

REPORT TO LAW & LEGISLATION COMMITTEE City of Sacramento

3

915 I Street, Sacramento, CA 95814-2671

Consent
December 4, 2007

Honorable Members of the
Law and Legislation Committee

**Title: An Ordinance Amending Section 2.50.040 of the Sacramento City Code
Relating to the Electrical Code Advisory and Appeals Board (M07-081)**

Location/Council District: Citywide

Recommendation: Staff recommends the Committee recommend approval of the ordinance to amend the Sacramento City Code relating to the Electrical Code Advisory and Appeals Board and forward to City Council.

Contact: Chris Dougherty, Assistant Planner, (916) 808-5680; Sandra Yope, Senior Planner, (916) 808-7158

Presenters: None

Department: Development Services

Division: Building

Organization No: 4883

Description/Analysis

Issue: The City is mandated by the State of California to establish and maintain the Electrical Code Advisory and Appeals Board. Currently, the City requires the three person Advisory and Appeals Board to have one of the following professionals from the industry on the board; a registered electrical engineer, a licensed electrical contractor and an employee of an electrical testing laboratory.

The proposed amendment would remove the requirement to have an employee of an electrical testing laboratory and choose from either of the other categories. This will give the City the flexibility needed to fully staff the board as mandated by the State of California.

Policy Considerations: The adoption of the proposed ordinance would enable the City of Sacramento to maintain the appeals board as mandated by the State of California in Title 24 Part 3 of the California Building Code.

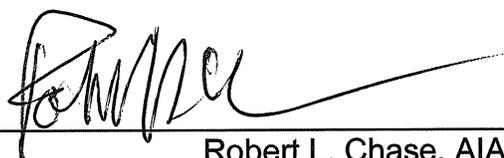

Committee/Commission Action: None

Environmental Considerations: The proposed ordinance is not considered a project, as it has no potential for a significant effect on the environment, and is therefore exempt under California Environmental Quality Act (CEQA) Guidelines section 15061(b)(3)).

Rationale for Recommendation: Recently, the member of the Board who was the employee of an electrical testing laboratory retired, leaving a vacancy on the board. The City cannot find a person with the needed qualification to fill this vacancy due to a lack of available professionals in this field. The proposed amendment would give the City the flexibility needed to fill a vacancy on the Electrical Code Advisory and Appeals Board.

Financial Considerations: None

Emerging Small Business Development (ESBD): No goods or services are being purchased under this report.

Respectfully Submitted by: 
Robert L. Chase, AIA
Chief Building Official

Approved by: 
William Thomas
Director of Development Services

Recommendation Approved:

Ray Kerridge
City Manager

Background

The Electrical Code Advisory & Appeals Board is a City advisory Board comprised of three building industry experts who specialize in the electrical field. The Board advises the Chief Building Official on policy issues as well as appeals of Building Code interpretations by the Chief Building Official. Should the Board concur with the Chief Building Official's initial interpretation, building permit applicants may request an appeal to City Council via call-up protocol.
