Description/Analysis

Issue: Authorize the issuance of approximately \$33.5 million in 2006 CIRBs Series C & D lease revenue bonds to finance the acquisition of 300 Richards Boulevard Building Acquisition Project, and authorize the issuance of approximately \$233.3 million in 2006 CIRBs Series E refunding of outstanding bonds to achieve a present value savings of not less than an aggregate of 4.5%.

Policy Considerations: The Richards Boulevard site is approximately 11.46 acres; 6.02 acres of which include the building and associated surface parking, and 5.44 acres that are undeveloped. The bonds associated with the 5.44 acres of undeveloped land are proposed to be structured as taxable. This taxable component, estimated at \$5.3 million, will provide the flexibility in the use of the vacant land and therefore, will not be hindered by the limitations associated with the use of tax-exempt proceeds. Approximately \$2.3 million of this amount will be from the transfer of funds from the Richards Boulevard Redevelopment Area, thus transferring the payment obligation from the Redevelopment Agency to the City. The acquisition of the Richards Boulevard site by the City will remove it from the property tax roll thereby reducing the tax increment funds available to service the obligation. Transfer of the repayment obligation will mitigate the impact of the loss of the tax increment, as well as provide for the reduction in the amount of bonds required to be issued by the City.

Current interest rates provide the opportunity to refinance outstanding bonds associated with the 2001, 2002, and 2003 Capital Improvement Revenue Bonds resulting in a savings to the City. While the actual savings will not be known until the bonds are actually priced, the City Treasurer will seek to achieve a present value savings of not less than an aggregate of 4.5%.

The associated agreements and documents are on file with the City Clerk's Office. While they have not been signed by the City Attorney's Office as "approved as to form," they have been reviewed by the City Attorney's Office, are in substantially final form, and will be executed after the bonds are priced and appropriate updates completed.

Environmental Considerations: The City Council's action in adopting the resolution is solely for the purpose of issuing bonds. Such action is not subject to the provisions of the California Environmental Quality Act (CEQA).

Rationale for Recommendation: Approval of the recommended actions authorizes the issuance of bonds to provide funds for the purpose of financing the 300 Richards Boulevard Building Acquisition Project for significant public benefits to the citizens of the City. Additionally, current interest rates provide for the opportunity to refinance certain outstanding bonds, which will result in a savings to the City. Combining the new money component of Richards Boulevard Acquisition Project with the proposed refinancing provides efficiencies in the financing expenses associated with the issuance of the bonds.

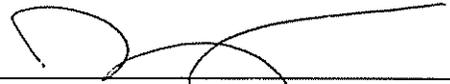

Financial Considerations: The annual debt service associated with the 2006 CIRBs, Series C & D lease revenue bonds (Richards Boulevard acquisition) is estimated at \$2.2 million, including the \$2.3 million associated with the assumption of the Richards Boulevard Redevelopment Project Area taxable bonds. The source of repayment of the

2006 CIRBs, Series C & D, will be the reallocation of funds originally budgeted for costs associated with jail booking fees, which as a result of the State's budget process are no longer needed, the reallocation of lease payments for space vacated when the building is occupied, and the reallocation of other service and supply savings. As a lease revenue bond, the debt service is subject to annual appropriation by the City Council.

Current projections associated with the 2006 CIRBs, Series E refunding component estimates a net present value savings of \$13.7 million over the life of the 30-year bonds, which equates to an estimated present value savings of 6.22%, based upon market rates as of November 14, 2006. Actual numbers will not be known until the bond pricing date, currently scheduled for November 29, 2006.

Emerging Small Business Development (ESBD): City Council adoption of the attached resolution is not affected by City policy related to the ESBD Program.

Attachment 1**Background:**

Staff is recommending that City Council authorize the sale of \$33.5 million to finance the acquisition of 300 Richards Boulevard Building Acquisition Project, as well as consider the refinancing of several series of outstanding bonds that would result in a savings to the City. Cost efficiencies are created by combining the Richards Boulevard Building Acquisition Project and the potential refinancing of outstanding bonds.

2006 CIRBs, Series C & D (Richards Boulevard Building Acquisition Project)

Staff is recommending City Council approve the actions necessary for the sale of lease revenue bonds to finance the acquisition of 300 Richards Boulevard, commonly know as Discovery Centre. Discovery Centre is comprised of a 3-story, Class A office building, situated on approximately 6.02 acres, served by more than 540 surface parking spaces. It contains more than 150,000 gross square feet. In addition to the office building and related parking area, there are 5.44 acres of adjacent vacant land, which may be used in the future for further development.

The cost of funding the 300 Richards Boulevard Acquisition Project is estimated at \$35 million, which includes \$19 million of the building and parking area, \$4.5 million for the vacant land, and approximately \$11.5 million for tenant improvements and staff relocation.

Prior Council Action

- On September 19, 2006, City Council adopted the Downtown Space Planning Guiding Principles, which stated that adequate facilities will be provided for all employees and authorized growth, whereby first consideration will be given to locating City functions in City-owned rather than leased facilities. City Council would also consider opportunities for public/private shared facilities. City Council also asked that strategies related to future growth be brought back to Council for consideration.
- On November 14, 2006, City Council authorized the City Manager to execute the Lease Agreement and Option to Purchase Agreement with Richards Boulevard Partners and the Second Richards Boulevard Partnership.
- On November 21, 2006, recommendation was made that City Council authorize the City Manager to execute the Option to Purchase Agreement with Richard Boulevard Partners and the Second Richard Boulevard Partnership to acquire 300 Richards Boulevard.

Financing

The overall cost of the financing will be \$35.8 million, which includes \$33 million in net project funds and \$510 thousand in estimated bonds costs (reserve fund, cost of issuance, bond insurance, and underwriter discount), plus \$2.3 million from the 2006 CIRB Series B taxable bonds. The Series C bonds in an amount of \$30.5 million will be structured as tax-exempt and will be used to acquire the 6.02 acre building site and related parking area, as well as associated tenant improvements and staff relocations, etc. associated with the Downtown Space Planning project; the Series D bonds, in an amount of \$3.0 million, will be structured as taxable and used to fund the acquisition of the remaining 5.44 acres of vacant land. In addition, \$2.3 million will be reallocated to the City from the 2006 CIRB Series B Taxable Bonds associated with the Richards Boulevard Redevelopment Area. This transfer of the Series B bond proceeds is mutually beneficial to the City and Sacramento Housing and Redevelopment Agency (SHRA). The purchase of the project site by the City will impact the tax increment that was projected to service the Series B debt associated with the Richards Boulevard Redevelopment Area, thus preserving the debt capacity structure for the area and enabling the City to reduce the amount of funds borrowed with the 2006 CIRB Series C & D by \$2.3 million.

The use of the taxable bonds to acquire the vacant land provides the flexibility to maximize the utilization of the vacant land without the limitations and restrictions associated with tax-exempt bonds.

2006 CIRBs, Series E (Refunding)

The Office of the City Treasurer is responsible for the management of over \$2.0 billion in outstanding bonds. One component of this responsibility is monitoring the opportunities to save money on existing issues. In current market conditions, the City may be able to generate savings by refunding some or all maturities of several series of outstanding bonds. Refunding is the process whereby an old debt obligation is replaced by a new one, usually in order to take advantage of lower interest rates. This is not unlike refinancing a home mortgage.

In July 2005, the City refinanced \$173.4 million in outstanding bonds for a present value savings of 4.6% (2005 Refunding). Analysis indicates that additional savings could be generated by refunding portions of the \$436 million in bonds that were issued under the financings listed below.

- 2001 Capital Improvement Revenue Bonds, which were originally issued in April 2001, in the principal amount of \$206.8 million and funded various water system improvements, including the Sacramento River Intake and Expansion projects and the E A. Fairborn Intake and Expansion projects; a small component, approximately \$3+ million funded various Golf Course improvements. In 2005 approximately \$61.1 million

was refunded. It is estimated that remaining amount of approximately \$145.7 million may be refinanced.

- 2002 Capital Improvement Revenue Bonds, which were originally issued in July 2002, in the principal amount of \$160.5 million and funded the construction and renovation of the new and historic City Hall, as well as other City projects including the Arena Boulevard Interchange, fire stations, and acquisition of parkland. Approximately \$30 million funded redevelopment activities for the Agency's Merged Downtown and Stockton Boulevard areas. In 2005 approximately \$32.9 million was refunded. It is estimated that approximately \$50 million will be refinanced with a remaining amount of \$77.6 million.

- 2003 Capital Improvement Revenue Bonds, which were originally issued in September 2003, in the principal amount of \$68.4 million and funded the construction and acquisition of the 911 Call Center, North Area Corporation Yard, and various North Natomas improvements including the Fire Station, Library, and Regional Park. The 2003 bonds were not included in the 2005 Refunding; it is estimated that approximately \$34 million may be refinanced.

The sale of the bonds is projected for early November 29, 2006 and closing on December 12, 2006.

- H. The City Council of the City has determined that it is in the best interests of the City and its citizens and is necessary and proper for City purposes and the Agency has determined that it is in the best interests of the Agency and is necessary and proper for Agency purposes that the terms of the Richards Boulevard Advance Repayment Agreement be amended to permit the Agency to prepay to the City, at any time and without any prepayment penalty, the sum of not to exceed two million three hundred thousand dollars (\$2,300,000) in order to assist the City in the acquisition, construction and implementation of the 300 Richards Boulevard Building Acquisition Project.

BACKGROUND:

- A. The Sacramento City Financing Authority is a joint exercise of powers authority duly organized and existing under and by virtue of the laws of the State of California (the "Authority").
- B. The Authority has by duly adopted prior resolutions authorized the execution and delivery by the Authority of a Master Site Lease, dated as of December 1, 1999, as amended (the "Master Site Lease") by and between the Authority and the City of Sacramento (the "City") pursuant to which the real property described therein was leased by the City to the Authority and has further authorized the execution and delivery by the Authority of a Master Project Lease, dated as of December 1, 1999, as amended (the "Master Project Lease") by and between the Authority and the City pursuant to which the Authority leased the real property (together with the improvements thereon) back to the City in order to provide for the 1999 Project, the 2000 Project, the 2001 Project, the 2002A Project, the 2003 Project and the 2006 Project (as defined in the Master Project Lease and herein collectively called the "Master Lease Program Projects").

- C. The City Council (the "City Council") of the City of Sacramento (the "City") has determined that it is in the best interests of the City and its citizens and is necessary and proper for City purposes that the real property described in one or more Amendments to Master Site Lease (collectively, the "Amendment to Master Site Lease"), by and between the City and the Authority, be leased by the City to the Authority, and that the Authority lease the real property (together with the improvements thereon) back to the City pursuant to one or more Amendments to Master Project Lease (collectively, the "Amendment to Master Project Lease"), by and between the Authority and the City, in substantially the forms presented to this meeting, with the total principal components of the payments payable as base rental pursuant to the Amendment to Master Project Lease to be in a combined amount not exceeding three hundred ten million dollars (\$310,000,000) and with the term of any Amendment to Master Project Lease to be not in excess of thirty-five (35) years from the date of the execution of such Amendment to Master Project Lease.
- D. Pursuant to the Amendment to Master Project Lease, the City will be obligated to make base rental payments to the Authority for the lease of the real property (together with the improvements thereon) to it.
- E. The Authority has determined that it may reduce the costs of the Master Lease Program Projects by issuing refunding revenue bonds to refund all or a portion of the Authority's 2001 Capital Improvement Revenue Bonds, Series A (Water and Capital Improvement Projects), 2002 Revenue Bonds, Series A (City Hall and Redevelopment Projects) and 2003 Capital Improvement Revenue Bonds (911 Call Center and Other Municipal Projects) (collectively, the "Prior Bonds") and amending the Master Project Lease to reduce the amount of certain of the base rental payments to be made by the City thereunder.
- F. The Authority has determined to issue its 2006 Capital Improvement Revenue Bonds, Series C (300 Richards Boulevard Building Acquisition) (the "Series C Bonds"), 2006 Taxable Capital Improvement Revenue Bonds, Series D (300 Richards Boulevard Building Acquisition) (the "Series D Bonds") and 2006 Capital Improvement Refunding Revenue Bonds, Series E (Master Lease Program Facilities) (the "Series E Bonds" and, together with the Series C Bonds and the Series D Bonds, the "Bonds") pursuant to one or more Indentures (collectively, the "Indenture") by and between the Authority and The Bank of New York Trust Company, N.A., as trustee (the "Trustee"), a portion of the proceeds of which will be used by the Authority as the source of funds for the payment to the City of the purchase price of the Amendment to Master Project Lease (being the Program Obligation as defined in the Indenture), and the City has determined that on the date of issuance of the Bonds the projects to be acquired and constructed for the citizens of the City with the proceeds of the Bonds will be located within the territorial limits of the City, namely, the acquisition and improvement of the 300 Richards Boulevard Building, adjacent parking, land and implementation of related improvements and other actions consistent with the City's Downtown Space Planning—Guiding Principles and may apply a portion of such purchase price to provide funds to refund, in whole or in part, the Prior Bonds.

- G. The Authority will assign, without recourse, all its rights to receive the base rental payments from the City under the Amendment to Master Project Lease to the Trustee, for the benefit of the registered owners of the Bonds.
- H. In connection with the issuance of the Bonds, the Authority (with the prior approval of the City) will approve the distribution of one or more Preliminary Official Statements for the Bonds (collectively, the "Preliminary Official Statement") and the Authority (with the prior approval of the City) will enter into one or more Purchase Contracts providing for the sale of the Bonds (collectively, the "Purchase Contract"), each in substantially the forms of the Preliminary Official Statement and the Purchase Contract presented to this meeting, and (after the sale of the Bonds) the Authority (with the prior approval of the City) will execute and deliver and authorize the distribution of one or more Final Official Statements for the Bonds (collectively, the "Final Official Statement").
- I. All acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in connection with the authorization of the execution and delivery by the Authority of the Amendment to Master Site Lease, the Amendment to Master Project Lease and the Indenture and the execution and delivery of the Bonds do exist, have happened and have been performed in regular and due time, form and manner as required by law. The Authority is now duly authorized to execute and deliver the Amendment to Master Site Lease, the Amendment to Master Project Lease and the Indenture and (with the prior approval of the City) to approve the distribution of the Preliminary Official Statement and (with the prior approval of the City) to execute and deliver the Purchase Contract and (after the sale of the Bonds) (with the prior approval of the City) to execute and deliver and authorize the distribution of the Final Official Statement and to execute and deliver the Bonds and to do any and all things and to execute any and all documents related to the Authority's refunding of all or a portion of the Prior Bonds.
