

REPORT TO LAW & LEGISLATION COMMITTEE City of Sacramento

915 I Street, Sacramento, CA 95814-2671

STAFF REPORT
October 6, 2009

Honorable Members of the
Law and Legislation Committee

Title: Rezoning for General Plan Consistency

Location/Council District: Citywide/All

Recommendation: Review an **Ordinance** rezoning various parcels to bring into consistency with the 2030 General Plan, and forward a recommendation of approval to Council.

Contact: Teresa Haenggi, Associate Planner, (916) 808-7554; Jim McDonald AICP, Senior Planner, (916) 808-5723.

Presenters: Not applicable

Department: Community Development

Division: Planning

Organization No. 21001222

Description/Analysis

Issue: Pursuant to the 2030 General Plan adopted by City Council in March 2009, staff is moving forward on the top priority implementation measure of rezoning property for consistency with the Land Use and Urban Form Diagram. The rezone will help promote development consistent with the 2030 General Plan and avoid conflicting layers of regulation. Long Range Planning staff previously presented the rezone strategy and community feedback to the Planning Commission on June 19 and December 18, 2008, and June 11, 2009.

On September 24, 2009, the Planning Commission will take action on the proposed rezone. Staff will go to the City Council for final approval of the rezone on October 27, 2009.

The 2030 General Plan regulates height, density, land use, and building intensity through land use organizing themes such as neighborhoods, centers, corridors and districts in the Land Use Diagram. Staff conducted an analysis of the Land Use Diagram in comparison to the existing Zoning Ordinance to identify properties that are inconsistent with the 2030 General Plan.

Deferred Rezones

The rezoning of several areas was deferred if one or more of the following factors applied:

- Specific Plan pending
- Development pending or expected
- Need for new zones to be created
- Lack of infrastructure to support development

Areas deferred include the River District, 65th Street/CSUS Technology Village, Arden Fair/Point West/Cal Expo, Florin Corridor, the Northeast Line (Globe, Arden Del Paso, Royal Oaks and Swantson), and Florin and Meadowview Stations. The rezoning of these areas will take place in conjunction with their respective planning efforts.

Additionally, publicly-owned parcels and unbuildable parcels were eliminated from the list. On September 24, the Planning Commission recommended removing various parcels from the proposed rezone list. The result is 1,666 parcels with an area of approximately 1,469 acres as the first round of rezones for 2030 General Plan consistency. This is a small fraction of the total of 145,379 parcels on 63,170 acres citywide. These rezones will bring parcels into a basic level of consistency to avoid conflicts with the 2030 General Plan Land Use Diagram. Maps of the proposed rezones are provided in Attachment 1.

Legal Nonconforming Uses

Under Chapter 17.88 of the Zoning Code, if a property has a legally established land use that is not allowed under the new zone, the use will be "grandfathered in" as a legal nonconforming use. In the case that a land use goes from "by right" to "special permit" due to the rezone, the use will be granted a "deemed special permit" and treated as if it had been granted a special permit at the time of development. However, land uses that are not legally established at the time of rezoning will not be granted legal nonconforming status or a deemed special permit. The determination of conformity (legal or otherwise) is determined by the Zoning Administrator on a case by case basis.

Public/Neighborhood Outreach and Comments

Initial Notice and Website. On April 30, 2008, staff mailed preliminary notices to the owners of property under consideration for rezone. At that time, staff posted a Rezone Website online at www.sacgp.org/rezones.html. The website included

fourteen maps showing the location, 2030 General Plan land uses, current and proposed zones for all proposed rezones.

Phone and Email Response of Initial Notice. Staff responded to approximately 60 phone calls and 15 email inquiries following the initial notice. The majority of inquiries were informational in nature. Others required additional research and site visits.

Public Workshops. Staff held three public workshops following the initial notice:

- South Public Workshop: May 13 at Evelyn Moore Community Center
- North Public Workshop: May 18 at Robertson Community Center
- Central Public Workshop: May 20 at Hart Senior Center

Land Use Changes

Research for the questions and comments generated from the property owners and public identified the need to change the General Plan's Land Use Diagram rather than rezone properties. Maps of the proposed land use changes are provided in Attachment 2.

Key Issues

Several key issues were identified during the public outreach process. These issues were addressed through proposed rezoning and/or changes in the land use.

- 1) Robla Area: Industrial to Residential.
- 2) Marconi Station: TOD/Industrial Balance.
- 3) Power Inn/Army Depot: Heavy Industrial to Light Industrial.
- 4) City College/Sutterville: Heavy Commercial to General Commercial.
- 5) Western Avenue: Industrial to Residential.
- 6) Rincon Towing: Heavy Commercial to Residential.
- 7) 14th Avenue: Industrial to Residential.
- 8) Nevada Cement Company: Industrial to General Commercial.
- 9) Highway 160: Industrial to Commercial.
- 10) C Street and Alhambra Blvd.: Residential to Residential Mixed Use.
- 11) Florin Corridor Area: Defer Rezoning until Florin Corridor Plan is Approved.
- 12) Sheldon Road and HWY 99: Rezone and Land Use Fixes.
- 13) 65th Street Expressway and Fruitridge Road: Residential to Commercial.
- 14) Bell Avenue and Marysville Blvd.: Industrial to Commercial and Residential.

A full description and maps of each issue and how they were addressed are included in the report as Attachment 3.

Policy Considerations: Rezoning for consistency with the Land Use Diagram is a Top Priority Implementation Program of the 2030 General Plan. The proposed rezones and changes to the land use diagram is the implementation action taken for this program and will assist in achieving the goals of promoting development consistent with the General Plan and avoid conflicting layers of regulation.

Environmental Considerations: This project would change the 2030 General Plan Land Use Diagram for identified parcels. These parcels were, for various reasons, assigned a general plan land use designation during the development of the Plan that is inappropriate. The proposed changes would assign a land use designation that better comports with the current and anticipated land use for the respective parcels. The rezoning included in the project would bring the zoning for parcels into consistency with the General Plan land use designations.

The number and size of parcels proposed for General Plan land use designations are relatively minor in relationship to the policy area as a whole. The changes would not result in major changes in the density or magnitude of development on the affected sites. The proposed rezones would ensure consistency with the General Plan land use designations, and taken as a whole would fall within the growth assumptions utilized in the Master EIR.

The changes, taken as a whole, would not affect the adequacy of Master EIR, including its analysis of cumulative impacts, growth inducing impacts and irreversible significant effects.

An Addendum has been prepared for the project. An Addendum is appropriate when changes are needed in an environmental document but the project (in this case the 2030 General Plan and growth assumptions) has not substantially changed, no substantial changes have occurred in the circumstances under which the project is undertaken, and there is no new information that would indicate the presence of new significant effects. See CEQA Guidelines Section 15162 and 15164. The Addendum, as identified in the findings for the project, relies on the analysis set forth in the Master EIR, and requires no new public review period.

Sustainability Considerations: The rezones implement the 2030 General Plan which incorporates goals and policies that promote sustainable practices such as preservation of existing neighborhoods, infill development, public transportation, and higher density.

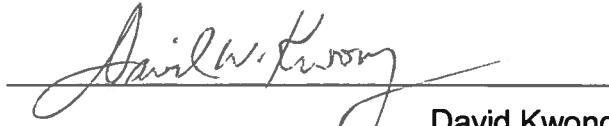

Committee/Commission Action: The Planning Commission reviewed and took action on the proposed rezones on September 24, 2009. The Commission recommended removal of various parcels from proposed rezone list as shown in Attachment 5.

Rationale for Recommendation: The proposed rezones are a priority implementation program in the 2030 General Plan, adopted by the City Council on March 3, 2009.

Financial Considerations: There are no financial considerations associated with this report.

Emerging Small Business Development (ESBD): There is no purchase of goods or services associated with this report.

Respectfully submitted by:

David Kwong
Planning Director

Approved by:

William Thomas
Director of Community Development

■ Proposed General Plan Amendment

Attachment 3**Key Issues**

The key issues raised during the initial public outreach process are summarized below. Maps are included following the text.

A) Robla Area: Industrial to Residential. Several property owners expressed opposition to the proposal to rezone part of the Robla Focused Opportunity Area from M-1 (Light Industrial) to R-1 (Single Family Residential). The intention of the 2030 General Plan in this area is to assign a "neighborhood" designation to the more residential areas, while keeping the more fully-developed areas as Employment Center Low Rise. Except for a few sites that have been recently constructed or entitled industrial, staff recommends proceeding with rezones as proposed. Staff is also proposing a land use designation change from Employment Center Low Rise to Suburban Neighborhood Low Density to better reflect the existing residential uses in that area. (See Map A)

B) Marconi Station: TOD/Industrial Balance. Some residents expressed the desire to see higher density Transit Oriented Development (TOD) near Marconi Station, while others did not want to see densities raised. Still others expressed the desire to retain M-2 (Heavy Industrial) in the area. Due to the diversity of the area, staff recommends proceeding with rezones as proposed. (See Map B)

C) Power Inn/Army Depot: M-2S to M-1S. Several property owners expressed opposition to the proposal to rezone property near Power Inn and Army Depot from M-2S to M-1S. Staff recommends removing some areas from the proposed rezones. Amendments to the Land Use Diagram may be considered. (See Map C)

D) City College/Suterville: C-4 to C-2. Property owners near Suterville Avenue expressed opposition to the proposed rezone from C-4 (Heavy Commercial) to C-2 (General Commercial). Staff is recommending rezoning these properties to C-4R to allow a better transition from current heavy commercial uses to general commercial uses. (See Map D)

E) Western Avenue: Industrial to Residential. Property owners of a small industrial area surrounded by residential on Western Avenue expressed opposition to the proposal to rezone to R-1. Staff recommends identifying the sites as existing nonconforming uses and proceeding with rezones as proposed. (See Map E)

F) Rincon Towing: Heavy Commercial to Residential. The owner of Rincon Towing near the intersections of Santa Ynez Avenue and 36h Street with R Street expressed opposition to the proposed rezone from C-4 to R-1. The owner sites the longevity of the Rincon Towing business and the fact that property upgrades were recently required by Code Enforcement. Staff's recommendation is to remove the area from the proposed rezones. (See Map F)

G) 14th Avenue: Industrial to Residential. A small area encompassing 7400 to 7500 14th Avenue was inappropriately labeled Traditional Neighborhood Low Density in the Land Use Diagram. This area is an extension of the Power Inn/Army Depot industrial area. Staff's recommendation is to remove the area from the proposed rezones. Staff is also recommending an amendment to the Land Use Diagram. (See Map G)

H) Nevada Cement Company: Industrial to General Commercial. A property at 8310 Jackson Road was proposed to rezone from M-2S to C-2. This property has an existing industrial business and lacks appropriate access for commercial development due to the heavy rail tracks. Staff's recommendation is to remove the area from the proposed rezones. An amendment to the Land Use Diagram may be considered. (See Map H)

I) Highway 160: Industrial to Commercial. Industrial property owners in this area expressed concern about existing non-conforming regulations applied to existing non-conforming regulations applied to existing businesses. Staff recommends removing the rezone proposal and revisiting zoning in future plan updates.

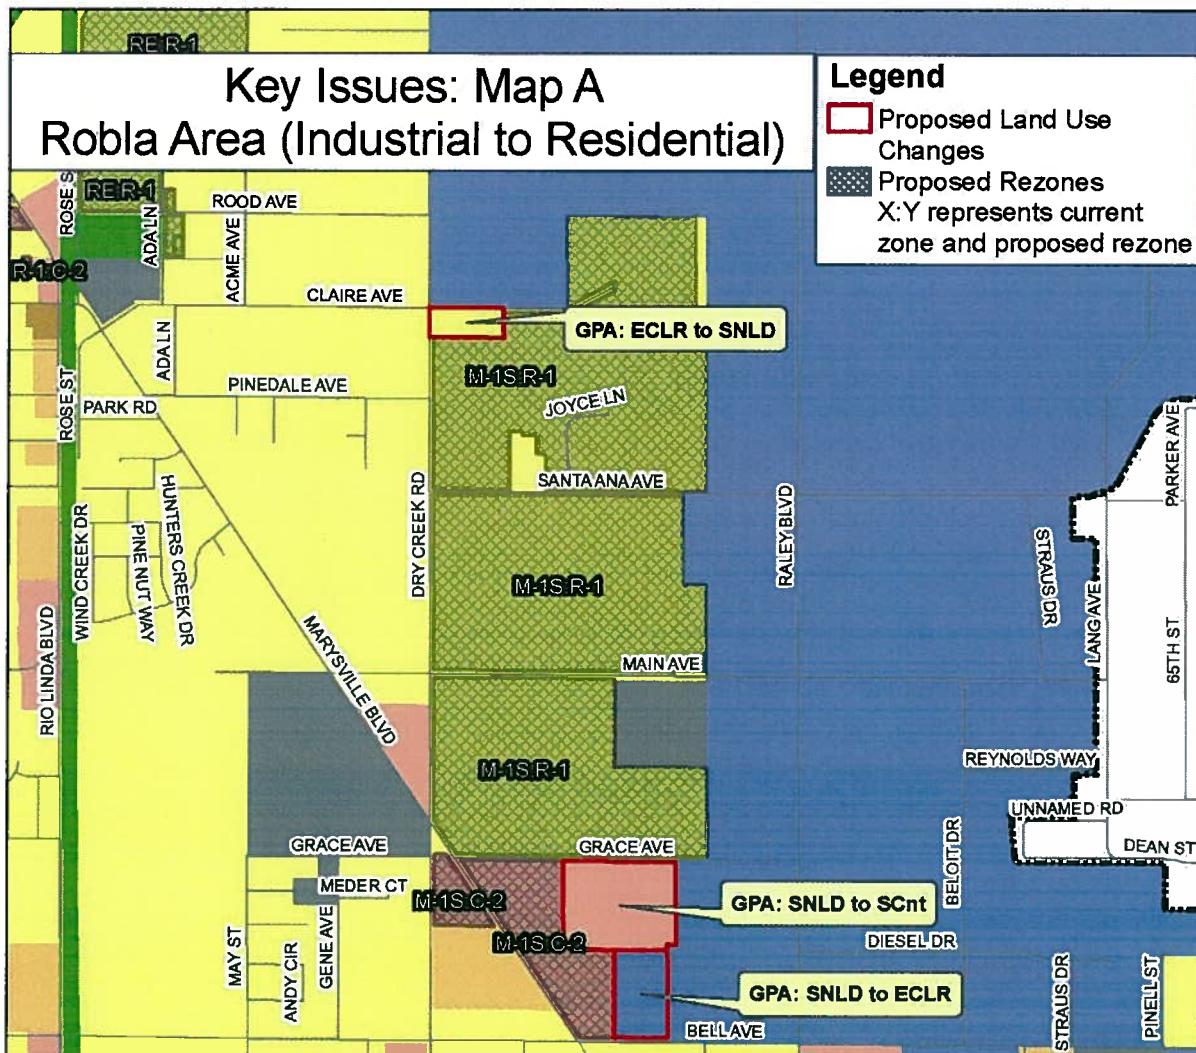

J) C Street and Alhambra Blvd.: Residential to Residential Mixed. Several properties in this area were inadvertently rezoned to residential mixed use (RMX). Staff withdraws this proposal.

K) Florin Corridor Area: Defer Rezoning until Specific Plan is Approved. A specific plan is in progress for Florin Road. Staff will withdraw its current proposal for rezoning this corridor and defer to the specific plan efforts.

L) Sheldon Road and HWY 99: Rezone and Land Use Fixes. Staff inadvertently identified this site as Suburban Medium Density Residential and initially recommended a rezone to R-2B. Based on the site's proximity to the freeway interchange and adjacent commercial development, staff is recommending the C-2R zoning.

M) 65th Street Expressway and Fruitridge Road: Residential to Commercial. Staff is recommending expanding the C-2 zone at this corner site to better accommodate future commercial uses to serve the immediate community, consistent with the Suburban Corridor land use designation.

N) Bell Avenue and Marysville Blvd.: Industrial to Commercial and Residential. Land use changes are being made here to acknowledge existing site constraints (wetlands) and existing entitlements for a small industrial park.

Attachment 4

ORDINANCE NO.

Adopted by the Sacramento City Council

AMENDING TITLE 17 OF THE SACRAMENTO CITY CODE (THE ZONING CODE) BY REZONING VARIOUS PARCELS OF REAL PROPERTY FOR CONSISTENCY WITH THE 2030 GENERAL PLAN

BE IT ENACTED BY THE COUNCIL OF THE CITY OF SACRAMENTO:

Section 1. Title 17 of the Sacramento City Code (the Zoning Code) is amended by rezoning the properties depicted in the attached Exhibit A and identified by APN and address in the attached Exhibit B, from the existing zone to the proposed zone as set forth in Exhibit B. The attached Exhibits A and B are incorporated herein by reference.

Section 2. Rezoning of the property shown in the attached Exhibit A, by the adoption of this Ordinance, will be considered to be in compliance with the requirements for the rezoning of property described in the Zoning Code, as amended, as those procedures have been affected by recent court decisions.

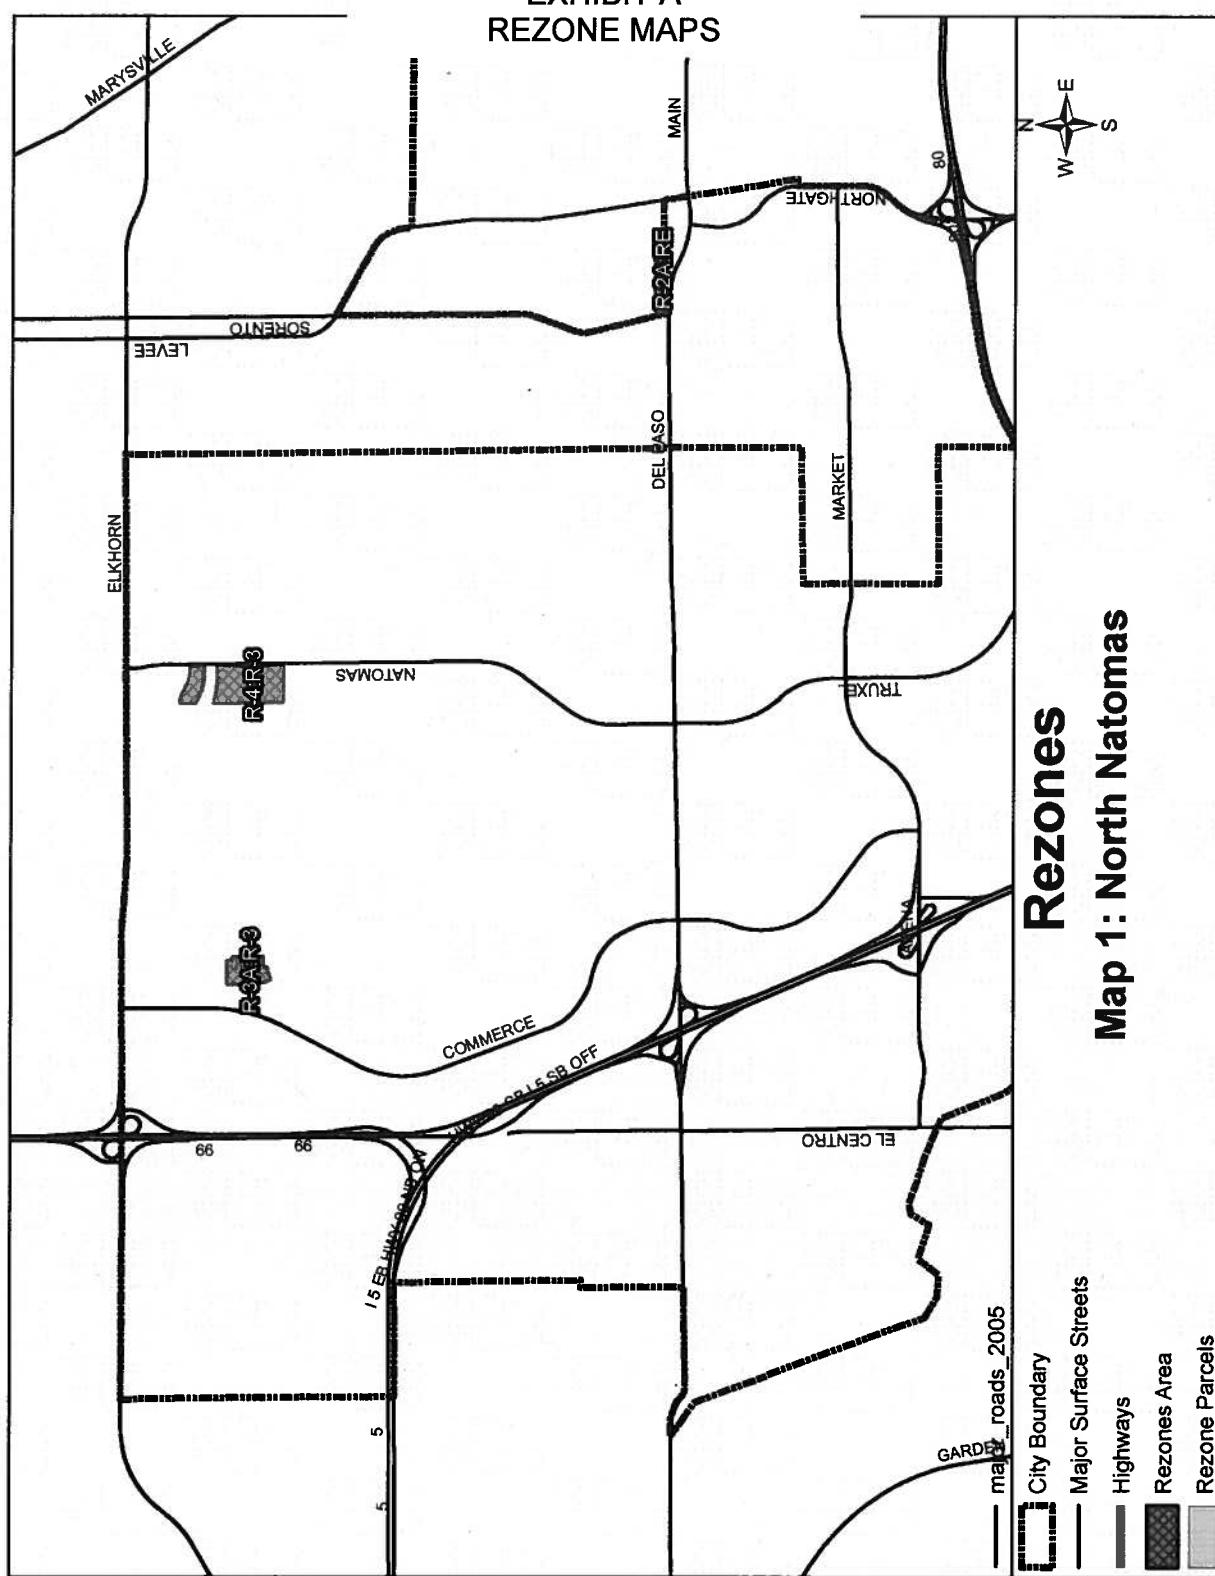

Section 3. The City Clerk of the City of Sacramento is directed to amend the official zoning maps, which are part of the Zoning Code, to conform to the provisions of this Ordinance.
