2. DR10-093 New Residence on Alley (Noticed on 11/03/10)	Michael Gibson	Support	As the owner of 2217 C Street I support approval of this project. I believe that it will have a positive impact on the neighborhood and the alley in particular. The design seems in line with other alley projects in midtown. I do not see an impact on the character of the neighborhood from the street or the alley that borders industrial zoning along railroad tracks. Owners of these smaller lots? should be able to excercise their rights within the existing codes as their neighbors do.	11/16/2010
