Honorable Mayor and  
 Members of the City Council

**Title: Sutter Business Improvement District**

**Location/Council District:** District 3

**Recommendation:** Adopt a **Resolution** indicating the City's intent to proceed with establishment of a new Sutter Business Improvement District entailing the levy of assessments on food service businesses in the area bounded by 27th to 29th Streets, between J and P Streets.

**Contact:** Tom Zeidner, Sr. Economic Development Project Manager, 808-1931

**Presenters:** None

**Department:** Economic Development

**Division:** Citywide

**Organization No:** 4453

### **Description/Analysis**

**Issue:** Staff has been in discussions with the ownership/management of several restaurants and nightclubs in an area known as the "Sutter District" (located generally between 27th and 29th Streets, from J to O Streets) concerning possible formation of a new business improvement district (BID) in the area. The California Streets and Highway Code authorizes cities to establish BIDs for purposes of providing improvements and activities to benefit businesses located within such districts. Food and beverage businesses within the Sutter District are interested in forming a "Sutter Business Improvement District" (SBID). The SBID is proposed to be a benefit assessment district formed to address a need for additional security in the area and to coordinate marketing efforts promoting the Sutter District's identity and attributes as a destination.

If approved by the City Council, the SBID proposes to levy and collect an annual assessment and occupancy charge from restaurants, bars, nightclubs, diners and other businesses selling prepared food within the boundaries of the SBID. This structure contemplates collecting one and half percent (1.5%) of establishments' gross food sales (current interpretation of state law does not

allow for like assessment of alcohol sales). The occupancy charge would be set between \$1,000 and \$10,000 annually, based on business type and seating capacity. Smaller establishments will not be subject to the occupancy charge.

The intent of the SBID in levying these assessments is to fund a budget of approximately \$200,000 to pay for services within the District. The proposed services are to include security, marketing and promotions, and support of the B Street Theater. Security, expected to account for 70% of the District's budget initially, will focus on control of late-night crowds and their impacts on nearby residential areas.

The attached Resolution indicates the City's intent to establish the SBID, levy the assessments described above and conduct both a public meeting and a public hearing at a later date to consider formal approval of the SBID. Staff will be reporting back to the City Council with further details of the SBID and its mission in connection with the public meeting and hearing.

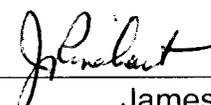

**Policy Considerations:** The actions described in this report are consistent with City planning efforts including the Economic Development Strategy which encourages the establishment of additional BIDs in commercial areas of the City.

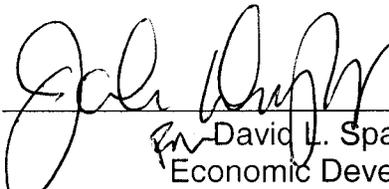

**Environmental Considerations:** The requested actions are not a project as defined by CEQA as they do not involve activities that may cause a direct or indirect impact on the environment. Environmental review will be performed in conjunction with specific projects related to the actions described in this report.

**Rationale for Recommendation:** These actions are consistent with earlier-adopted City planning efforts, including the Economic Development Strategy.

**Financial Considerations:** The actions recommended in this report have no direct financial impact on the City. Staff will report back in connection with the above-referenced public hearing, at which time City expenses (and reimbursement of City expenses) in connection with collecting the SBID's assessments will be discussed.
