*Antonio,*

*This letter is in regards to project number P10-001.*

*I moved here from Placerville about eight months ago, As I only use my cell phone for phone service I was vary surprised when I moved into my new house to find poor service (AT&T) than I found out that the only tower was out on Broadway. I live at 707 McClatchy Way so I am surrounded by a large concrete building to the West a concert wall to the East.*

*If this cell tower at Odd Fellows Cemetery is approved and installed, it will help those people living in Land Park that rely on there cell phones. As many of us have seen these tree look alike cell towers blend in to the landscape well and after a short amount of time look like they have always been there.*

*Thank you for allowing me to address these issues*
