To: Members of the Active Transportation Commission

Subject: Upcoming 2020 Items

Location/Council District: Citywide

Recommendation: Receive and Comment

Contact: Drew Hart, City of Sacramento, Transportation Program Specialist, (916) 808-6725, City Public Works Department, Transportation Division

Summary:

Many items of interest which are currently underway will be presented to the Active Transportation Commission in 2020.

Background Information:

Shared Rideables Update
Staff will provide a report to City Council on the progress of the Shared Rideables program in early 2020. The report will also be shared with the Active Transportation Commission.

2020 Grant Applications
Each year staff applies for grant funding to plan, design, and build transportation infrastructure including the Active Transportation Program, SACOG’s Community Design, Local Partnership Program, the Highway Safety Improvement Program, and others. Staff will provide a report to the Commission on the applications in the works.

Stockton Blvd Corridor Study
Staff are developing a plan for transportation improvements focused on safety and mobility. Staff will seek community input on design alternatives around April. The Plan is anticipated to be adopted by City Council in Summer 2020.

Pocket Greenhaven Neighborhood Transportation Plan
Staff will kick off a transportation plan for the Pocket Greenhaven Neighborhood in early 2020. The Plan will study and evaluate transportation improvements to support walking, bicycling, and driving at slower speeds.

Transportation Master Plan
In early 2020 the Public Works department will kick off the Transportation Master Plan which will develop a comprehensive approach to address mobility needs, ongoing maintenance, and limited transportation funding.
General Plan Mobility Element
Transportation Planning staff are participating in the City's General Plan Update. Staff will seek input from the commission as the Mobility Element develops.

Work Zone Detours
The City’s Work Zone Detour Policy will be updated in 2020 and iterations of the updated policy will be brought to the Commission.

Bike Parking Update
Staff will provide and update to the Commission on bike rack installations throughout the city.
