

Planning Commission eComments - for 5/12/11

Item	Name	Neighborhood	Position	Comment	Received
10. M11-010 Community Gardens (Noticed 5/2/11)	Fatima Malik	Citywide	Oppose	<p>Thank you for drafting this initial ordinance? however? it is not sufficient nor does it meet the needs of the population.</p> <p>The cost of doing this the biggest set back; there are financial and other barriers throughout the entire ordinance that would cause more harm than good and are arbitrary? overtly restrictive? unfair. This ordinance should allow sales of food produced on the property.</p> <p>This is a fear based ordinance that requires more community building aspects.</p>	5/11/2011
8. P11-020 River City Food Bank (Noticed 5/2/11)	Frank Lindsen	District 3	Oppose	<p>This WILL have a negative impact on our neighborhood. They're increasing the size of the operation by 65%. We already have a DAILY battle with the welfare office (DHHS)? a food bank will make things worse here. Illegal parking? major grafitti? trash & dirty diapers in our yards & gutters? loud offensive language & music? urinating and defacating on the sides of our homes will get worse with more public assistance here. We need jobs in that building. Special permit should NOT be granted.</p>	5/11/2011
