Item	Name	Neighborhood	Position	Comment	Received
6. P11-091 Red Rabbit Restaurant (Noticed on 01/27/12)	Chris Brune	District 3	Support	I am a recent transplant to the East Sacramento neighborhood? an active community member? a young professional and an enthusiastic supporter of The Red Rabbit restaurant on the twenty-seven hundred block of J Street. With the demise of redevelopment in the state I see private ventures such as Red Rabbit as essential to the future vibrancy of our community. The concept brings variety & authenticity to our local restaurant ecosphere. They're bringing the best part of the farm to table to life.	2/7/2012
6. P11-091 Red Rabbit Restaurant (Noticed on 01/27/12)	Michael Murphy	District 4	Support	I support the compromise proposed by Marshall School/New Era Park Neighborhood Assoc. and The Red Rabbit. I think it is a compromise that will not ruin the business and preserve the livability of the Marshall School neighborhood. The idea that a business should have to provide valet parking 7 days a week is too financially cumbersome. If these restrictions are not revised? the community will continue to be burdened with an empty storefront on J Street. I support staff recommendation.	2/5/2012

Mark Hefling

Support Planning Committee Members... As a nearby 2/2/2012
resident? I fully support the efforts of The
Red Rabbit. I enthusiastically await their
Grand Opening and can't wait for the group
of Sacramento natives to become a big hit in
the neighborhood. Their efforts to be
forthcoming/transparent about their plans
from their initial meeting with the
Neighborhood Association? Planning
Department and other nearby neighbors is a
showing of their willingness to be part of not
only Midtown but our neighborhood.
