

REPORT TO COUNCIL

City of Sacramento

915 I Street, Sacramento, CA 95814-2604
[www. CityofSacramento.org](http://www.CityofSacramento.org)

PUBLIC HEARING
February 27, 2007

**Honorable Mayor and
 Members of the City Council**

Title: Citywide Fees and Charges Review and Online Database Demonstration

Location/Council District: All

Recommendation: Conduct a public hearing and upon conclusion adopt a
Resolution: 1) affirming or reaffirming departmental fees and charges as outlined in the public online database; and 2) approving proposed new fees and fee increases.

Contact: Leyne Milstein, Budget Manager, 808-8491; David Levine, Management Analyst, 808-7943

Presenters: Leyne Milstein, Budget Manager, 808-8491; David Levine, Management Analyst, 808-7943

Department: Finance

Division: Budget

Organization No: 1140

Description/Analysis

Issue: With the FY05/06 Midyear Report (Resolution 2006-106), the City Council formally adopted a citywide Fees and Charges Policy (Attachment 1, page 4). Implementation of the policy requires:

- 1) A necessary mechanism to ensure that fees and charges reflect the City's current costs; and
- 2) An annual review by City Council.

To implement this policy, an online database and website have been developed to provide a single place to store information for all City fees and charges. This website will not only facilitate the annual review process, but it will also provide the citizens of Sacramento with easy access to information about departmental fees and charges. The database can be found on the City of Sacramento Finance Department website at the following address:
<http://www.cityofsacramento.org/finance/fees/>

Consistent with the Fees and Charges Policy, staff is returning to Council to present for annual review the fees currently charged by Departments (Exhibit A, page 11). Of these fees, those impacted by changes in the Consumer Price Index (CPI) have already been adjusted as authorized in Resolution 2006-106. Proposed new fees or fee increases requiring Council approval are included as Exhibit B, page 98 which reflects changes in fees in the following departments: City Attorney, Finance Department, Police Department, General Services, Department of Utilities, Convention, Culture and Leisure, Parks and Recreation, and Planning Department.

Policy Considerations: Maintaining the objectives outlined in the citywide Fees and Charges Policy and the creation of a City fees and charges website is consistent with the City Manager's goal of "getting the customer to success."

Committee/Commission Action: None.

Environmental Considerations: Approval of fees and the development of a website does not constitute a "project" and is therefore exempt from the California Environmental Quality Act (CEQA) according to Section 15601(b)(3) of the CEQA guidelines.

Rationale for Recommendation: The annual review of citywide fees and charges helps to ensure that the City's fees and charges keep pace with changes in the cost-of-living index, as well as changes in methods or levels of service delivery.

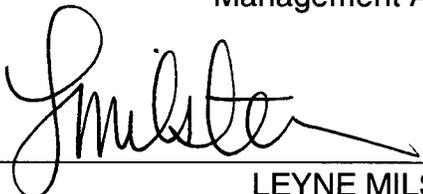

The development of a public fees and charges website serves several key purposes:

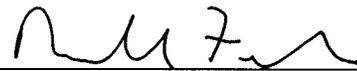

- 1) Provides a single place to store the Citywide Fee and Charge data.
- 2) Provides a means for staff to maintain their fee information.
- 3) Provides data to an online application on the City's website which displays Fee and Charge information to the public.

Financial Considerations: The approval of fees and charges outlined in this report will provide for the means to collect necessary revenue to continue delivery of existing or new City services.

Emerging Small Business Development (ESBD): There are no ESBD considerations with this report.

ATTACHMENT 1

CITY OF SACRAMENTO FEES AND CHARGES POLICY

The City of Sacramento has the ability to determine the extent to which fees should be used to fund City facilities, infrastructure and services.

There are five main categories of fees that the City currently implements¹:

- ✓ **Impact/development fees** are typically one-time charges levied by the City against new development to generate revenue for the construction of infrastructure and capital facilities needed to offset the impacts of the new development.
- ✓ **Service fees** are charges imposed on persons or property that are designed to offset the cost of providing a government service. Sometimes these services are elective, such as fees for processing voluntary development permit applications, or providing service/recreation programs, while other service fees are not, such as mandatory service fees for trash or utility services. Such fees are typically reasonably related to the cost of providing the service for which the fee is imposed. Otherwise, the fee may constitute a special tax for which voter approval is required by Propositions 13, 62, and 218.
- ✓ **Regulatory fees** are imposed to offset the cost of a regulatory program, such as business regulatory fees, or to mitigate the past, present or future adverse impact of a fee payer's operations. While payment of a regulatory fee does not necessarily provide any direct benefit from payment of the fee, there must be a "nexus" between the activity and the adverse consequences addressed by the fee. Common examples of regulatory fees include inspection fees and business license fees designed to reimburse a local agency for the cost of monitoring the business and enforcing compliance with City code.
- ✓ **Rental fees** are charged for the rental of public property and include the rental of real property, parking spaces in a public parking lot, or the rental of community facilities such as a recreation or community room or picnic area. Rental fees are not subject to the general rule that the fee must bear a direct relationship to the reasonable cost of providing the service for which the fee is charged, however, rental fees must be fair and reasonable.
- ✓ **Penalties/Fines** payment required for non-compliance or failure to adhere to specific rules and/or requirements.

This document sets forth guidelines for:

- Establishing cost recovery goals;
- Determining the categories of cost recovery levels in which to categorize/organize fees;
- Methods for determining which category a fee falls under; and
- Establishment and modification of fees and changes.

A. Cost Recovery Goals

In setting user fees and cost recovery levels, the following factors will be consideredⁱⁱ:

- 1) The amount of a fee should not exceed the overall cost of providing the facility, infrastructure or service for which the fee is imposed. In calculating that cost, direct and indirect costs may be included. That is:
 - Costs which are directly related to the provision of the service; and,
 - Support costs which are more general in nature but provide support for the provision of the service. For example, service fees can include reimbursement for the administrative costs of providing the service. Development fees can include the cost of administering the program to construct public facilities that are necessary to serve new development.
- 2) The method of assessing and collecting fees should be as simple as possible in order to reduce the administrative cost of collection.
- 3) Fees should be sensitive to the “market” for similar services.

In addition, in setting enterprise fund fees and cost recovery levels, the following factors will be considered:

- 4) The City will set fees and rates at levels which fully cover the total direct and indirect costs, including operations, capital outlay and debt service of the enterprise programs.
- 5) The City will review and adjust enterprise fees and rate structures as required to ensure that they remain appropriate and equitable.

B. Categories of Cost Recovery Levels in Which to Categorize/Organize Fees

There are five categories of cost recovery levels in which to classify fees:

1. **Enterprise:** Full direct and indirect cost recovery (100% of total costs) for enterprise services such as water, sewer and solid waste, as well as impact/development fees.
2. **High:** Full direct cost recovery (81-100% of total costs)
3. **Medium:** Recovery between 41-80% of direct costs
4. **Low:** Recovery between 0-40% of direct costs
5. **Other:** Fees based on market, geography, assessment, project specific, legal limits or specific Council policy.

The City may choose, for policy reasons, to set fees at less than full recovery. For example, fees based on market, geography, assessment, project specific, statutory/legal limits or specific Council policy. In some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability.

C. Methods for Determining Which Category a Fee Falls Under

Implementation of higher cost recovery levels are appropriate under the following conditions (up to 100% of the cost of the service or program):

- The service is regulatory in nature (i.e. building permits, plan check fees);
- The service is similar to services provided through the private sector;
- Other private or public sector alternatives could or do exist for the delivery of the service; and
- The use of the service is specifically discouraged (i.e., police responses to disturbances or false alarms might fall into this category).
- The service or facility is a specialized use that could be provided at a lower cost if not for specific nature or service (i.e. lighted fields).

Lower cost recovery levels are appropriate under the following conditions:

- There is no intended relationship between the amount paid and the benefit received. (It is likely that some recreation and human service programs fall into this category as it is expected that these programs will be subsidized by City funds);
- Collecting fees is not cost-effective or will significantly impact the accessibility to the service;
- The service is non-recurring, generally delivered on a peak demand or emergency basis, cannot be planned for and is not readily available from a private sector source (i.e. public safety services);
- Collecting fees would discourage compliance with regulatory requirements and adherence is primarily self-identified, and as such, failure to comply would not be readily detected by the City.

Other:

- Market pricing requires that there be a direct relationship between the amount paid and the level and cost of the service received or a direct relationship to actual prices being charged for the service in the current market.
- Legal specifications and/or limitations to the amount that is charged.
- Adopted Council Policy setting specific fee.

Factors to Consider

The extent to which the total cost of service should be recovered through fees depends upon the following factors:

- ✓ The nature of the facilities, infrastructure or services;
- ✓ The nature and extent of the benefit to the fee payer;

- ✓ The effect of pricing on the demand for services; and
- ✓ The feasibility of collection and recovery.

The chart below reflects these factors and the potential options for higher or lower cost recoveryⁱⁱⁱ:

	The Nature of the Facilities, Infrastructure or Services	The Nature and Extent of the Benefit to The Fee Payers	Effect of Pricing on the Demand for Services	Feasibility of Collection and Recovery
Higher Cost Recovery	In the case of fees for facilities, infrastructure and proprietary services ^{iv} , total cost recovery may be warranted.	When a particular facility or service results in substantial, immediate and direct benefit to fee payers, a higher percentage of the cost of providing the facility or service should be recovered by the fee.	Because the pricing of services can significantly affect demand, full cost recovery for services is more appropriate when the market for the services is strong and will support a high level of cost recovery.	In the case of impact fees, which can be collected at the time of issuance of a building permit, ease of collection is generally not a factor.
Lower Cost Recovery	In the case of governmental services ^v , it may be appropriate for a substantial portion of the cost of such services to be borne by the City's taxpayers, rather than the individual users of such services.	When a particular facility or service benefits not only the fee payer but also a substantial segment of the community, lower cost recovery is warranted.	If high levels of cost recovery affect accessibility to or negatively impact the delivery of services to lower income groups this should be considered based on the overall goals of the program being implemented.	Some fees may prove to be impractical for the City to utilize if they are too costly to administer.

D. Establishment and Modification of Fees and Charges

Fees will be reviewed and updated on an ongoing basis as part of the annual budget process to ensure that they keep pace with changes in the cost-of-living as well as changes in methods or levels of service delivery. At the beginning of the budget process each department will submit a list of proposed adjustments to their section of the master fee schedule. Each service must be assigned a target cost recovery level as defined above.

Maintaining competitive status and comparability with other cities should be considered when determining new fee levels. Those fees that are proposed for adjustment should be benchmarked against neighboring jurisdiction fee schedules or appropriate service markets. The benchmark analysis should be taken into consideration when making final pricing decisions.

However, the City may choose, for policy reasons, to set fees at less than full recovery. For example, fees based on market, geography, assessment, project specific, statutory/legal limits or specific Council policy. As stated above, in some cases, the City will acknowledge that a subsidy is acceptable, or even necessary to ensure program access and viability. Where appropriate, fees that have not been increased in some time should have increases phased in over several years to avoid 'sticker shock' increases.

If a particular fee is not adjusted in the budget process, to the extent feasible and/or appropriate, it should be increased bi-annually by a CPI factor to keep pace with inflation. For CPI adjustments the City will use the Employee Cost Index for State and Local Government Employees, Total Compensation as published by the Bureau of Labor Statistics. Bi-annually, the Finance Department shall determine the percentage change in this index and apply the increase or decrease to the master fee schedule, rounding up to the nearest whole dollar. Certain fees are exempt from an index adjustment, such as fees set by the State of California, percentage based fees or those that have been identified as inappropriate for indexed fee increases (i.e. feasibility or fees that are based on market for services). Exempt fees are noted in the master fee schedule. Council may consider fee issues outside of the annual budget process on a case by case basis.

Every five to seven years the City should conduct a comprehensive cost of service analysis to ensure fees and charges are set appropriately. Generally, fees may be adjusted based on supplemental analysis whenever there have been significant changes in the method, level or cost of service delivery. For example, changes in processes and technology change the staff time required to provide services to the public. A cost of service study will identify and quantify these changes.

ⁱⁱⁱ Government Finance Officers Association Website, *Best Practices in Public Budgeting, City of Fort Collins, CO: User Fee Policies*, 2005.

^{iv} Proprietary services are those which are provided for the benefit and enjoyment of the residents of the City

^v Governmental services are those which are provided by the City for the public good such as regulating land use, maintaining streets, and providing police and fire protection.

RESOLUTION NO. 2007-XXX

Adopted by the Sacramento City Council
February 27, 2007

CITYWIDE FEES AND CHARGES REVIEW AND ONLINE DATABASE

BACKGROUND:

- A. On February 7, 2006, the City Council adopted the Citywide Fees and Charges policy (Resolution No. 2006-106).
- B. Implementation of the policy requires a necessary mechanism to ensure that the City's fees and charges reflect the City's current costs and that those fees and charges are reviewed on an annual basis by City Council.
- C. Fees currently charged by Departments are set forth in Exhibit A. Proposed new fees and fee increases are set forth in Exhibit B.

**BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL
RESOLVES AS FOLLOWS:**

- Section 1. Departmental fees and charges are hereby affirmed or reaffirmed, as set forth in Exhibit A.
- Section 2. Proposed new fees and fee increases are hereby approved, as set forth in Exhibit B.
- Section 3. Exhibits A and B are part of this Resolution.

Exhibits:

Exhibit A - Current Fees and Charges

Exhibit B - Proposed New Fees or Fee Increases

Current Fees and Charges

City Attorney

Attorneys Fees

Fee Name: Attorneys Fees (Average) Hourly Rate
Fee Detail: Average Hourly Rate identified for court ordered Attorneys Fees
Fee Amount: Cost based on market rate for attorneys fees and may vary based on type of case, complexity of legal issues, and experience of attorney(s).

City Attorney Processing Fees

Fee Name: Beat Feet Ordinance Related Fees
Fee Detail: Fee amounts in question - litigation pending
Fee Amount: Fee amounts in question - litigation pending

Fee Name: Court Reporters: Annual Renewal Processing Fee
Fee Detail: Processing for renewal and updates throughout the year for court reporters
Fee Amount: \$75.00

Fee Name: Court Reporters: Initial Application Processing Fee
Fee Detail: Processing fee for court reporters application review and updates throughout the year
Fee Amount: \$250.00

Fee Name: Development Related Agreements -- Legal Services Fee
Fee Detail: Legal service fee for development related agreements (other than North Natomas)
Fee Amount: \$95-\$100 hourly rate based on actual attorney time

Fee Name: Financing Agreements: Agreement to Reimburse Fees and Costs (re: financing plan) - Legal Review Fee
Fee Detail: City Attorney's fee for Agreement to Reimburse Fees and Costs (preparation of financing plan). Covers costs of City Attorney's services in drafting agreements that provide for reimbursing developers who advance the city's cost to prepare financing plans.
Fee Amount: \$250.00

Fee Name: Financing Agreements: Annexations of territory to CFD or AD - Legal Review Fee
Fee Detail: City Attorney's fee for annexation of territory to CFD or AD. Covers costs of City Attorney's services in annexing territory to an existing CFD or AD. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, and other documents; and provides legal advice as needed.
Fee Amount: \$2,500.00

Fee Name: Financing Agreements: Bonds Issued through Master-Lease Financing Program - Legal Review Fee
Fee Detail: City Attorney's fee for bonds issued through the Master-Lease Financing Program. Covers costs of City Attorney's serving as issuer's counsel in the issuance of capital-improvement revenue bonds, or CIRBs. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements, title reports, and other documents; prepares and signs opinion of issuer's counsel; and provides legal advice as needed.
Fee Amount: \$14,000.00

Fee Name: Financing Agreements: CFD or AD Formation without bond issuance - Legal Review Fee
Fee Detail: City Attorney's fee for CFD or AD formation without issuance of bonds. Covers costs of City Attorney's services in forming a CFD or AD that will levy a tax or assessment to finance public services (e.g., landscaping maintenance) but will not issue bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, and other documents; and provides legal advice as needed.
Fee Amount: \$2,500.00

Fee Name: Financing Agreements: Issuance of Bonds by existing CFD or AD - Legal Review Fee
Fee Detail: City Attorney's fee for issuance of bonds by existing CFD or AD. Covers costs of City Attorney's serving as issuer's counsel in issuance of a subsequent series of bonds by an existing CFD or AD. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements and other documents; prepares and signs opinion of issuer's counsel; and provides legal advice as needed.
Fee Amount: \$11,500.00

Fee Name: Financing Agreements: Refundings of Outstanding Bonds - Legal Review Fee

Fee Detail: City Attorney's fee for refundings of outstanding bonds. Covers costs of City Attorney's serving as issuer's counsel in the issuance bonds issued to refund outstanding bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements, title reports, and other documents; prepares and signs opinion of issuer's counsel; and provides legal advice as needed.

Fee Amount: \$11,500.00

Fee Name: Financing Agreements: CFD or AD Formation with bond issue - Legal Review Fee

Fee Detail: City Attorney's fee for CFD or AD formation with issuance of first-series bonds. Covers costs of City Attorney's serving as issuer's counsel in formation of CFD or AD and issuance of first series of bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews ordinances, resolutions, agreements, official statements and other documents; prepares and signs opinion of issuer's counsel; and provides legal advice as needed.

**Proposed New General Fund
Fees or Fee Increases**

City Attorney

Fee Name: Financing Agreements: CFD or AD Formation with Bond Issue - Legal Review Fee

Current Fee: \$11,500

Proposed Fee: \$14,500

Justification: This fee covers the costs of City Attorneys serving as issuers counsel in formation of CFD or AD and issuance of first series of bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews ordinances, resolutions, agreements, official statements and other documents; prepares and signs opinion of issuers counsel; and provides legal advice as needed. The current fee, established over six years ago, does not cover the actual cost of City Attorney services, as it neither reflects current costs of salaries and benefits nor the hours typically spent on these transactions.

Fee Name: Financing Agreements: CFD or AD Formation without Bond Issuance - Legal Review Fee

Current Fee: \$2,500

Proposed Fee: \$3,000

Justification: This fee covers costs of City Attorney services in forming a CFD or AD that will levy a tax or assessment to finance public services (e.g., landscaping maintenance) but will not issue bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, and other documents; and provides legal advice as needed. The current fee, established over six years ago, does not cover the actual cost of City Attorney services, as it neither reflects current costs of salaries and benefits nor the hours typically spent on these transactions.

Fee Name: Financing Agreements: Annexation of territory to CFD or AD - Legal Review Fee

Current Fee: \$2,500

Proposed Fee: \$3,000

Justification: This fee covers costs of City Attorney services in annexing territory to an existing CFD or AD. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, and other documents; and provides legal advice as needed. The current fee, established over six years ago, does not cover the actual cost of City Attorneys services, as it neither reflects current costs of salaries and benefits nor the hours typically spent on these transactions.

Fee Name: Financing Agreements: Bonds Issued through Master-Lease Financing Program - Legal Review Fee

Current Fee: \$14,000

Proposed Fee: \$14,500

Justification: This fee covers costs of City Attorneys serving as issuers counsel in the issuance of capital-improvement revenue bonds, or CIRB's. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements, title reports, and other documents; prepares and signs opinion of issuers counsel; and provides legal advice as needed. The volume of work on CIRB's typically equals the volume of work on a CFD formation with bonds; hence, the fees for these two types of bond issues should be the same.

Fee Name: Financing Agreements: Refunding of Outstanding Bonds - Legal Review Fee

Current Fee: \$11,500

Proposed Fee: \$14,500 for refunding CIRB's; \$11,500 for refunding CFD or AD bonds

Justification: These fees covers costs of City Attorneys serving as issuers counsel in the issuance bonds issued to refund outstanding bonds. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements, title reports, and other documents; prepares and signs opinion of issuers counsel; and provides legal advice as needed. The volume of work on refunding bonds is typically equal to the volume of work on the bonds initially issued; hence, the fees for refunding bonds should be the same as those for issuance of the bonds being refunded.

Fee Name: Development Related - Legal Service Fee

Current Fee: \$95-\$100 hourly rate based on actual attorney time

Proposed Fee: \$142 hourly rate based on current blended rate for senior attorneys

Justification: This hourly rate is for legal review of development related agreements (for areas other than North Natomas). The rate is updated to reflect the current blended hourly rate as determined by a detailed cost analysis from the Accounting Division for senior attorneys (includes classifications: Senior Deputy City Attorney, Supervising Deputy City Attorney, Assistant City Attorney and City Attorney).

Fee Name: Financing Agreements: Issuance of certificates of participation - Legal Review Fee

Current Fee: None; this is a new fee

Proposed Fee: \$14,500

Justification: This fee covers costs of City Attorneys serving as issuers counsel in the issuance of certificates of participation, or COP's, in connection with the financing of public improvements. Among other things, the deputy assigned to the transaction attends all meetings; drafts and reviews resolutions, agreements, official statements, title reports, and other documents; prepares and signs opinion of issuers counsel; and provides legal advice as needed. City Attorney does not currently charge a fee for the review of COP's but it equivalent to the volume of work typically performed on CIRB's;

hence, the fees for these two types of transactions should be the same.

Finance Department

Fee Name: Vehicle Driver Permit Renewal Fee

Current Fee: \$75.00 (biennially)

Proposed Fee: \$75.00 (yearly)

Justification: Resolution 2006-336 established this fee to be levied upon taxicab drivers to renew their permits to drive taxicabs. The resolution incorrectly listed the renewal fee as a biennial fee instead of an annual fee.

Fee Name: Fingerprint Fee

Current Fee: \$60.00

Proposed Fee: \$59.50

Justification: The fingerprint fee is charged to taxicab drivers for purposes of running background checks prior to issuing their taxicab permit. The fingerprint fee reduction by 50 cents is to bring it into alignment with fingerprint fees charged by other City departments.

Fee Name: Vehicle Driver Permit Fee

Current Fee: \$250.00

Proposed Fee: \$150.00

Justification: This is an annual fee charged to the owner of a taxicab allowing them to operate the taxicab. Resolution 2006-336 established the vehicle permit fee with two parts: 1) \$150.00 fee for the vehicle permit; and 2) \$100.00 inspection fee. The proposed fee removes the inspection fee because taxicab drivers pay the fee directly to Paratransit to perform the inspection. Since the inception of this fee, the City has never collected the full \$250.00 Vehicle Permit Fee, but rather collected \$150.00 for this fee, recognizing that the \$250.00 amount was an error.

Fee Name: Vehicle Inspection Fee

Current Fee: \$85.00

Proposed Fee: \$100.00 (paid directly to Paratransit)

Justification: This is an annual fee charged to the taxicab operator to inspect the taxicab for safety and operational issues. The proposed fee corrects the standalone fee amount and notates that the fee is paid directly to Paratransit and not the City. The vehicle must pass inspection by Paratransit before the City issues the vehicle driver permit.

Police Department

Fee Name: Photo CD Fee

Current Fee: \$15.00 - an additional \$3.00 if images do not fit on 1 CD

Proposed Fee: \$26.00 – an additional \$4.00 if images do not fit on 1 CD

Justification: In 2006, Police Forensics provided 1,911 CDs containing photos from accidents, major crime scenes, and injuries to requestors including attorneys and insurance companies. The Police Department proposes to charge \$26.00 per CD (\$4.00 per additional CD) to cover the direct cost of the CD, case, printer usage, ink cartridges, and staff time for making duplication. These costs are in accordance with the City Attorney's legal opinion.

Fee Name: Secondhand/Pawn Dealer Permit

Current Fee: None

Proposed Fee: \$120.00

Justification: City Code 5.80 requires junk dealers, secondhand dealers, pawnbrokers, or pallet resellers to secure a permit. According to the code it is unlawful and a public nuisance for any person to conduct or operate such a business without a permit. There has never been an administration fee due to low permit volume. The Police Department has recently seen an increase in permit activity and several hours of staff time are involved in issuing one of these permits. The proposed fee is based on actual cost to perform background checks, history on location, communications with Department of Justice and City Revenue, creation of permit, maintenance and update of database, and review of surety bond.

Fee Name: Secondhand/Pawn Dealer Permit Renewal

Current Fee: \$25.00

Proposed Fee: \$75.00

Justification: City Code 5.80 requires junk dealers, secondhand dealers, pawnbrokers, or pallet resellers to renew their permit on an annual basis. Fee increase is based on actual cost – labor plus overhead. Labor includes the cost of reviewing background checks, coordinating efforts with Department of Justice, history on location, creation of permit, maintenance and update of database, and review of surety bond. Fee also includes the cost of mailing documents, I.T. and other costs associated with phone, fax, and internet, cost of files including folders, and labels.

General Services Department

Fee Name: Animal Care Licensing Fee

Current/Proposed Fees:

Altered Dog			Unaltered Dog	
Current Fee		Proposed	Current Fee	Proposed
1 year	\$12	\$15	\$36	\$150
3 year	\$30	\$35	\$90	\$400
Altered Cat			Unaltered Cat	
Current Fee		Proposed	Current Fee	Proposed
1 year	\$10	\$10	\$30	\$75
3 year	\$25	\$25	\$75	\$200

Justification: The City of Sacramento requires the owner of a male or female dog or cat whose animal is over the age of four months to obtain a City license permitting the pet owner to keep the animal within the City limits.

To address the costs and related public safety and enforcement issues associated with the pet overpopulation problem, the proposed licensing fee schedule creates a significantly greater financial incentive for pet owners to spay and neuter their animals while presenting a modest fee increase for altered animals. The proposed licensing fees were developed with input from numerous animal welfare organizations including the County of Sacramento, Humane Society of the United States, Animal Protection Institute, and the Sacramento Society for the Prevention of Cruelty to Animals. The County of Sacramento Animal Control is also proposing similar license fee increases.

The overriding goal of increasing licensing fees is to reduce pet overpopulation by encouraging owners to alter their dogs and cats. However, the proposed revisions do have the potential to increase revenue, which will help offset costs of providing animal care services such as sheltering, medical care, improved enforcement capabilities, public safety protection, and an extended range of humane care and education for the City's human and animal population, and will reduce Animal Care Services' reliance on General Fund revenue. If the proposed fees are approved, Animal Care Services does not anticipate a decrease in the number of dogs licensed.

Owners who are dependent on a guide dog, signal dog, or service dog, or for a dog used in active duty status with a governmental law enforcement agency will continue to be exempt from licensing fees. In addition, the existing fee schedule provides a

discounted license fee to senior citizens aged sixty-two and older for their spayed and neutered pets.

Parks and Recreation

Input on the following fee recommendations for Parks and Recreation services was received through the September 2006 public survey and through outreach to the four Neighborhood Service Area Leadership groups. Fee increases were supported, especially if not doing so resulted in a reduction in services.

On February 1, 2007, the Parks and Recreation Commission approved a recommendation to City Council to consider a higher fee for regional park picnic and sports fields reservations than recommended by staff, due to heavier use at these facilities and therefore increased maintenance needs, and that regional facilities draw visitors from throughout the greater Sacramento area. The Commission supported all other fee recommendations.

The first four recommended fee increases related to park use would generate approximately \$65,000 in new annual revenue to help offset increased costs in a growing park system for Park Safety Services and utilities as follows:

Fee Name: Picnic Area Reservations - Community and Neighborhood Parks

Current Fee: \$15.00 per 50 guests full day

Proposed Fee: \$20.00 per 50 guests full day

Justification: The City's neighborhood and community park picnic area reservation fee remains well below neighboring jurisdictions and cost recovery for services is low (Citrus Heights: \$100; Elk Grove: \$50 to \$60; Rocklin: \$80).

Fee Name: Picnic Area Reservations - Regional Parks

Current Fee: \$30.00 per 50 guests for full day

Proposed Fee: \$50.00 per 50 guests for full day

Justification: With the Parks and Recreation Commission's recommendation to set a higher fee, staff recommendations an increase to \$50.00 per hour given larger events in the regional park system which require additional services. The City's regional park picnic area reservation fee remains well below neighboring jurisdictions and cost recovery for services is low (Citrus Heights: \$110; Elk Grove: \$150 to \$350; Sacramento County: \$125 - \$200).

Fee Name: Sports Field Reservations; Sports Field Lights - Community and Neighborhood Parks

Current Fee: Fields: For adults (youth are free): \$10 per hour. Field Lighting fee (applied to youth and adults): \$25 per hour and field use fee is waived

Proposed Fee: Fields: For adults (youth are free): \$14 per hour. Field Lighting fee (applied to youth and adults): Remain at \$25 per hour and cease practice of waiving field use fee when lights are used

Justification: The recommended fee remains below neighboring jurisdictions and cost

recovery for services is low (Roseville: \$10 per hour youth; \$20 per hour adults; \$15 per hour for lights; Elk Grove: \$65 half day; \$130 full day; \$20 per hour for lights).

Fee Name: Sports Field Reservations; Sports Field Lights - Regional Parks

Current Fee: Fields: For adults (youth are free): \$18 per hour weekdays and \$28 per hour weekends. Field Lighting fee (applied to youth and adults): \$25 per hour and field use fee is waived

Proposed Fee: Fields: For adults (youth are free): \$22 per hour weekdays and \$34 per hour weekends. Field Lighting fee (applied to youth and adults): Remain at \$25 per hour and cease practice of waiving field use fee when lights are used.

Justification: The recommended fee remains at or below neighboring jurisdictions and cost recovery for services is low (Roseville: \$10 per hour youth; \$20 per hour adults; \$15 per hour for lights; Elk Grove: \$65 half day; \$130 full day; \$20 per hour for lights).

The next three recommended set of fees would generate \$14,000 in new annual revenue to help offset increased costs due to customer demand for special events in Sacramento as follows:

Fee Name: Street Closure Application: Community Events, Parades - Under 500 in attendance

Current Fee: \$25.00

Proposed Fee: \$50.00

Justification: Special Events has experienced a 50% growth level since 2000, from 600 to 900 events annually. To meet current demand, fee increases are recommended to help offset increased staff time necessary to review and permit events. Even with the proposed fee increase, the City's street closure application fee is well below other cities (Woodland: \$100; Stockton: \$228; San Jose: \$500 - \$1,300 depending on size of event).

Fee Name: Street Closure Application: Community Events, Parades - 500 - 3,000 in attendance

Current Fee: \$100.00

Proposed Fee: \$150.00

Justification: Special Events has experienced a 50% growth level since 2000, from 600 to 900 events annually. To meet current demand, fee increases are recommended to help offset increased staff time necessary to review and permit events. Even with the proposed fee increase, the City's street closure application fee is at or below other cities (Woodland: \$100; Stockton: \$228; San Jose: \$500 - \$1,300 depending on size of event).

Fee Name: Street Closure Application: Community Events, Parades - 3,001 or more in attendance

Current Fee: None

Proposed Fee: \$200.00

Justification: Special Events has experienced a 50% growth level since 2000, from 600 to 900 events annually. To meet current demand, fee increases are recommended

to help offset increased staff time necessary to review and permit events. With the proposed fee increase, the City's street closure application fee for large parades would result in low cost recovery (Woodland: \$100; Stockton: \$228; San Jose: \$500 - \$1,300 depending on size of event).

Fee Name: Neighborhood Block Party Application (permit to block residential street)

Current Fee: \$10.00

Proposed Fee: \$20.00

Justification: Special Events has experienced a 50% growth level since 2000, from 600 to 900 events annually. To meet current demand, fee increases are recommended to help offset increased staff time necessary to review and permit events. Even with the proposed fee increase, cost recovery for service is low.

Fee Name: Community Center Facility Rental

Current Fee: \$20.00 to \$90.00 per hour depending on size of room and if other facilities are used (kitchen, stage, etc.)

Proposed Fee: \$35.00 to \$150.00 per hour depending on size of room and if related facilities are used (kitchen, etc.)

Justification: Both operating costs and hours of operation have increased for the City's expanding community center system. Community Center room rental fees have not been adjusted since 1991. These increases would raise up to an additional \$60,000 annually to help offset rising operational costs including labor and utilities. Even with the proposed fee increase, the City's community center rental fee is at or below other area centers (Elk Grove: \$60 - \$150 per hour depending on size of room; Fulton/El Camino: \$75 to \$110 per hour depending on day of week).

Fee Name: E - Business Services Transaction Fee

Current Fee: None

Proposed Fee: \$3.00 per transaction (effective 3/1/07)

Justification: Customers have long requested the ability to book registrations for recreation services via the Internet, and have complained about limited access to Parks and Recreation's call center. To provide this service, new ongoing costs for technology services, licensing, telecommunications and banking fees will be \$50,000 annually, mostly technology services. Fee revenue is estimated at \$15,000 for FY 08, will partially offset the cost to implement and maintain this technology and would grow with projected increased use of the Internet registrations over time. Customers will still be able to book reservations through current methods. At \$3.00 per transaction, the City's fee is half of other comparable services (State Parks: Camping Reservations - \$7.50 processing fee; Sonoma Regional Parks: \$7 processing fee)

Planning Department

Fee Name: Special Districts Application Fee

Current Fee: \$5,000 regardless of the district type

Proposed Fee: \$7,500 for non-bond Districts; \$12,500 for bond Districts

Justification: The current fee was last changed in 1994 and is a means to cover staff and miscellaneous costs prior to actual formation of a district or an annexation to a district. This approach insures that preliminary costs will be paid if the district does not form or annex. If a district does form, the preliminary charge can be refunded with costs recovered from bonds or assessments, or the charge can be a credit against such bonds or assessments. Costs now average about \$7,500 for districts not involving bond financing and \$12,500 for districts with bonds. Costs not recovered are paid by the General Fund. The County currently charges \$12,500 for all district formations and annexations. The City of Elk Grove charges \$7,000. Roseville charges \$7,500 for districts not involving financing.

Proposed New Enterprise Fund Fees or Fee Increases

Convention, Culture, and Leisure - Sacramento Archives and Museum Collection Center

The Sacramento Archives and Museum Collection Center (SAMCC) houses both regional historical museum collections and public and private archives. Public archives include City, County and local special districts. SAMCC recommends the implementation of a fee increase for commercial duplication and reproduction of materials in its collection.

The fees and charges for duplication of materials in the SAMCC collection were last changed in 2004. Since then, increased use of new technologies, such as digital imaging and scanning, and on-line posting of Archives images, have expanded the types of services available to both the general public and commercial users. These new technologies have simultaneously increased demand for these services. In addition, the identification of markets for the licensed use of film and video has evolved with technology and market demand.

The increased fee revenue will recover the cost of extended staff time needed to reproduce materials and meet the challenges of the new technology. SAMCC's fees are substantially lower than their counterparts in Sacramento and other western cities and states. SAMCC staff does not recommend a change to the fees for private and non-profit use. A summary of specific proposed changes follows.

SACRAMENTO ARCHIVES AND MUSEUM COLLECTION CENTER (SAMCC)

Proposed Fee Increase, FY 2007-08 (Effective July 1, 2007)

Service	Current Fee	Proposed Fee
Photographic Reproduction	(vendor fee - paid separately)	No Change
User Fee, Non-commercial	\$6.50 per image	No Change
User Fee, Commercial	\$13.00 per image	\$26.00 per image
Digital Reproduction, Scans (RUSH)	\$50 per image, plus \$3.00 for CD	No Change
User Fee, Non-commercial	\$6.50 per image	No Change
User Fee, Commercial	\$13.00 per image	\$26.00 per image
Digital Reproduction, Camera	none	No Change
User Fee, Non-commercial	\$6.50 per image	No Change
User Fee, Commercial	\$13.00 per image	\$26.00 per image

Utilities

The Department of Utilities is currently unable to recover costs for numerous miscellaneous water and sewer fees due to increased fuel and material costs, and increased labor costs.

Service costs for Tap installations have increased by an average of 18% over the last three years. Although labor rates went up, the overhead rate went down. Equipment costs went up due to fuel costs and replacement costs. Labor and equipment accounts for about 4% of the overall per year increase. The biggest fee increases appear in the larger tap installation because the prior fee analysis separated tap fees into only two categories; large and small. To allocate costs more equitably, tap fees have been separated into 3 categories; small medium and large. Because of this restructuring, the cost to install a medium size tap has gone down, while large tap installation costs have increased and reflects their true costs. Larger tap installations require additional labor and equipment to complete the work, which was not factored in previous studies. This fee restructuring more accurately reflects the true cost of services.

While the actual cost of meters have decreased due to volume discounts, the cost of installing a meter, in some cases, has increased. The cost of service for installation of an one-inch meter increased by 6% representing 83% of all water service installation while other size installations have decreased in cost due to reduced meter prices and efficiencies.

The proposed recommendations have been compared to other similar agencies and

remain, in most cases within comparable levels. Several agencies that the department surveyed plan to examine their current rates and recommend increases to reflect their current costs of service.

Miscellaneous water fees were last updated in 2005; miscellaneous sewer fees were last updated in 1996. With the proposed fee structure, Water fees will increase by 8.5% (or 2.8% per year) since the last update and sewer fees will increase by 54% (or 4.9% per year) since the last update.

In order to continue providing the current service levels, the department recommends the following fee adjustments that reflect the estimated, reasonable cost of providing the services.

FY08 MISCELLANEOUS FEES CHANGE RECOMMENDATIONS
