

These petitions represent continuing supporters of the East Sacramento Preservation Task Force position regarding Mercy Hospital's Expansion project, to the extent ESPTF has been able determine.

Format of petitions has varied, however, content of the "Petition" message remained consistent.

Some duplicate names remain due to placement of multiple names on a page.

Contact East Sacramento Preservation Task Force for any questions at 492-5677 message line, or Cindy Oropeza, Co-Chair 215-7141.

East Sacramento Preservation Task Force
formerly Save Our Neighborhood
 5714 Folsom Blvd. PMB 169
 Sacramento, CA 95819
 (916) 492-5677

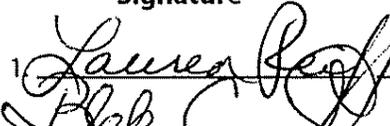

Our task force opposes Catholic Healthcare West (CHW) Corporation's expansion of Mercy General Hospital. Please join us by signing below in opposing this development. Petitions will be presented to the Sacramento City Council. *This form is for your household to sign and return.*

EVERY SIGNATURE IS IMPORTANT. RETURN THE FORM WITH EVEN ONE SIGNATURE.

PETITION

I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic, years of construction, and a commercialization of the neighborhood. I urge CHW to consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

PETITION AGAINST MERCY'S EXPANSION

Catholic Healthcare West (CHW) Corporation wants to "shoehorn" a new six story hospital building on the emergency room parking lot of Mercy General Hospital at 39th & J Streets. CHW plans to make up for the lost parking space by expanding once again, this time westward across 39th St. to put in another parking lot.

ESPTF is a grassroots neighborhood organization representing more than 1300 East Sacramento residents who have declared their opposition to CHW's out of scale development by signing the Petition below. We will present the Petition to the Sacramento City Council. If you want to declare your opposition to CHW's expansion plans, join us by signing the Petition below. Ask your neighbors to sign it too.

Please return the signed Petition to ESPTF by mail to the address below or by FAX to 916-446-7412.

PETITION

I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic (causing decreased safety, increased congestion and noise), years of construction, and a commercialization of the neighborhood. I urge CHW to seriously consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

Our task force opposes Catholic Healthcare West (CHW) Corporation's expansion of Mercy General Hospital. Please join us by signing below in opposing this development. Petitions will be presented to the Sacramento City Council. *This form is for your household to sign and return.*

EVERY SIGNATURE IS IMPORTANT. RETURN THE FORM WITH EVEN ONE SIGNATURE.

----- (fold here to mail page back) -----

PETITION			
I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic, years of construction, and a commercialization of the neighborhood. I urge CHW to consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

----- (fold here to mail page back) -----

You may indicate what specific issues concern you most:

- Increased traffic congestion
- Ever increasing parking needs with hospital expansion of services
- Direct impact on residences, erosion of quality of environment
- Negative impact on the 300 Sacred Heart Elementary School children
- Increased commercial encroachment, associated with the hospital
- Years of disruptive construction
- Noise & air pollution

PLEASE CONTACT ME TO ACTIVELY ASSIST in working on this community concern.

PETITION AGAINST MERCY'S EXPANSION

Catholic Healthcare West (CHW) Corporation wants to "shoehorn" a new six story hospital building on the emergency room parking lot of Mercy General Hospital at 39th & J Streets. CHW plans to make up for the lost parking space by expanding once again, this time westward across 39th St. to put in another parking lot.

ESPTF is a grassroots neighborhood organization representing more than 1300 East Sacramento residents who have declared their opposition to CHW's out of scale development by signing the Petition below. We will present the Petition to the Sacramento City Council. If you want to declare your opposition to CHW's expansion plans, join us by signing the Petition below. Ask your neighbors to sign it too.

Please return the signed Petition to ESPTF by mail to the address below or by FAX to 916-446-7412.

PETITION

I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic (causing decreased safety, increased congestion and noise), years of construction, and a commercialization of the neighborhood. I urge CHW to seriously consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

PETITION			
I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic, years of construction, and a commercialization of the neighborhood. I urge CHW to consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

PETITION AGAINST MERCY'S EXPANSION

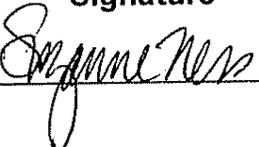

Catholic Healthcare West (CHW) Corporation wants to "shoehorn" a new six story hospital building on the emergency room parking lot of Mercy General Hospital at 39th & J Streets. CHW plans to make up for the lost parking space by expanding once again, this time westward across 39th St. to put in another parking lot.

ESPTF is a grassroots neighborhood organization representing more than 1300 East Sacramento residents who have declared their opposition to CHW's out of scale development by signing the Petition below. We will present the Petition to the Sacramento City Council. If you want to declare your opposition to CHW's expansion plans, join us by signing the Petition below. Ask your neighbors to sign it too.

Please return the signed Petition to ESPTF by mail to the address below or by FAX to 916-446-7412.

PETITION

I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic (causing decreased safety, increased congestion and noise), years of construction, and a commercialization of the neighborhood. I urge CHW to seriously consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

----- (fold here to mail page back) -----

PETITION			
I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic, years of construction, and a commercialization of the neighborhood. I urge CHW to consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.

You may indicate what specific issues concern you most:

- Increased traffic congestion
- Ever increasing parking needs with hospital expansion of services
- Direct impact on residences, erosion of quality of environment
- Negative impact on the 300 Sacred Heart Elementary School children
- Increased commercial encroachment, associated with the hospital
- Years of disruptive construction
- Noise & air pollution

WE ARE VERY MUCH INTERESTED IN THIS EFFORT, BUT WE HAVE BEEN WORKIN SEVERAL YEARS ON THE TRAFFIC PROBLEM ON H STREET. WE LIVE IN A VERY DANGEROUS LOCATION AND SEVERAL APPROACHES TO OUR COUNCILMAN AND TRAFFIC DEP'T. HAS BEEN BARELY ACKNOWLEDGED. THERE IS THE PROBLEM OF SPEED, NO ENFORCEMENT - A SEEMINGLY COMPLETE LACK OF UNDERSTANDING THE CONDITION AND LACK OF INTEREST !! (OVER)

PETITION AGAINST MERCY'S EXPANSION

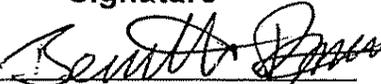

Catholic Healthcare West (CHW) Corporation wants to "shoehorn" a new six story hospital building on the emergency room parking lot of Mercy General Hospital at 39th & J Streets. CHW plans to make up for the lost parking space by expanding once again, this time westward across 39th St. to put in another parking lot.

ESPTF is a grassroots neighborhood organization representing more than 1300 East Sacramento residents who have declared their opposition to CHW's out of scale development by signing the Petition below. We will present the Petition to the Sacramento City Council. If you want to declare your opposition to CHW's expansion plans, join us by signing the Petition below. Ask your neighbors to sign it too.

Please return the signed Petition to ESPTF by mail to the address below or by FAX to 916-446-7412.

PETITION

I am opposed to any building projects that result in the further expansion of Mercy General Hospital. I believe that any further expansion of this campus would lead to a degradation of our quality of life because of increased traffic (causing decreased safety, increased congestion and noise), years of construction, and a commercialization of the neighborhood. I urge CHW to seriously consider alternative proposals that would entail locating these proposed facilities at a more appropriate geographic location.
