**Contact:** David Hung, Associate Planner, 808-5530; Gregory Bitter, Senior Planner, 808-7816

**Presenters:** David Hung, Associate Planner

**Department:** Development Services Department

**Division:** Planning

**Organization No:** 4875

**Summary:**

The applicant is requesting entitlements to allow the development of 14,000± square feet of retail uses and 110 condominium units and a clubhouse in the Metropolitan Center PUD. Amendments to the General Plan and Community Plan land use maps, as well as a rezone of the subject property, are necessary to provide consistency with the proposed land uses; a PUD Schematic Amendment is required to designate residential and retail uses in the Metropolitan Center PUD. Entitlements for Tentative Maps and Special Permits are also required to develop the proposed project.

**Committee/Commission Action:**

On February 23, 2006, the Planning Commission unanimously approved (eight ayes and zero noes) the River's End Mixed Use project and forwarded the recommendation to the City Council for approval on the General Plan Amendment, Community Plan Amendment, Rezone and PUD Schematic Plan Amendment. At the same meeting, the Planning Commission approved the Mitigated Negative Declaration, Mitigation Monitoring Plan, Tentative Maps and Special Permits for the project.

**Background Information:**

On October 10, 1989 the City Council approved a Tentative Map and Schematic Plan for the Metropolitan Center PUD, dividing the 15.7± Shopping Center PUD (SC PUD) zone into 10 lots and providing clarification of specific uses and location of proposed building types (P89-234). Adjacent to the proposed project site, the most recent development includes a special permit (P02-002) to develop 9,700 square feet of commercial retail and restaurant uses on 1.28± vacant acres in the Shopping Center Planned Unit Development (SC-PUD) zone. Of the original 111,000 square feet of commercial development allocated for Gateway Oaks Center, 60,051 square feet have been developed, which results in a remainder of 50,949 square feet of commercial development to be allowed in the Gateway Oaks Center portion of the Metropolitan Center PUD.

The applicant is now requesting entitlements to allow the development of 14,000± square foot retail uses on 1.33± acres and 110 condominium units on 6.03± acres.

**Financial Considerations:**

This project has no fiscal considerations.

**Environmental Considerations:**

The Environmental Services Manager has determined the project, as proposed, will not have a significant impact to the environment; therefore, a Negative Declaration has been prepared. In compliance with Section 15070(B)1 of the California Environmental Quality Act Guidelines, the applicant has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where clearly no significant impacts will occur. These mitigation measures address Biological Resources, Noise, Aesthetics, Light and Glare, Hazards and Cultural Resources. Pursuant to provisions of the California Environmental Quality Act (CEQA) and the CEQA Guidelines, an initial study/draft mitigated negative declaration was circulated for a public review and comment period from January 26, 2006 to February 14, 2006; no comments were received by the end of the review period.

**Policy Considerations:**

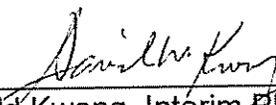

The project is consistent with the General Plan policy to provide adequate housing opportunities for all income households and to accommodate projected housing needs and the General Plan goal to promote economic vitality and diversification of the local economy. The proposal implements the goals and policies of the South Natomas Community Plan to provide housing of varied types, densities and prices, arranged to enhance neighborhood identity.

Smart Growth Principles- City Council adopted a set of Smart Growth Principles in December 2001 in order to encourage development patterns that are sustainable and balanced in terms of economic objectives, social goals, and use of environmental/natural resources. The subject proposal will provide medium high density residential and commercial developments that foster a walkable community and promote cycling and public transit.

Strategic Plan Implementation- The recommended action conforms with the City of Sacramento Strategic Plan, specifically by adhering to goals that achieve sustainability and enhance livability, promote increased housing opportunities for Sacramento residents and to expand economic development throughout the City.
