Message	<p> I would like to see two things in the city charter change or added. 1. No placing green waste in city streets. Use green waste Cans. The only exception would be December and January when the leaves are more than what the cans can handle. 2. No leaf blowers be allowed within the city limits. I use a leaf rake and broom, they work just fine, NO NOISE or DUST ! There have been days when there were as many as five blowers running at once and I had to retreat to my house. The noise effected my ears. There have been days when the dust from the blowers is so thick I can't see the end of the block. This is a serious HEALTH problem. When the wind is blowing right, all the dust comes over into my yard. I feel this is a priority item because it is a health issue. Cordially, Earl Bettencourt </p>
