CITY OF SACRAMENTO
Investment Policy
(Revised **01/29/04**)

I. INTRODUCTION

The purpose of this document is to state the policies and procedures that enhance opportunities for a prudent and systematic investment process within the City of Sacramento Treasurer's office. The City Treasurer is responsible for investing and reporting upon the surplus funds in the City Treasury in accordance with the authority granted by City Charter Section 73, City Council ordinances and resolutions, **California Government Code**, the Administration, Investment and Fiscal Management Board of the Sacramento City Employees Retirement System (SCERS), the Ann Land/Bertha Henschel Memorial Fund Commission, the Ethel MacLeod Hart Fund Commission, George H. Clark Scholarship Memorial Fund Trustees, Sacramento Housing and Redevelopment Agency Ordinances and resolutions, and other entities as approved by the City Council.

II. INVESTMENT POLICY

The Investment Policy of the City Treasurer is to maximize investment return consistent with prudent investment practices. This shall be accomplished through the establishment of:

- A. Investment program goals and objectives, on a portfolio-by-portfolio basis;
- B. Programs applying recognized portfolio management techniques;
- C. Delegation of investment authority limits for staff, and
- D. Investment Committee strategies approved by the City Treasurer.

As it pertains to City Investment Pool A and public fund investments of the City of Sacramento, the Investment Policy is generally California Government Code Sections 53600.5 and 53601 compliant. However, when in the opinion of the City Treasurer deviation from such policy is prudent, the City Treasurer shall seek City Council approval prior to purchasing such investments.

III. INVESTMENT PROGRAM GOAL

The primary investment goal of the City Treasurer is to earn a maximum rate of return on investments that follow "Prudent Person" guidelines as outlined in California Civil Code Section 2261, **California Government Code Section 53600.3** or other investment

management portfolio guidelines that are considered standards for the investment of public and trust funds.

IV. OBJECTIVE

A. SCERS

- To earn a rate of return from investments at least equal to the actuarial earnings assumption of the SCERS through the prudent implementation of investment policy, guidelines and approved current investment strategy.

B. CITY POOL A OR OTHER **CITY PUBLIC** INVESTMENT FUNDS

- To earn a rate of return from investment at least equal to the Local Agency Investment Fund of the State of California or other appropriate index through the prudent implementation of investment policy, guidelines and approved current investment strategy. **The allowable investments for purchase without previous City Council approval to purchase and deemed prudent by the City Treasurer are shown as ATTACHMENT A-1 (Allowable Investment Instruments per State Government Code 53601).**

C. SACRAMENTO HOUSING AND REDEVELOPMENT AGENCY (SHRA)

- Pool D
 - For investment of federal funds the primary objective is liquidity and safety. The funds, as identified by SHRA, will be invested in U.S. Government securities and investments. It should be invested prudently in conformance with federal regulations and scheduled to mature to meet the estimated cash needs of SHRA.
 - For non-federal funds, to be in conformance with State investment guidelines for local governmental entities, especially redevelopment agencies. To earn a rate of return from investment at least equal to the Local Agency Investment Fund of the State of California or other appropriate index through the prudent implementation of investment policy, guidelines and approved current investment strategy.
- Other **SHRA** Pools
 - The primary objective is liquidity and safety. The funds will be invested consistent with State investment guidelines and bond covenants and using prudent investment practices in accordance

with SHRA’s investment guidelines and approved current investment strategy.

D. TRUST FUNDS (ANN LAND/BERTHA HENSCHEL PUBLIC TRUST MUTUAL FUND, ETHEL MACLEOD HART FUND, GEORGE H. CLARK MEMORIAL SCHOLARSHIP) OR OTHER INVESTMENT FUNDS (CADA, UNITED WAY OF SACRAMENTO) MANAGED BY THE CITY TREASURER WITH CITY COUNCIL APPROVAL

- To earn a rate of return from investments that maximizes interest income through the prudent implementation of investment policy, guidelines and approved current investment strategy.

V. ADDITIONAL CONSIDERATIONS

A. IMPORTANT FACTORS TO CONSIDER

- **Portfolio management shall be conducted in a prudent manner, and**
- Reasonable care shall be taken with respect to the preservation of principal of invested capital, and
- The City’s investment portfolios shall maximize earnings **after consideration that the portfolio** is sufficiently liquid to meet all operating requirements.

B. IMPLEMENTATION STRATEGIES AND GUIDELINES

The following strategies should be considered:

- Credit and financial analysis for selection of approved investments and/or issuers;
- Routine reviews of current U.S. economic policy;
- Analysis and interpretation of Federal Reserve policy;
- Interface with Wall Street economists;
- Maintenance and forecast of yield curve patterns;
- Awareness of market conditions and ability to execute orders;
- Routine reviews of investments and funds available to assure maximum return is achieved;
- Routine reports on investment activity consummated and investment results
- Development and maintenance of investment manuals for each investment portfolio managed, and
- Routine reviews of investment policy and strategies at Investment Committee meetings.

C. RECOGNIZED PORTFOLIO MANAGEMENT TECHNIQUES

- Rate anticipation swaps on the condition that no more than 10% of any investment portfolio may be in such condition at any given time.
- Arbitrage swaps, which take advantage of additional, yield by switching from the same or an equivalent security in order to take advantage of unusual price discrepancies. For the above to be considered as execution of recognized portfolio management techniques, the following requirements regarding the maturity date of the instrument ultimately purchased are as follows:

For securities that mature within 3 years from date of initial action:

The maturity date of the investment ultimately purchased must be within 30 days prior to or after the maturity date of the security initially owned.

For securities that mature longer than 3 years from date of original action:

The maturity date of the investment ultimately purchased must be within 6 months prior to or after the maturity date of the investment security initially owned.

- Sector and/or time spread swaps, which take advantage of the potential for additional yield by restructuring the portfolio when normal relationships are out of line.
- Reverse Repurchase Agreements or Security Loans to enhance investment income of the portfolio.
- Interfund Purchase – Sales are only permitted to maximize the investment income of the affected managed funds, whenever the internal handling costs would be exorbitant or a temporary price distortion would occur in the market place as a result of the restricted marketability of the investment vehicle to be sold. Such transactions shall be made in compliance with the adopted Interfund Investment Transfer Procedures.

D. BOOKKEEPING GAINS (LOSSES)

- Net gain (loss) limits
- Bookkeeping losses for investment portfolio management techniques are permitted so long as the ultimate interest income earned from an alternative investment exceeds the bookkeeping loss. Bookkeeping gains (losses) not to exceed \$10,000 on a single sale are within the authority of the Chief Investment Officer. Any bookkeeping gains (losses) to be incurred in excess of \$10,000 in a single sale must first be approved by the Assistant City Treasurer, with a maximum limit on net-booked gains (losses) of \$100,000

per month without further approval of the City Treasurer. The intent of the trading operation is to enhance investment income and maintain a net trading benefit position.

- Net trading benefit position is defined as the additional net investment income that will be earned as a result of the execution of portfolio management techniques. The criteria to measure such benefits will be to calculate the net investment income that would have been earned from an authorized investment security had the portfolio management technique not been executed, and comparing this amount to the net investment income that will be earned as a result of execution of the portfolio management technique.

E. **QUALIFICATION OF BROKER, DEALERS, AND FINANCIAL INSTITUTIONS:**

- Authorized broker/dealers and financial institutions will be selected and evaluated pursuant to the City Treasurer's Broker/Dealer Selection Policy. The procedure considers such issues as services provided, the credit characteristics and financial history of the firm, and the evaluation of the "Success/Opportunity Ratio" throughout the period in which the firm is transacting business with the City.

VI. **DELEGATION OF INVESTMENT AUTHORITY**

A. The City Treasurer delegates investment authority to the following:

- Chief Investment Officer
- Deputy City Treasurers
- Investment Officer(s)

B. Investment transactions in excess of trading limits are to be directed and approved by the City Treasurer.

C. Trading limits are established for transactions not covered in Section VI-B, above.

Trading limits authorize investment transactions as follows:

- City Treasurer:
10% of the investment portfolio(s) at any time, with additional authority as justified by the occasion. A report will be made to the appropriate entity when more than 10% of the portfolio is traded at one time.
- Chief Investment Officer:

5% of the investment portfolio(s) at any time without additional approval of the City Treasurer.

- Deputy City Treasurer:
2-1/2% of the investment portfolio in the absence of the City Treasurer and the Chief Investment Officer.
- Senior Investment Officer:
2-1/2% of the investment portfolio(s) without prior approval of the City Treasurer. (Allows Repo transaction of up to \$10MM without prior approval of the Chief Investment Officer or the City Treasurer.)
- Investment Officer II:
1-1/2% of the investment portfolio(s) without prior approval of the City Treasurer. (Allows Repo transaction of up to \$10MM without prior approval of the Chief Investment Officer or the City Treasurer.)
- Investment Officer I:
May execute a transaction of up to \$5MM in Repo without prior approval of the Chief Investment Officer of the City Treasurer.
- Trading limit guidelines and definitions:
The transaction limits (except Repo) apply to one side of a trade. Example: a \$2MM security is sold, a \$2MM security may be purchased. This should not be construed to mean that the authority allows \$4MM in purchases.
- Trading limits permit investment staff limited discretion for investment selections that may not have been approved in advance by the City Treasurer or the appropriate regulatory body.
- Transactions falling into the trading limit category should be reported to the City Treasurer within 48 hours and at the next scheduled Investment Committee meeting.
- Trading limits do not authorize over-trading, churning or chaining investment activity.

VII. INVESTMENT STRATEGIES

A. An Investment Committee is established and comprised of the following:

- City Treasurer
- Chief Investment Officer
- Investment Officer(s)

The intent of the Investment Committee is to report and review all investment activity and investment strategies. The Investment Committee will meet periodically, as prudent and required.

Investment strategies, which have been approved by the City Treasurer, shall be in force and implemented through the direction of the Chief Investment Officer. Investment strategies will be reviewed at least quarterly.
