**RE: M09-019 65th Street Station Area Study and General
Plan Amendments (Item 9 on agenda)**
Requested Insert into the plan, phase I or sooner, a crosswalk on
Recommendation:: the north side of Broadway across 65th Street

Dear Commissioners:

We are a commercial property owner in the subject area, the 65th Street Corner @ Broadway (2992 65th Street). This is a commercial area across the street from student housing, bike path to park, ball field & points east, bus stop and within ½ mile of the light rail hub in a pedestrian designated area. The addition of the crosswalk will assist in our efforts to comply with the City request for increasing pedestrian and bicycle access to the center for employees & patrons.

This has been previously been submitted to the RAC and Tahoe Park Community Group which are on record for the preserving the Pedestrian element of the adopted plan. In addition, the crosswalk will contribute to pedestrian safety making southbound traffic turning west on Broadway more alert.

Sincerely,

Robert A. Rosenberg, CCIM

Reference:

65Th Street Station Area Study and General Plan Amendments which is item 9 on the agenda)

Planning Commission,

My name is Elizabeth Cantu and I am a resident of the Tahoe Park/ Terrace Neighborhood and a member of the 65Th Street RAC and other Community organizations. The RAC is highly in favor of increasing the pedestrian circulation in the RAC and we have discussed the need for a crosswalk on the north side of Broadway (across 65Th Street). Please insert the crosswalk into Phase I or sooner of the plan and carry out the adopted pedestrian element of the area. This important crosswalk connects the bicycle path, bus stop, parks and student housing as well as being less than a half mile from the light rail hub.

Thank you,

Elizabeth Cantu
