Summary:

The City of Sacramento Fire Department is in need of weed abatement and debris removal services in compliance with the City's Weed and Rubbish Abatement Program. Through this program, the City contracts with approved vendors to abate potential hazards in those cases where the property owner has received adequate notice, but failed to abate the property. For this particular solicitation, the City Clerk received five sealed bids for the provision of weed abatement and debris removal services citywide. Attachment 1 lists bid totals and related information for each bid submitted. Staff recommends adoption of the attached Resolution approving the specifications of the bid and awarding contracts to:

S & L Enterprises/Zavala's Landscaping, 6073 – 14th Street, Sacramento, CA 95822, in an amount not to exceed \$125,000; Cordell's Weed Abatement, 2931 Silk Court, Sacramento, CA 95822, in an amount not to exceed \$225,000; and Hedmeck's Ag Assistance, P.O. Box 653, Orangevale, CA 95662, in an amount not to exceed \$36,000 for a combined total amount not to exceed \$386,000 per contract year. The duration of each contract is one year, with the option to renew up to four additional one-year periods. The potential five-year total of these contracts is \$1,930,000.

Committee/Commission Action: None

Background Information:

- The City's Weed and Rubbish Abatement Program, administered by the City of Sacramento Fire Department, was established in 1972 to ensure the timely removal of weeds and rubbish from private property within the City limits. (Sacramento City Code, Chapter 8.28, Weed and Rubbish Abatement).
- The City awards contracts to vendors for performance of these services when private landowners fail, following adequate notice, to remove weeds or rubbish from their property. Failure to abate properties as required poses a potential fire hazard to the community.
- Work orders for weed and rubbish abatement services are issued to contractors whenever such services are deemed necessary by the City Fire Department.
- Work orders for services are issued to one or more contractors based on their bid ranking, scope of work, personnel availability, and equipment availability and capability.
- Since the program's inception in 1972, the City has awarded contracts for the discing or mowing of weeds and removal of rubbish and debris for approximately 2,000 privately owned parcels.

Financial Considerations:

Costs of weed abatement and debris removal services performed for the City's Weed and Rubbish Abatement Program are fully recoverable from private property owners. In addition, the City charges private property owners a fee (currently \$110.00) that helps offset the administrative and inspection costs of the Weed Abatement Program.

Environmental Considerations:

The City's Environmental Services Manager has determined that weed abatement and/or debris removal services are exempt from the requirements of the California Environmental Quality Act (CEQA), pursuant to Section 15301(h) of the CEQA Guidelines, as these services involve the maintenance of existing facilities. In the event the Weed Abatement Officer detects a potentially sensitive area, the condition will be reported to the Environmental Services Division for direction. Abatement will be

suspended at that location until instruction is provided. This process is similar to the approach taken when potentially hazardous materials are located at an abatement site.

Policy Considerations:

This recommendation is consistent with City requirements for competitive bidding as detailed in Sacramento City Code 3.56 and the requirements as detailed in Chapter 8.28 for Weed and Rubbish Abatement. It is also consistent with the City Council goal of enhancing and preserving neighborhoods.

The Equal Benefits Ordinance (EBO) and the Living Wage Ordinance (LWO) are applicable to these contracts. Signed Declarations of Compliance are on file in the Procurement Services office.

Emerging Small Business Development (ESBD):

Invitations for Bid (IFBs) were sent to 30 vendors, 13 of which were certified Emerging/Small Business Enterprises (ESBEs). One of the three firms recommended for award, Cordell's Weed Abatement, is certified E/SBE firm.
