

# SAY "NO" TO A POULTRY SLAUGHTER PROCESING PLANT NEAR THE SACRAMENTO SPCA

New American Poultry has applied to operate a 12,060 square foot poultry slaughter processing plant at 8612 Younger Creek Drive (near the Sacramento SPCA shelter). The Sacramento Society for the Prevention of Cruelty to Animals believes the operation of this type of business in the industrial area surrounding the SPCA would cause significant concerns with our over 1,500 volunteers and 20,000 donors, and recommend that another site be chosen.

Please join us in our opposition of this project by signing this petition, which we will deliver to the City of Sacramento Community Development Department. It is estimated that the project will go before the Planning Commission during a public hearing on March 10, 2011 at 5:30 pm at 915 I Street, in the New City Hall.

Thank you for your support.
