Description/Analysis

Issue: The proposal is to bring the General Plan and Community Plan land use designations of the site into consistency with the zoning designation of Central Business District Special Planning District (C-3-SPD). The City and the Sacramento Housing Redevelopment Agency (SHRA) expect to sell this site to provide funds for the Crocker Art Museum expansion project. As part of the City's Community Reinvestment Capital Improvement Program (CRCIP) it was determined that the sale of Lot X was necessary to provide needed funding for the Crocker Art Museum expansion project. Without General Plan and Community Plan amendments, any future proposed development could not occur on the lots. Providing consistency between the General Plan and Community Plan land use designations with the existing zoning will allow a more saleable and developable site. Development is not proposed at this time and the proposed amendments are not controversial.

Policy Considerations: The amendments will amend the designations of the General Plan and Central City Community Plan to "Regional Commercial & Offices" and "Downtown Commercial Mixed Use" respectively. The proposed amendments will make the General Plan and Central City Community Plan land

use designations consistent with the existing zoning of the site which is Central Business District Special Planning District (C-3-SPD). It is the policy of the City when considering amendments to evaluate the impact of such amendments upon the General Plan and Community Plan goals and policies. Each amendment must be determined to be consistent with the projections, goals and policies (General Plan Policy 6, 1-33).

The subject lots are located within downtown Sacramento. Goals of the General Plan and Central City Community Plan are to maintain and strengthen downtown's role as a major regional office and commercial center (GP Goal A, 4-12 & Central City Community Plan, pg 8). Another policy is to support development of cultural and entertainment activities in the Central Business District (GP Policy 1, 4-13 & CCCP, pg 8). Amending the General Plan and Community Plan designations supports these policies by allowing development to occur consistent with the existing zoning of the site of Central Business District Special Planning District (C-3-SPD).

The potential sale of the lots to provide funding for the Crocker Art Museum expansion furthers the goals and policies of the General Plan to enhance the quality of life within the City to insure a rich, vital urban experience. While the reduction of park open space is contrary to the General Plan which acknowledges parks and open space as a valuable community asset supporting quality of life, the C-3-SPD zoning of the site anticipated development of the site. Providing consistency with the land use designations and zoning is anticipated to yield a higher value for the property allowing for expansion of the Crocker Art Museum and better utilization of the 2.5 acre park located just south of the site which contributes to enrichment of public spaces.

Committee/Commission Action: On November 9, 2006, by a unanimous vote of six ayes and two absent, the Planning Commission recommended approval of the General Plan and Central City Community Plan Amendments.

Environmental Considerations: This activity is not subject to California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Section 15061(b)(3). CEQA will apply when a development proposal is submitted to the City.

Rationale for Recommendation: The project is consistent with the objectives of the General Plan and Central City Community Plan policies to support development of cultural and entertainment activities in the Central Business District, to enhance the quality of life within the City to insure a rich, vital urban experience, and to allow development to occur consistent with the existing zoning.

Financial Considerations: The project has no fiscal considerations.

Emerging Small Business Development (ESBD): No goods or services are being purchased under this report.
