Organization No: 4915

Description/Analysis

Issue: The existing district is required by the Property and Business Improvement District Area Law of 1994 to present before City Council an annual budget for approval. Approval of the district's annual budget will authorize the City to collect assessments in the amount sufficient to provide funding for economic development, community service initiatives, public projects advocacy and planning within the Richards Boulevard Redevelopment Area for FY2007-08.

Policy Considerations: The annual proceedings for this district are being processed as set forth in section 36600 of the California Streets and Highways Code, entitled "Property and Business Improvement District Law of 1994." This process is consistent with the City's Strategic Plan 3 Year Goal to "achieve sustainability and enhance livability" and to "expand economic development throughout the City."

Environmental Considerations: Under the California Environmental Quality Act (CEQA) guidelines, annual proceedings of a Special District do not constitute a project, and are therefore exempt from review.

Committee/Commission Action: None

Rationale for Recommendation: The actions in the recommended Resolutions are required by the California Streets and Highways Code, which is codified as part 7 (beginning with section 36600) of division 18.

Financial Considerations: Financing will be provided by levy of assessments upon real property that benefits from improvements and activities. The PBID does not plan to issue bonds.

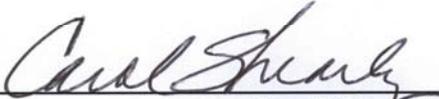

The PBID assessment budget for FY 2007/08 is \$285,392 (Details on Exhibit “B”, page 11). The River District PBID will receive an approximate total of \$281,064. The remaining \$4,328 will be retained by the City to cover City administration cost.

Program	Budget	% of Total
Community Service Initiatives	\$100,525	35.0
Economic Development	\$85,863	30.0
Transportation/Public Projects Advocacy & Planning	\$57,049	20.0
River District Administration	\$41,955	15.0
Total	\$ 285,392	100.0

The properties within the district are categorized in two benefit zones. The assessment rates for each zone are based on the levels of service and benefit received. Assessment rates are determined as a cost per acre. The rates proposed for FY 2007/08 are \$389.00 per acre for Zone 1, \$96.00 per acre for Zone 2.

Emerging Small Business Development (ESBD): City Council approval of these proceedings is not affected by City policy related to the ESBD Program.

BACKGROUND

The River District PBID was approved by City Council on July 27, 1999, in accordance with the Property and Business Improvement District Area Law of 1994. The District was renewed for 10 more years on July 27, 2004 and became effective on January 1, 2005. The District provides funding for the following services within the Richards Boulevard Redevelopment Area: Community Service Initiatives providing daily security patrol and trash abatement: Economic Development outreach and activities to convey a positive image for the area: Transportation/Public Projects Infrastructure Advocacy and Planning to advance the design and implementation of new roadway, transit, utility and streetscape project, etc.

The annual assessments are based upon allocation of program costs on a cost per acre calculation. The assessment rates proposed for FY 2007/08 will increase by 5% as voted on by the River District Board of Directors and approved by the District Management Plan. The annual assessment rate is adjusted to compensate for higher business costs and to avoid reductions in services. The rates proposed for FY 2007/08 are \$389.00 per acre for Zone 1, \$96.00 per acre for Zone 2.

The River District PBID Advisory Board has prepared the Annual Report, which is on file with the City Clerk. The report addresses the current and proposed budgets and services to be provided.
