proposed alternative. It is our understanding that the drawing set does not need to be bid-ready, and will likely consist of a cover sheet, an existing conditions sheet(s), a grading sheet(s), a fill map sheet(s), and a detailed cross sections and profiles sheet(s), similar to the plan sets that have been provided in past years. We will initially produce a 95% complete plan set for review by project stakeholders, which we will deliver to the USBR electronically, in pdf format. Based on one (1) set of collated comments provided to cbec by the USBR, we will produce a 100% complete plan set for construction. We will deliver the final plan set to the USBR electronically, in AutoCAD Civil 3D 2011 format as well as in pdf format. cbec will also produce three (3) hard copies of the final plan set.

Deliverable: cbec will provide USBR with the final plan set digitally via ftp or CD. In addition, USBR, USFWS and the Water Forum will receive hard copies of the final plan set.

Task 4 - Basis of Design Report

cbec will prepare a brief Basis of Design (BOD) report detailing the various technical aspects of the design. The report will include information regarding data sources, model development, assumptions, and model results.

Deliverable: cbec will provide the BOD report to the USBR, USFWS and the Water Forum electronically in pdf format.

Task 5 - Construction Observation

In previous years we have undertaken site visits to provide consultation of various design elements which are typically fitted in the field. We have budgeted for 5, 6 hour (inclusive of travel to the site) visits for this task.

Task 6 - Construction Related Surveying

One of cbec's design engineers will visit the site in advance of construction to provide construction line staking for four (4) alignments. Two (2) alignments will be staked out for the main channel (one on each side of the gravel placement area) and two alignments will be staked out for the primary and secondary side channels. Stakes will also be set in areas crucial to the design such as grade breaks, large changes in planform geometry, and grading extents. We have budgeted 24 hours for one staff member to complete this task including equipment mobilization/demobilization, travel, and field survey.

During construction, one of cbec's design engineers will periodically be onsite to work with construction personnel in order to confirm grading operations are proceeding according to plans and staking in real time. We will also help with interpretations in the plans as well as provide sediment volume estimates during the sorting process. We have budgeted an additional 40 hours for this activity including equipment mobilization/demobilization, travel, and resetting stakes if needed.

To guide day to day material placement, and refine the final surface upon the completion of the in channel work, one of cbec's design engineers will conduct a topographic survey at two (2) times during the construction. Following the survey, the data will be post-processed and used to develop an updated cut/fill plan to guide future material placement. We have budgeted for two (2) surveys, allocating 13 hours for each survey including equipment mobilization/demobilization, travel, field surveying, post processing and drawing preparation. We have assumed that all areas where the cut/fill map will be updated are accessible by foot, and will not require a boat to obtain the survey data, and therefore have not budgeted for this type of equipment for this task.

Deliverables:

- 1) Four (4) construction alignments staked on site.
- 2) Two (2) digital files and hard copies of survey data, and revised cut/fill drawings in AutoCAD Civil 3D 2011 format.

Task 7 - As-Built Survey and Surface Preparation

Once the project has been constructed, cbec staff will conduct an as-built survey of the disturbed areas, including the gravel placement in the main channel, and the material excavation and on the river right floodplain. This will require foot based (RTK) and boat based surveying (RTK and echosounder). We have budgeted for two, 16 hour field days for a crew of two, and 16 hours of data post-processing and surface/drawing preparation.

Deliverables: Digital file of as-built survey and resulting surface provided to the USBR, USFWS, and Water Forum in AutoCAD Civil 3D 2011 format.

Task 8 - Post-Project Assessment (optional)

cbec will perform a post-project assessment (PPA) of the project. The PPA will include: 1) a comparison of the design and as-built surfaces, 2) simulation of the as-built hydraulic conditions and resulting habitat suitability, 3) collection of depths and velocities occurring at one flow rate within the design range, 4) comparison of observed depths and velocities to those simulated by the model, and 5) comparison of redd locations to predicted spawning habitat suitability. The PPA will also identify any observations regarding the design and construction process which could be improved, yielding and improved result in future projects.

Deliverable: Post-Project Assessment Report provided to the USBR, USFWS, and Water Forum electronically in pdf format.

Task 9 - Topographic Data Collection for the Next Project

cbec will collect and review existing topographic data for the next project area, which has not yet been determined. We have assumed we can use the 2006 ACOE bathymetry and 2008 DWR topography data as a base map for the project area and then augment as necessary. To augment and confirm these existing data we have budgeted for one day of boat based surveying using RTK GPS survey equipment. Depending on the size and complexity of the site selected. This task may require more budget than is currently allocated. Using all data sources (as appropriate) we will build a high resolution

topographic/bathymetric surface for the project area to be used in the hydraulic modeling effort, as well as to provide an accurate foundation for estimates of cut and fill volumes for the gravel placement and side channel enhancement area.

Task 10 - Hydrologic Data Collection for the Next Project

cbec will collect a variety of hydrologic data in order to: 1) support the development of the downstream boundary condition(s) for the hydraulic model; and 2) assess water surface elevation changes which may have occurred at previous project sites that still contain instrumentation. cbec will deploy and maintain, four (4) submerged pressure transducers (a.k.a., leveloggers) and one (1) non-submerged pressure transducer (a.k.a., barologger, used to provide barometric compensation for the submerged pressure transducers) at the various sites. All pressure transducer units were purchased previously by the USBR for use with the gravel project. cbec will be responsible for programming, deployment, monitoring and post-project removal of these instruments. In addition to continuous WSE monitoring at the four (4) levelogger locations, cbec will survey WSE data at various locations in the modeling domain at two (2) different discharge levels. Budget has been included for post-processing and analysis of the pressure transducer and WSE survey data.

Task 11 - Hydraulic Model Development for the Next Project

cbec will develop a 2D hydraulic model using the SRH2D modeling platform developed by the USBR, for a sufficient domain to design and simulate the proposed project. The model mesh will utilize the existing condition topographic/bathymetric surface developed in Task 9, WSE data collected in Task 10 for downstream boundary conditions, and flow rates from the USGS maintained flow gage located upstream at Fair Oaks (#11446500) for upstream boundary conditions. In addition, WSE data collected within the model domain will be used to calibrate the roughness parameters of the model, and then to validate the calibrated roughness values by simulating a different discharge and comparing it to an independent set of observed WSE data.

Task 12 - GIS Support for the Continued Development of the SDM Model for the LAR

cbec will utilize previously developed water depth rasters, and post process them to refine the estimate of the amount of rearing habitat available in each 1/4 mile segment of the LAR. Rasters have been developed previously for several flow rates, for the existing topographic conditions as well all of the potential gravel augmentation projects simulated (50+). Each of these rasters will be post-processed to trim their spatial extents down to two (2) different specified distance from wetted edge values (e.g., 1 and 2m). The results will be summarized in a spreadsheet and provided to USFWS digitally.

Deliverable: Result summary provided to USFWS electronically in MS Excel format.

EXHIBIT D

PROFESSIONAL SERVICES AGREEMENT FOR DESIGN PROFESSIONALS

GENERAL PROVISIONS

1. Independent Contractor.

- A. It is understood and agreed that CONTRACTOR (including CONTRACTOR's employees) is an independent contractor and that no relationship of employer-employee exists between the parties hereto for any purpose whatsoever. Neither CONTRACTOR nor CONTRACTOR's assigned personnel shall be entitled to any benefits payable to employees of CITY. CITY is not required to make any deductions or withholdings from the compensation payable to CONTRACTOR under the provisions of this Agreement, and CONTRACTOR shall be issued a Form 1099 for its services hereunder. As an independent contractor, CONTRACTOR hereby agrees to indemnify and hold CITY harmless from any and all claims that may be made against CITY based upon any contention by any of CONTRACTOR's employees or by any third party, including but not limited to any state or federal agency, that an employer-employee relationship or a substitute therefor exists for any purpose whatsoever by reason of this Agreement or by reason of the nature and/or performance of any Services under this Agreement. (As used in this Exhibit D, the term "Services" shall include both Services and Additional Services as such terms are defined elsewhere in this Agreement.)
- B. It is further understood and agreed by the parties hereto that CONTRACTOR, in the performance of its obligations hereunder, is subject to the control and direction of CITY as to the designation of tasks to be performed and the results to be accomplished under this Agreement, but not as to the means, methods, or sequence used by CONTRACTOR for accomplishing such results. To the extent that CONTRACTOR obtains permission to, and does, use CITY facilities, space, equipment or support services in the performance of this Agreement, this use shall be at the CONTRACTOR's sole discretion based on the CONTRACTOR's determination that such use will promote CONTRACTOR's efficiency and effectiveness. Except as may be specifically provided elsewhere in this Agreement, the CITY does not require that CONTRACTOR use CITY facilities, equipment or support services or work in CITY locations in the performance of this Agreement.
- C. If, in the performance of this Agreement, any third persons are employed by CONTRACTOR, such persons shall be entirely and exclusively under the direction, supervision, and control of CONTRACTOR. Except as may be specifically provided elsewhere in this Agreement, all terms of employment, including hours, wages, working conditions, discipline, hiring, and discharging, or any other terms of employment or requirements of law, shall be determined by CONTRACTOR. It is further understood and agreed that CONTRACTOR shall issue W-2 or 1099 Forms for income and employment tax purposes, for all of CONTRACTOR's assigned personnel and subcontractors.
- D. The provisions of this Section 1 shall survive any expiration or termination of this Agreement. Nothing in this Agreement shall be construed to create an exclusive relationship between CITY and CONTRACTOR. CONTRACTOR may represent, perform

services for, or be employed by such additional persons or companies as CONTRACTOR sees fit provided that CONTRACTOR does not violate the provisions of Section 5, below.

2. **Licenses; Permits, Etc.** CONTRACTOR represents and warrants that CONTRACTOR has all licenses, permits, City Business Operations Tax Certificate, qualifications, and approvals of whatsoever nature that are legally required for CONTRACTOR to practice its profession or provide any services under the Agreement. CONTRACTOR represents and warrants that CONTRACTOR shall, at its sole cost and expense, keep in effect or obtain at all times during the term of this Agreement any licenses, permits, and approvals that are legally required for CONTRACTOR to practice its profession or provide such Services. Without limiting the generality of the foregoing, if CONTRACTOR is an out-of-state corporation, CONTRACTOR warrants and represents that it possesses a valid certificate of qualification to transact business in the State of California issued by the California Secretary of State pursuant to Section 2105 of the California Corporations Code.
3. **Time.** CONTRACTOR shall devote such time and effort to the performance of Services pursuant to this Agreement as is necessary for the satisfactory and timely performance of CONTRACTOR's obligations under this Agreement. Neither party shall be considered in default of this Agreement, to the extent that party's performance is prevented or delayed by any cause, present or future, that is beyond the reasonable control of that party.
4. **CONTRACTOR Not Agent.** Except as CITY may specify in writing, CONTRACTOR and CONTRACTOR's personnel shall have no authority, express or implied, to act on behalf of CITY in any capacity whatsoever as an agent. CONTRACTOR and CONTRACTOR's personnel shall have no authority, express or implied, to bind CITY to any obligations whatsoever.
5. **Conflicts of Interest.** CONTRACTOR covenants that neither it, nor any officer or principal of its firm, has or shall acquire any interest, directly or indirectly, that would conflict in any manner with the interests of CITY or that would in any way hinder CONTRACTOR's performance of Services under this Agreement. CONTRACTOR further covenants that in the performance of this Agreement, no person having any such interest shall be employed by it as an officer, employee, agent or subcontractor, without the written consent of CITY. CONTRACTOR agrees to avoid conflicts of interest or the appearance of any conflicts of interest with the interests of CITY at all times during the performance of this Agreement. If CONTRACTOR is or employs a former officer or employee of the CITY, CONTRACTOR and any such employee(s) shall comply with the provisions of Sacramento City Code Section 2.16.090 pertaining to appearances before the City Council or any CITY department, board, commission or committee.
6. **Confidentiality of CITY Information.** During performance of this Agreement, CONTRACTOR may gain access to and use CITY information regarding inventions, machinery, products, prices, apparatus, costs, discounts, future plans, business affairs, governmental affairs, processes, trade secrets, technical matters, systems, facilities, customer lists, product design, copyright, data, and other vital information (hereafter collectively referred to as "City Information") that are valuable, special and unique assets of the CITY. CONTRACTOR agrees to protect all City Information and treat it as strictly confidential, and further agrees that CONTRACTOR shall not at any time, either directly or indirectly, divulge, disclose or communicate in any manner any City Information to any third party without the prior written consent of CITY. In addition, CONTRACTOR shall comply with all CITY policies governing the use of the CITY network and

technology systems, as set forth in applicable provisions of the City of Sacramento Administrative Policy Instructions # 30. A violation by CONTRACTOR of this Section 6 shall be a material violation of this Agreement and shall justify legal and/or equitable relief.

7. CONTRACTOR Information.

- A. CITY shall have full ownership and control, including ownership of any copyrights, of all information prepared, produced, or provided by CONTRACTOR pursuant to this Agreement. In this Agreement, the term "information" shall be construed to mean and include: any and all work product, submittals, reports, plans, specifications, and other deliverables consisting of documents, writings, handwritings, typewriting, printing, photostating, photographing, computer models, and any other computerized data and every other means of recording any form of information, communications, or representation, including letters, works, pictures, drawings, sounds, or symbols, or any combination thereof. CONTRACTOR shall not be responsible for any unauthorized modification or use of such information for other than its intended purpose by CITY.
- B. CONTRACTOR shall fully defend, indemnify and hold harmless CITY, its officers and employees, and each and every one of them, from and against any and all claims, actions, lawsuits or other proceedings alleging that all or any part of the information prepared, produced, or provided by CONTRACTOR pursuant to this Agreement infringes upon any third party's trademark, trade name, copyright, patent or other intellectual property rights. CITY shall make reasonable efforts to notify CONTRACTOR not later than ten (10) days after CITY is served with any such claim, action, lawsuit or other proceeding, provided that CITY's failure to provide such notice within such time period shall not relieve CONTRACTOR of its obligations hereunder, which shall survive any termination or expiration of this Agreement.
- C. All proprietary and other information received from CONTRACTOR by CITY, whether received in connection with CONTRACTOR's proposal to CITY or in connection with any Services performed by CONTRACTOR, will be disclosed upon receipt of a request for disclosure, pursuant to the California Public Records Act; provided, however, that, if any information is set apart and clearly marked "trade secret" when it is provided to CITY, CITY shall give notice to CONTRACTOR of any request for the disclosure of such information. The CONTRACTOR shall then have five (5) days from the date it receives such notice to enter into an agreement with the CITY, satisfactory to the City Attorney, providing for the defense of, and complete indemnification and reimbursement for all costs (including plaintiff's attorney fees) incurred by CITY in any legal action to compel the disclosure of such information under the California Public Records Act. The CONTRACTOR shall have sole responsibility for defense of the actual "trade secret" designation of such information.
- D. The parties understand and agree that any failure by CONTRACTOR to respond to the notice provided by CITY and/or to enter into an agreement with CITY, in accordance with the provisions of subsection C, above, shall constitute a complete waiver by CONTRACTOR of any rights regarding the information designated "trade secret" by CONTRACTOR, and such information shall be disclosed by CITY pursuant to applicable procedures required by the Public Records Act.

8. **Standard of Performance.** CONTRACTOR shall perform all Services required pursuant to this Agreement in the manner and according to the standards currently observed by a competent practitioner of CONTRACTOR's profession in California. All products of whatsoever nature that CONTRACTOR delivers to CITY pursuant to this Agreement shall be prepared in a professional manner and conform to the standards of quality normally observed by a person currently practicing in CONTRACTOR's profession, and shall be provided in accordance with any schedule of performance specified in Exhibit A. CONTRACTOR shall assign only competent personnel to perform Services pursuant to this Agreement. CONTRACTOR shall notify CITY in writing of any changes in CONTRACTOR's staff assigned to perform the Services required under this Agreement, prior to any such performance. In the event that CITY, at any time during the term of this Agreement, desires the removal of any person assigned by CONTRACTOR to perform Services pursuant to this Agreement, because CITY, in its sole discretion, determines that such person is not performing in accordance with the standards required herein, CONTRACTOR shall remove such person immediately upon receiving notice from CITY of the desire of CITY for the removal of such person.

9. **Term; Suspension; Termination.**

- A. This Agreement shall become effective on the date that it is approved by both parties, set forth on the first page of the Agreement, and shall continue in effect until both parties have fully performed their respective obligations under this Agreement, unless sooner terminated as provided herein.
- B. CITY shall have the right at any time to temporarily suspend CONTRACTOR's performance hereunder, in whole or in part, by giving a written notice of suspension to CONTRACTOR. If CITY gives such notice of suspension, CONTRACTOR shall immediately suspend its activities under this Agreement, as specified in such notice.
- C. CITY shall have the right to terminate this Agreement at any time by giving a written notice of termination to CONTRACTOR. If CITY gives such notice of termination, CONTRACTOR shall immediately cease rendering Services pursuant to this Agreement. If CITY terminates this Agreement:
 - (1) CONTRACTOR shall, not later than five days after such notice of termination, deliver to CITY copies of all information prepared pursuant to this Agreement.
 - (2) CITY shall pay CONTRACTOR the reasonable value of Services rendered by CONTRACTOR prior to termination; provided, however, CITY shall not in any manner be liable for lost profits that might have been made by CONTRACTOR had the Agreement not been terminated or had CONTRACTOR completed the Services required by this Agreement. In this regard, CONTRACTOR shall furnish to CITY such financial information as in the judgment of the CITY is necessary for CITY to determine the reasonable value of the Services rendered by CONTRACTOR. The foregoing is cumulative and does not affect any right or remedy that CITY may have in law or equity.

10. Indemnity.

- A. Indemnity: CONTRACTOR shall defend, hold harmless and indemnify CITY, its officers and employees, and each and every one of them, from and against any and all claims, actions, damages, costs, liabilities, demands, losses, judgments, penalties and expenses of every type and description, including, but not limited to, any fees and/or costs reasonably incurred by CITY's staff attorneys or outside attorneys and any fees and expenses incurred in enforcing this provision (hereafter collectively referred to as "Claims"), including but not limited to Claims arising from personal injury or death, damage to personal, real, or intellectual property, or the environment, contractual or other economic damages, or regulatory penalties, that arise out of, pertain to, or relate to any negligent act or omission, recklessness, or willful misconduct of CONTRACTOR, its sub-consultants, subcontractors, or agents, and their respective officers and employees, in connection with performance of or failure to perform this Agreement, whether or not such Claims are litigated, settled, or reduced to judgment; provided that the foregoing indemnity does not apply to liability for damages for death or bodily injury to persons, injury to property, or other loss, damage, or expense to the extent arising from (i) the sole negligence or willful misconduct of, or defects in design furnished by, CITY, its agents, servants, or independent contractors who are directly responsible to CITY, or (ii) the active negligence of CITY.
- B. Insurance Policies; Intellectual Property Claims: The existence or acceptance by CITY of any of the insurance policies or coverages described in this Agreement shall not affect or limit any of CITY's rights under this Section 10, nor shall the limits of such insurance limit the liability of CONTRACTOR hereunder. This Section 10 shall not apply to any intellectual property claims, actions, lawsuits, or other proceedings subject to the provisions of Section 7.B., above. The provisions of this Section 10 shall survive any expiration or termination of this Agreement.

11. Insurance Requirements. During the entire term of this Agreement, CONTRACTOR shall maintain the insurance coverage described in this Section 11.

Full compensation for all premiums that CONTRACTOR is required to pay for the insurance coverage described herein shall be included in the compensation specified for the Services provided by CONTRACTOR under this Agreement. No additional compensation will be provided for CONTRACTOR's insurance premiums. Any available insurance proceeds in excess of the specified minimum limits and coverages shall be available to the CITY.

 - (2) Cancellation, termination, or suspension of the Agreement, in whole or in part.
- F. Incorporation of Provisions: CONTRACTOR shall include the provisions of subsections A through E, above, in every subcontract, including procurement of materials and leases of equipment, unless exempted by the Regulations, or by any order or instructions issued pursuant thereto. CONTRACTOR shall take such action with respect to any subcontract or procurement as the CITY may direct as a means of enforcing such provisions including sanctions for noncompliance; provided, however, that in the event CONTRACTOR becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, CONTRACTOR may request CITY to enter such litigation to protect the interests of CITY.

13. Entire Agreement. This document, including all Exhibits, contains the entire agreement between the parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Agreement. No alteration to the terms of this Agreement shall be valid unless approved in writing by CONTRACTOR, and by CITY, in accordance with applicable provisions of the Sacramento City Code.

14. Severability. If any portion of this Agreement or the application thereof to any person or circumstance shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby and shall be enforced to the greatest extent permitted by law.

15. Waiver. Neither CITY acceptance of, or payment for, any Service or Additional Service performed by CONTRACTOR, nor any waiver by either party of any default, breach or condition precedent, shall be construed as a waiver of any provision of this Agreement, nor as a waiver of any other default, breach or condition precedent or any other right hereunder.

16. Enforcement of Agreement. This Agreement shall be governed, construed and enforced in accordance with the laws of the State of California. Venue of any litigation arising out of or connected with this Agreement shall lie exclusively in the state trial court or Federal District Court located in Sacramento County in the State of California, and the parties consent to

jurisdiction over their persons and over the subject matter of any such litigation in such courts, and consent to service of process issued by such courts.

17. **Assignment Prohibited.** The expertise and experience of CONTRACTOR are material considerations for this Agreement. CITY has a strong interest in the qualifications and capability of the persons and entities that will fulfill the obligations imposed on CONTRACTOR under this Agreement. In recognition of this interest, CONTRACTOR shall not assign any right or obligation pursuant to this Agreement without the written consent of the CITY. Any attempted or purported assignment without CITY's written consent shall be void and of no effect.
18. **Binding Effect.** This Agreement shall be binding on the heirs, executors, administrators, successors and assigns of the parties, subject to the provisions of Section 17, above.
19. **Use Tax Requirements.** During the performance of this Agreement, CONTRACTOR, for itself, its assignees and successors in interest, agrees as follows:
 - A. Use Tax Direct Payment Permit: For all leases and purchases of materials, equipment, supplies, or other tangible personal property used to perform the Agreement and shipped from outside California, the Contractor and any subcontractors leasing or purchasing such materials, equipment, supplies or other tangible personal property shall obtain a Use Tax Direct Payment Permit from the California State Board of Equalization ("SBE") in accordance with the applicable SBE criteria and requirements.
 - B. Sellers Permit: For any construction contract and any construction subcontract in the amount of \$5,000,000 or more, Contractor and the subcontractor(s) shall obtain sellers permits from the SBE and shall register the jobsite as the place of business for the purpose of allocating local sales and use tax to the City. Contractor and its subcontractors shall remit the self-accrued use tax to the SBE, and shall provide a copy of each remittance to the City.
 - C. The above provisions shall apply in all instances unless prohibited by the funding source for the Agreement.

EXHIBIT E

REQUIREMENTS OF THE NON-DISCRIMINATION IN EMPLOYEE BENEFITS CODE

INTRODUCTION

The Sacramento Non-Discrimination In Employee Benefits Code (the "Ordinance"), codified as Sacramento City Code Chapter 3.54, prohibits City contractors from discriminating in the provision of employee benefits between employees with spouses and employees with domestic partners, and between the spouses and domestic partners of employees.

APPLICATION

The provisions of the Ordinance apply to any contract or agreement (as defined below), between a Contractor and the City of Sacramento, in an amount exceeding \$100,000.00. The Ordinance applies to that portion of a contractor's operations that occur: (i) within the City of Sacramento; (ii) on real property outside the City of Sacramento if the property is owned by the City or if the City has a right to occupy the property; or (iii) at any location where a significant amount of work related to a City contract is being performed.

The Ordinance does not apply: to subcontractors or subcontracts of any Contractor or contractors; to transactions entered into pursuant to cooperative purchasing agreements approved by the Sacramento City Council; to legal contracts of other governmental jurisdictions or public agencies without separate competitive bidding by the City; where the requirements of the ordinance will violate or are inconsistent with the terms or conditions of a grant, subvention or agreement with a public agency or the instructions of an authorized representative of any such agency with respect to any such grant, subvention or agreement; to permits for excavation or street construction; or to agreements for the use of City right-of-way where a contracting utility has the power of eminent domain.

DEFINITIONS

As set forth in the Ordinance, the following definitions apply:

"Contract" means an agreement for public works or improvements to be performed, or for goods or services to be purchased or grants to be provided, at the expense of the City or to be paid out of moneys deposited in the treasury or out of the trust money under the control or collected by the City. "Contract" also means a written agreement for the exclusive use ("exclusive use" means the right to use or occupy real property to the exclusion of others, other than the right reserved by the fee owner) or occupancy of real property for a term exceeding 29 days in any calendar year, whether by singular or cumulative instrument, (i) for the operation or use by others of real property owned or controlled by the City for the operation of a business, social, or other establishment or organization, including leases, concessions, franchises and easements, or (ii) for the City's use or occupancy of real property owned by others, including leases, concessions, franchises and easements.

"Contract" shall not include: a revocable at-will use or encroachment permit for the use of or encroachment on City property regardless of the ultimate duration of such permit; excavation, street construction or street use permits; agreements for the use of City right-of-way where a contracting

utility has the power of eminent domain; or agreements governing the use of City property that constitute a public forum for activities that are primarily for the purpose of espousing or advocating causes or ideas and that are generally protected by the First Amendment to the United States Constitution or that are primarily recreational in nature.

“Contractor” means any person or persons, firm, partnership, corporation, company, or combination thereof, that enters into a Contract with the City. “Contractor” does not include a public entity.

“Domestic Partner” means any person who has a currently registered domestic partnership with a governmental entity pursuant to state or local law authorizing the registration.

“Employee Benefits” means bereavement leave; disability, life, and other types of insurance; family medical leave; health benefits; membership or membership discounts; moving expenses; pension and retirement benefits; vacation; travel benefits; and any other benefit given to employees. “Employee benefits” shall not include benefits to the extent that the application of the requirements of this chapter to such benefits may be preempted by federal or state.

CONTRACTOR’S OBLIGATION TO PROVIDE THE CITY WITH DOCUMENTATION AND INFORMATION

Contractor shall provide the City with documentation and information verifying its compliance with the requirements of the Ordinance within ten (10) days of receipt of a request from the City. Contractors shall keep accurate payroll records, showing, for each City Contract, the employee’s name, address, Social Security number, work classification, straight time pay rate, overtime pay rate, overtime hours worked, status and exemptions, and benefits for each day and pay period that the employee works on the City Contract. Each request for payroll records shall be accompanied by an affidavit to be completed and returned by the Contractor, as stated, attesting that the information contained in the payroll records is true and correct, and that the Contractor has complied with the requirements of the Ordinance. A violation of the Ordinance or noncompliance with the requirements of the Ordinance shall constitute a breach of contract.

EMPLOYER COMPLIANCE CERTIFICATE AND NOTICE REQUIREMENTS

(a) All contractors seeking a Contract subject to the Ordinance shall submit a completed Declaration of Compliance Form, signed by an authorized representative, with each proposal, bid or application. The Declaration of Compliance shall be made a part of the executed contract, and will be made available for public inspection and copying during regular business hours.

(b) The Contractor shall give each existing employee working directly on a City contract, and (at the time of hire), each new employee, a copy of the notification provided as Attachment “A.”

(c) Contractor shall post, in a place visible to all employees, a copy of the notice provided as Attachment “B.”

BLANKET ADDITIONAL INSURED (ARCHITECTS, ENGINEERS AND SURVEYORS)

This endorsement modifies insurance provided under the following:
COMMERCIAL GENERAL LIABILITY COVERAGE PART

A. The following is added to WHO IS AN INSURED (Section II):

Any person or organization that you agree in a "contract or agreement requiring insurance" to include as an additional insured on this Coverage Part, but only with respect to liability for "bodily injury", "property damage" or "personal injury" caused, in whole or in part, by your acts or omissions or the acts or omissions of those acting on your behalf:

- a. In the performance of your ongoing operations;
- b. In connection with premises owned by or rented to you; or
- c. In connection with "your work" and included within the "products-completed operations hazard".

Such person or organization does not qualify as an additional insured for "bodily injury", "property damage" or "personal injury" for which that person or organization has assumed liability in a contract or agreement.

The insurance provided to such additional insured is limited as follows:

- d. This insurance does not apply on any basis to any person or organization for which coverage as an additional insured specifically is added by another endorsement to this Coverage Part.
- e. This insurance does not apply to the rendering of or failure to render any "professional services".
- f. The limits of insurance afforded to the additional insured shall be the limits which you agreed in that "contract or agreement requiring insurance" to provide for that additional insured, or the limits shown in the Declarations for this Coverage Part, whichever are less. This endorsement does not increase the limits of insurance stated in the LIMITS OF

INSURANCE (Section III) for this Coverage Part.

B. The following is added to Paragraph a. of 4. Other Insurance in COMMERCIAL GENERAL LIABILITY CONDITIONS (Section IV):

However, if you specifically agree in a "contract or agreement requiring insurance" that the insurance provided to an additional insured under this Coverage Part must apply on a primary basis, or a primary and non-contributory basis, this insurance is primary to other insurance that is available to such additional insured which covers such additional insured as a named insured, and we will not share with the other insurance, provided that:

- (1) The "bodily injury" or "property damage" for which coverage is sought occurs; and
- (2) The "personal injury" for which coverage is sought arises out of an offense committed;

after you have entered into that "contract or agreement requiring insurance". But this insurance still is excess over valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the insured when the insured is an additional insured under any other insurance.

C. The following is added to Paragraph B. Transfer Of Rights Of Recovery Against Others To Us in COMMERCIAL GENERAL LIABILITY CONDITIONS (Section IV):

We waive any rights of recovery we may have against any person or organization because of payments we make for "bodily injury", "property damage" or "personal injury" arising out of "your work" performed by you, or on your behalf, under a "contract or agreement requiring insurance" with that person or organization. We waive these rights only where you have agreed to do so as part of the "contract or agreement requiring insurance" with such person or organization entered into by you before, and in effect when, the "bodily

COMMERICAL GENERAL LIABILITY

injury" or "property damage" occurs, or the "personal injury" offense is committed.

D. The following definition is added to DEFINITIONS (Section V):

"Contract or agreement requiring insurance" means that part of any contract or agreement under which you are required to include a person or organization as an additional insured on this Cov-

erage Part, provided that the "bodily injury" and "property damage" occurs, and the "personal injury" is caused by an offense committed:

- a. After you have entered into that contract or agreement;
- b. While that part of the contract or agreement is in effect; and
- c. Before the end of the policy period.
