

## **RESOLUTION NO. 2005-768**

Adopted by the Sacramento City Council

October 25, 2005

### **CITY HALL SECURITY PLAN**

#### **BACKGROUND**

- A. Security at the City Hall Complex is important because of the need to provide a safe and secure environment for the public and for the City staff and its elected officials.
- B. A multi-department, interdisciplinary team consisting of the Police Department, a contracted security company, and the building operations team researched and developed the initial security plan.
- C. The basic premise of the security plan is that all individuals visiting City Hall are required to be identified by wearing a badge.
- D. As feedback continues to be received from the public, staff, and the Mayor and City Council offices, the security process will continue to be modified to improve the ability to serve the City staff and its elected officials and the public as efficiently and effectively as possible.

#### **BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:**

- Section 1. The City Manager is authorized to implement the City Hall Security Plan which includes the security staffing plan and visitor process as outlined, and to modify the plan as deemed necessary, with periodic updates to City Council.
- Section 2. During an interim period until such time as staff returns with additional information, identification will be required. Without identification, a person must pass through the metal detector to gain access to City Hall. Direction was given to staff to return with in 60 fays with an analysis of the cost of the permanent installation of metal detectors, the issue of requiring identification and all associated costs.

Adopted by the City of Sacramento City Council on October 25, 2005 by the following vote:
