Description/Analysis

Issue:

As the Sponsoring Agency of the CA TF-7, US&R program, the City must sign the Application for Federal Assistance and grant assurances to receive funding from the federal government.

Policy Considerations:

In order to continue to receive funding and be a part of the federal US&R program, the City must complete the application for federal funds. The application for the federal US&R grant is consistent with City Council actions relative to state and federal grant awards. This action also is consistent with City Council's goal of enhancing regional partnerships.

Committee/Commission Action: None.

Environmental Considerations:

Ongoing administrative maintenance activities, such as purchases of supplies, equipment or materials which are not made for purposes of a public construction project, do not constitute a "project" and are exempt from the California Environmental Quality Act. CEQA Guidelines, Section 15061(b)(1), 15378(b)(3).

Rationale for Recommendation:

The Application for Federal Assistance and grant assurances must be submitted to Federal Emergency Management Agency (FEMA) to receive the funds for the development and maintenance of CA TF-7, US&R team. The federal government requires local agencies to adopt a resolution granting signature authority for an Application for Federal Assistance and grant assurances. The funding will be used to prepare the Task Force to provide qualified and competent Urban Search and Rescue personnel and equipment. In addition, application for the federal US&R grant is consistent with City Council actions relative to state and federal grant awards.

Financial Considerations:

The Sacramento Fire Department has been the Sponsoring Agency of CA TF-7 since the early 1990s. As such, the Fire Department is directly responsible for the management and coordination of all aspects of the Task Force, including the training and outfitting of 210 personnel from a total of eight agencies. The fire department provides personnel and training to support the daily operations related to CA TF-7, US&R Team. Grant funding of \$809,000 will be used for the purchase of supplies and equipment, contract for services, training, and the continuation of limited term employees. No augmentation of the Fire Department budget is being requested.

Emerging Small Business Development (ESBD):

Staff will follow the emerging and small business guidelines when purchasing supplies or services under this grant, except on specific items on the FEMA US&R Cache List that must be interchangeable with all 28 National US&R tasks forces and therefore must be purchased from specific brands/vendors to ensure identical items.
